This Statement of Additional Information ("SAI") is not a prospectus. It should be read in conjunction with the current prospectus of the Mission-Auour Risk-Managed Global Equity Fund (the "Fund") dated December 28, 2017 as listed below, as it may be supplemented or revised from time to time. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. This SAI incorporates by reference the Fund's Annual Report for the fiscal year ended December 31, 2016. Copies of the Fund's Prospectus, Annual Report, and/or Semi-Annual Report may be obtained, free of charge, by writing to World Funds Trust, 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 or by calling (800) 673-0550.

THE TRUST

General. World Funds Trust (the "Trust") was organized as a Delaware statutory trust on April 9, 2007. The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act") and commonly known as a "mutual fund". The Declaration of Trust permits the Trust to offer separate series ("funds") of shares of beneficial interest ("shares"). The Trust reserves the right to create and issue shares of additional funds. The fund is a separate mutual fund, and each share of the fund represents an equal proportionate interest in that fund. All consideration received by the Trust for shares of any fund and all assets of such fund belong solely to that fund and would be subject to liabilities related thereto. The Fund pays its (i) operating expenses, including fees of its service providers, expenses of preparing prospectuses, proxy solicitation material and reports to shareholders, costs of custodial services and registering its shares under federal and state securities laws, pricing, insurance expenses, brokerage costs, interest charges, taxes and organization expenses; and (ii) pro rata share of the fund's other expenses, including audit and legal expenses. Expenses attributable to a specific fund shall be payable solely out of the assets of that fund. Expenses not attributable to a specific fund are allocated across all of the funds on the basis of relative net assets. The other funds of the Trust are described in one or more separate statements of additional information.

The Fund. This SAI relates to the Mission-Auour Risk-Managed Global Equity Fund (the "Fund"), and it should be read in conjunction with the prospectus the Fund. Prior to December 28, 2017, the Fund was designated as the Global Strategic Income Fund. On November 7, 2017, the Board of Trustees of the Trust appointed a new investment adviser and sub-adviser and approved revisions to the Fund's strategies. In conjunction with those changes, the Board also approved new and/or modified service provider relationships with certain of the operational service providers. Information about the Fund's operations prior to November 7, 2017, reflects times during which the Fund was overseen by the previous investment adviser and sub-adviser. During the period November 7, 2017 to December 28, 2017 the Fund transitioned its operational service relationships. This SAI is incorporated by reference into the Fund's prospectuses. No investment in shares should be made without reading the prospectuses. The Fund is a separate investment portfolio or series of the Trust. The Fund is "diversified" as that term is defined in the 1940 Act, the rules and regulations thereunder and the interpretations thereof.

As of the date of this SAI, the Fund is authorized to issue four classes of shares: Class A Shares, imposing a front end sales charge up to a maximum of 5.75% and charging a 0.25% 12b-1 fee; Investor Class Shares, charging a 0.25% 12b-1 fee; Institutional Class Shares charging no 12b-1 or sales charges; and Class Z shares charging no 12b-1 or sales charges.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES AND POLICIES

The Fund's investment objective and principal investment strategies are described in the prospectus. The Fund is a "diversified" series as that term is defined in the Internal Revenue Code of 1986, as amended (the "Code"). The following information supplements, and should be read in conjunction with, the prospectus. For a description of certain permitted investments discussed below, see "Description of Permitted Investments" in this SAI. To the extent the disclosure in this section described investments or investment techniques or strategies that the Fund may invest in or utilize, you should interpret such disclosure to mean that these are investments or investment techniques in which an Underlying Fund may invest or utilize.

Portfolio Turnover. Average annual portfolio turnover rate is the ratio of the lesser of sales or purchases to the monthly average value of the portfolio securities owned during the year,

excluding from both the numerator and the denominator all securities with maturities at the time of acquisition of one year or less. A higher portfolio turnover rate involves greater transaction expenses to the Fund and may result in the realization of net capital gains, which would be taxable to shareholders when distributed. Although the Sub-Adviser is responsible for selecting securities for the Fund's portfolio, the Adviser is responsible for implementing the trades at the Sub-Adviser's direction. Accordingly, the Fund's Adviser makes purchases and sales for the Fund's portfolio whenever necessary, in the Sub-Adviser's opinion, to meet the Fund's objective.

DESCRIPTION OF PERMITTED INVESTMENTS

The following discussion of investment techniques and instruments supplements, and should be read in conjunction with, the investment information in the Fund's prospectus. In seeking to meet its investment objective, the Fund may invest in any type of security whose characteristics are consistent with its investment programs. The Fund generally attempts to implement its investment strategies and achieve its objective by investing in the securities of other investment companies, including index exchange-traded funds ("ETFs") and mutual funds (i.e., Underlying Funds). The Fund will implement its respective investment strategies exclusively by investing in other investment companies and ETFs (defined below) (collectively "Underlying Funds"). In that regard, certain of the descriptions of the investments or techniques set forth below reflect that the investments and techniques are occurring indirectly through investments in Underlying Funds.

Equity Securities. The Underlying Funds in which the Fund invests may primarily hold a portfolio of equity securities. Equity securities are common stocks, preferred stocks, convertible preferred stocks, convertible debentures, American Depositary Receipts, rights and warrants. Convertible preferred stock is preferred stock that can be converted into common stock pursuant to its terms. Convertible debentures are debt instruments that can be converted into common stock pursuant to their terms. Warrants are options to purchase equity securities at a specified price valid for a specific time period. Rights are similar to warrants, but normally have shorter durations.

Investment Company Securities and ETFs. Subject to the restrictions and limitations of the Investment Company Act of 1940, as amended (the "1940 Act") and any SEC exemptive orders thereunder, the Fund will invest primarily in the securities of other investment companies (i.e., Underlying Funds). The Fund may invest in other mutual funds, money market funds, and ETFs, including ETFs that hold a portfolio of securities which closely tracks the price performance and/or dividend yield of various indices (described below), and other closed-end funds. When the Fund invests in other investment companies, it will indirectly bear its proportionate share of any fees and expenses payable directly by the investment company. In connection with its investments in other investment companies, a Fund will incur higher expenses, many of which may be duplicative. For example, shareholders may incur expenses associated with capital gains distributions by the Fund as well as the Underlying Funds in which the Fund invests. Shareholders may also incur increased transaction costs as a result of the Fund's portfolio turnover rate and/or because of the high portfolio turnover rates in the Underlying Funds. The Fund is not required to hold securities for any minimum period and, as a result, may incur short-term redemption fees and increased trading costs. When selecting Underlying Funds for investment, the Fund will not be precluded from investing in an Underlying Fund with a higher than average expense ratio. The Fund is independent from any of the Underlying Funds in which it invests and it has no voice in or control over the investment strategies, policies or decisions of the underlying funds. The Fund's only option is to liquidate its investment in an Underlying Fund in the event of dissatisfaction with the fund.

The Underlying Funds (particularly the ETFs) may attempt to replicate the performance of a particular index. An Underlying Fund may not always hold all of the same securities as the index it attempts to track. An Underlying Fund may use statistical sampling techniques to attempt to replicate the returns of an index. Statistical sampling techniques attempt to match the investment characteristics of the index and the fund by taking into account such factors as capitalization, industry exposures, dividend yield, price/earnings (P/E) ratio, price/book (P/B) ratio, and earnings growth. An Underlying Fund may not track the index perfectly because differences between the index and the fund's portfolio can cause differences in performance. In addition, expenses and transaction costs, the size and frequency of cash flow into and out of the fund, and differences between how and when the fund and the index are valued can cause differences in performance. When the Fund invests in Underlying Funds they will indirectly bear their proportionate share of any fees and expenses payable directly by the Underlying Fund. In connection with its investments in other investment companies, the Fund will incur higher expenses, many of which may be duplicative. Furthermore, because the Fund invests in shares of ETFs and Underlying Funds their performance is directly related to the ability of the ETFs and Underlying Funds to meet their respective investment objectives, as well as the allocation of the Fund's assets among the ETFs and Underlying Funds by the Adviser. Accordingly, the Fund's investment performance will be influenced by the investment strategies of and risks associated with the ETFs and Underlying Funds in direct proportion to the amount of assets the Fund allocates to the ETFs and Underlying Funds utilizing such strategies.

Investments in ETFs involve certain inherent risks generally associated with investments in a broadly-based portfolio of stocks, including risks that: (1) the general level of stock prices may decline, thereby adversely affecting the value of each unit of the ETF or other instrument; (2) an ETF may not fully replicate the performance of its benchmark index because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weightings of securities or number of stocks held; (3) an ETF may also be adversely affected by the performance of the specific index, market sector or group of industries on which it is based; and (4) an ETF may not track an index as well as a traditional index mutual fund because ETFs are valued by the market and, therefore, there may be a difference between the market value and the ETF's net asset value. Additionally, investments in fixed income ETFs involve certain inherent risks generally associated with investments in fixed income securities, including the risk of fluctuation in market value based on interest rates rising or declining and risks of a decrease in liquidity, such that no assurances can be made that an active trading market for underlying ETFs will be maintained.

The Fund may also invest in leveraged and inverse ETFs, including double inverse (or ultra-short) ETFs. Leveraged ETFs are riskier than traditional ETFs as they use borrowings and derivative instruments to generate a return in multiples of a benchmark index. Investments in inverse and leveraged ETFs may magnify and compound changes in the Fund's share price and results in increased volatility and potential loss. Inverse ETFs seek to negatively correlate to the performance of the particular index that they track by using various forms of derivative transactions, including by short-selling the underlying index. Ultra-short ETFs seek to multiply the negative return of the tracked index (e.g., twice the inverse return). As a result, an investment in an inverse ETF will decrease in value when the value of the underlying index rises. By investing in ultra-short ETFs and gaining magnified short exposure to a particular index, the Fund can commit less assets to the investment in the securities represented on the index than would otherwise be required. ETFs that seek to multiply the negative return on the tracked index are subject to a special form of correlation risk which is the risk that for periods greater than one day, the use of leverage tends to cause the performance of the ETF to be either greater than or less than the index performance times the stated multiple in the ETF's investment objective.

There is also a risk that the Underlying Funds or ETFs may terminate due to extraordinary events. For example, any of the service providers to the Underlying Fund or ETF, such as the trustee or sponsor, may close or otherwise fail to perform their obligations to the Underlying Fund or ETF, and the Underlying Fund or ETF may not be able to find a substitute service provider. Also, the Underlying Fund or ETF may be dependent upon licenses to use the various indices as a basis for determining their compositions and/or otherwise to use certain trade names. If these licenses are terminated, the respective Underlying Fund or ETF may also terminate. In addition, an Underlying Fund or ETF may terminate if its net assets fall below a certain amount. Although the Fund believes that in the event of the termination of an Underlying Fund or ETF, it will be able to invest instead in shares of an alternate Underlying Fund or ETF tracking the same market index or another index covering the same general market, there can be no assurance that shares of an alternate Underlying Fund or ETF would be available for investment at that time.

The Fund may invest in securities issued by other investment companies. Such securities will be acquired by the Fund within the limits prescribed by the 1940 Act, which with the exception of master/feeder arrangements, fund of fund arrangements and certain money market fund investments, generally include a prohibition that a fund may not acquire shares of another investment company (including ETFs) if, immediately after such acquisition, (i) such fund would hold more than 3% of the other investment company's total outstanding shares, (ii) if such fund's investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) if more than 10% of such fund's total assets would be invested in investment companies. The Securities and Exchange Commission (the "SEC") has granted orders for exemptive relief to certain ETFs that permit investments in those ETFs by other investment companies (such as the Fund) in excess of these limits. The Fund may invest in ETFs that have received such exemptive orders from the SEC, pursuant to the conditions specified in such orders. Additionally, in accordance with Section 12(d)(1)(F)(i) of the 1940 Act, the Fund may also invest in ETFs and other investment companies that have not received such exemptive orders as long as the Fund (and all of its affiliated persons, including the Adviser) does not acquire more than 3% of the total outstanding stock of such Underlying Fund, unless otherwise permitted to do so pursuant to permission granted by the SEC. If the Fund seeks to redeem shares of an Underlying Fund purchased in reliance on Section 12(d)(1)(F), the Underlying Fund is not obligated to redeem an amount exceeding 1% of the Underlying Fund's outstanding shares during a period of less than 30 days.

As of the date of this Registration Statement the SEC has proposed Rule 12d1-4 under the 1940 Act. Subject to certain conditions, proposed Rule 12d1-4 would provide an exemption to permit acquiring funds to invest in ETFs in excess of the limits of section 12(d)(1), including those described above.

Exchange-Traded Notes and Privately Issued Notes (collectively, "ETNs"). The Fund or the Underlying Funds in which the Fund may invest may invest in ETNs, which are debt securities of an issuer that are listed and traded on U.S. stock exchanges or otherwise traded in the over-the-counter market. Privately issued notes are similar to ETNs except that they are not listed and traded on U.S. stock exchanges or otherwise traded in the over-the-counter market. The U.S. federal income tax treatment of ETNs and privately issued note is uncertain in many respects. The IRS has issued very limited guidance. Most ETN prospectuses, PPMs, and SAIs decline to address issues applicable to a RIC's investment in an ETN in light of the uncertainty.

Although ETNs and privately issued notes are in form indebtedness, they are generally not treated as debt for tax purposes because the return on such a note does not have a clear "interest"

component that is based primarily upon the time value of money. For U.S. federal income tax purposes, in most cases the issuer of the ETN or privately issued note and the investors agree to treat all such notes, except certain currency ETNs, as prepaid executory contracts (such as a forward contract) with respect to the relevant index. If such a note were treated in this manner, investors would recognize gain or loss upon the sale, redemption, or maturity of their note in an amount equal to the difference between the amount they receive at such time and their tax basis in the note. Investors generally agree to treat such gain or loss as capital gain or loss, except with respect to those notes for which investors agree to treat such gain or loss as ordinary. Investors in instruments characterized as prepaid forward contracts typically, although not invariably, take the position that they are not required to accrue any income other than stated coupons, if any.

One key question is whether the income generated by an ETN or privately issued notes is good income for purposes of the RIC qualification tests. There is some uncertainty on this subject. The general approach in this regard is to look to the underlying benchmark or strategy. Certain benchmarks or strategies are similar to investments that produce good income and thus the thinking is that the ETNs or privately issued notes would produce good income. On the other hand, other benchmarks or strategies are similar to investments that do not produce good income and thus such ETNs or privately issued notes would not produce good income. Note, however, that there is no guidance on this subject.

Common Stocks. The Underlying Funds in which the Fund invests may invest in common stocks. Common stocks represent units of ownership in a company. Common stocks usually carry voting rights and earn dividends. Unlike preferred stocks, which are described below, dividends on common stocks are not fixed but are declared at the discretion of the company's board of directors.

Preferred Stock. The Underlying Funds in which the Fund invests may invest in preferred stock, which is a class of capital stock that pays dividends at a specified rate and that has preference over common stock in the payment of dividends and the liquidation of assets. Preferred stock does not ordinarily carry voting rights.

Most preferred stock is cumulative; if dividends are passed (not paid for any reason), they accumulate and must be paid before common dividends. A passed dividend on non-cumulative preferred stock is generally gone forever. Participating preferred stock entitles its holders to share in profits above and beyond the declared dividend, along with common shareholders, as distinguished from non-participating preferred, which is limited to the stipulated dividend.

Adjustable rate preferred stock pays a dividend that is adjustable, usually quarterly, based on changes in the Treasury bill rate or other money market rates.

Convertible Securities. The Underlying Funds in which the Fund invests may invest in convertible securities and considers such securities to be "equity securities" for purposes of its investment strategies. Traditional convertible securities include corporate bonds, notes and preferred stocks that may be converted into or exchanged for common stock, and other securities that also provide an opportunity for equity participation. These securities are convertible either at a stated price or a stated rate (that is, for a specific number of shares of common stock or other security). As with other fixed income securities, the price of a convertible security generally varies inversely with interest rates. While providing a fixed income stream, a convertible security also affords the investor an opportunity, through its conversion feature, to participate in the capital appreciation of the common stock into which it is convertible. As the market price of the underlying common stock declines, convertible securities tend to trade increasingly on a yield basis and so may not experience market value declines to the same extent as the underlying common

stock. When the market price of the underlying common stock increases, the price of a convertible security tends to rise as a reflection of higher yield or capital appreciation. In such situations, the Fund may have to pay more for a convertible security than the value of the underlying common stock.

Warrants. The Underlying Funds in which the Fund invests may invest in warrants. A warrant gives the right to buy a stock and specifies the amount of the underlying stock, the purchase (or “exercise”) price, and the date the warrant expires. If the price of the underlying stock does not rise above the exercise price before the warrant expires, the warrant generally expires without any value and the Fund loses any amount it paid for the warrant. Thus, investments in warrants may involve more risk than investments in common stock. Warrants may trade in the same markets as their underlying stock; however, the price of the warrant does not necessarily move with the price of the underlying stock.

Illiquid Securities. The Fund (and the Underlying Funds) may hold up to 15% of its net assets in illiquid securities. For this purpose, the term "illiquid securities" means securities that cannot be disposed of within seven days in the ordinary course of business at approximately the amount which the Fund has valued the securities. Illiquid securities include generally, among other things, certain written over-the-counter options, securities or other liquid assets as cover for such options, repurchase agreements with maturities in excess of seven days, certain loan participation interests and other securities whose disposition is restricted under the federal securities laws.

Master Limited Partnerships (“MLPs”). The Underlying Funds in which the Fund invests may invest in MLPs. MLPs are limited partnerships or limited liability companies, whose partnership units or limited liability interests are listed and traded on a U.S. securities exchange, and are treated as publicly traded partnerships for federal income tax purposes. To qualify to be treated as a partnership for tax purposes, an MLP must receive at least 90% of its income from qualifying sources as set forth in Section 7704(d) of the Code. These qualifying sources include activities such as the exploration, development, mining, production, processing, refining, transportation, storage and marketing of mineral or natural resources. MLPs generally have two classes of owners, the general partner and limited partners. MLPs that are formed as limited liability companies generally have two analogous classes of owners, the managing member and the members. For purposes of this section, references to general partners also apply to managing members and references to limited partners also apply to members. The general partner is typically owned by a major energy company, an investment fund, the direct management of the MLP or is an entity owned by one or more of such parties. The general partner may be structured as a private or publicly traded corporation or other entity. The general partner typically controls the operations and management of the MLP through an equity interest of as much as 2% in the MLP plus, in many cases, ownership of common units and subordinated units. Limited partners own the remainder of the MLP through ownership of common units and have a limited role in the MLP's operations and management.

MLPs are typically structured such that common units and general partner interests have first priority to receive quarterly cash distributions up to an established minimum amount ("minimum quarterly distributions" or "MQD"). Common and general partner interests also accrue arrearages in distributions to the extent the MQD is not paid. Once common and general partner interests have been paid, subordinated units receive distributions of up to the MQD; however, subordinated units do not accrue arrearages. Distributable cash in excess of the MQD paid to both common and subordinated units is distributed to both common and subordinated units generally on a pro rata basis. The general partner is also eligible to receive incentive distributions if the general partner operates the business in a manner which results in distributions paid per common unit

surpassing specified target levels. As the general partner increases cash distributions to the limited partners, the general partner receives an increasingly higher percentage of the incremental cash distributions. A common arrangement provides that the general partner can reach a tier where it receives 50% of every incremental dollar paid to common and subordinated unit holders. These incentive distributions encourage the general partner to streamline costs, increase capital expenditures and acquire assets in order to increase the partnership's cash flow and raise the quarterly cash distribution in order to reach higher tiers. Such results benefit all security holders of the MLP.

General partner interests of MLPs are typically retained by an MLP's original sponsors, such as its founders, corporate partners, entities that sell assets to the MLP and investors such as the Fund. A holder of general partner interests can be liable under certain circumstances for amounts greater than the amount of the holder's investment in the general partner interest. General partner interests often confer direct board participation rights and in many cases, operating control, over the MLP. These interests themselves are not publicly traded, although they may be owned by publicly traded entities. General partner interests receive cash distributions, typically 2% of the MLP's aggregate cash distributions, which are contractually defined in the partnership agreement. In addition, holders of general partner interests typically hold incentive distribution rights ("IDRs"), which provide them with a larger share of the aggregate MLP cash distributions as the distributions to limited partner unit holders are increased to prescribed levels. General partner interests generally cannot be converted into common units. The general partner interest can be redeemed by the MLP if the MLP unit-holders choose to remove the general partner, typically with a supermajority vote by limited partner unit-holders.

U.S. Government Securities. U.S. government securities may be backed by the credit of the government as a whole or only by the issuing agency. U.S. Treasury bonds, notes, and bills and some agency securities, such as those issued by the Federal Housing Administration and the Government National Mortgage Association ("GNMA"), are backed by the full faith and credit of the U.S. government as to payment of principal and interest and are the highest quality government securities. Other securities issued by U.S. government agencies or instrumentalities, such as securities issued by the Federal Home Loan Banks and the Federal Home Loan Mortgage Corporation, are supported only by the credit of the agency that issued them, and not by the U.S. government. Securities issued by the Federal Farm Credit System, the Federal Land Banks, and the Federal National Mortgage Association ("FNMA") are supported by the agency's right to borrow money from the U.S. Treasury under certain circumstances, but are not backed by the full faith and credit of the U.S. government.

Zero Coupon and Pay-in-Kind Bonds. Corporate debt securities and municipal obligations include so-called "zero coupon" bonds and "pay-in-kind" bonds. Zero coupon bonds do not make regular interest payments. Instead they are sold at a deep discount from their face value. Because a zero coupon bond does not pay current income, its price can be very volatile when interest rates change.

The Federal Reserve creates Separate Trading of Registered Interest and Principal of Securities ("STRIPS") by separating the coupon payments and the principal payment from an outstanding Treasury security and selling them as individual securities. A broker-dealer creates a derivative zero by depositing a Treasury security with a custodian for safekeeping and then selling the coupon payments and principal payment that will be generated by this security separately. Examples are Certificates of Accrual on Treasury Securities (CATs), Treasury Investment Growth Receipts (TIGRs) and generic Treasury Receipts (TRs). These derivative zero coupon obligations are not considered to be government securities unless they are part of the STRIPS program.

Original issue zeros are zero coupon securities issued directly by the U.S. government, a government agency or by a corporation.

Pay-in-kind bonds allow the issuer, at its option, to make current interest payments on the bonds either in cash or in additional bonds. The value of zero coupon bonds and pay-in-kind bonds is subject to greater fluctuation in response to changes in market interest rates than bonds which make regular payments of interest. Both of these types of bonds allow an issuer to avoid the need to generate cash to meet current interest payments. Accordingly, such bonds may involve greater credit risks than bonds which make regular payment of interest.

Foreign Securities. The Underlying Funds in which the Fund invests may invest in Underlying Funds that hold a portfolio of foreign securities. To the extent that a Fund has exposure to foreign equity or fixed income securities, it will be subject to certain considerations and risks that are not typically associated with investing in Underlying Funds that invest solely in domestic securities. There may be less publicly available information about a foreign issuer than a domestic one, and foreign companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. There may also be less government supervision and regulation of foreign securities exchanges, brokers and listed companies than exists in the United States. Interest and dividends paid by foreign issuers may be subject to withholding and other foreign taxes, which may decrease the net return on such investments as compared to dividends and interest paid to the Fund by domestic companies or the U.S. government. There may be the possibility of expropriations, seizure or nationalization of foreign deposits, confiscatory taxation, political, economic or social instability or diplomatic developments that could affect assets of the Fund held in foreign countries. Finally, the establishment of exchange controls or other foreign governmental laws or restrictions could adversely affect the payment of obligations.

Securities trading on overseas markets present time zone arbitrage opportunities when events affecting portfolio security values occur after the close of the overseas market, but prior to the close of the U.S. market. Fair valuation of an Underlying Fund's portfolio securities can serve to reduce arbitrage opportunities available to short term traders, but there is no assurance that fair value pricing policies will prevent dilution of an Underlying Fund's net asset value ("NAV") by short term traders.

Emerging Markets Securities. To the extent the Fund invests in Underlying Funds that invest in emerging markets securities it will be subject to additional risks. Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include: smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales; future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by a fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Additional risks of emerging markets securities may include: greater social, economic and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of currency hedging techniques;

companies that are newly organized and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause a fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Options. The Underlying Funds in which the Fund invests may enter into option transactions. The Underlying Funds may mainly purchase and sell options on securities indices. An option involves either (a) the right or the obligation to buy or sell a specific instrument at a specific price until the expiration date of the option, or (b) the right to receive payments or the obligation to make payments representing the difference between the closing price of a market index and the exercise price of the option expressed in dollars times a specified multiple until the expiration date of the option. Options are sold (written) on securities and market indices. The purchaser of an option on a security pays the seller (the writer) a premium for the right granted but is not obligated to buy or sell the underlying security. The purchaser of an option on a market index pays the seller a premium for the right granted, and in return the seller of such an option is obligated to make the payment. Options are traded on organized exchanges and in the over-the-counter market. The use of options is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions.

Options on securities indices are similar to options on a security or other instrument except that, rather than settling by physical delivery of the underlying instrument, they settle by cash settlement, i.e., an option on an index gives the holder the right to receive, upon exercise of the option, an amount of cash if the closing level of the index upon which the option is based exceeds, in the case of a call, or is less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the excess of the closing price of the index over the exercise price of the option, which also may be multiplied by a formula value. The seller of the option is obligated, in return for the premium received, to make delivery of this amount. The gain or loss on an option on an index depends on price movements in the instruments making up the market, market segment, industry or other composite on which the underlying index is based, rather than price movements in individual securities, as is the case with respect to options on securities.

Because certain derivatives may be viewed as creating leverage, that is, the amount invested may be smaller than the full economic exposure of the derivative instrument and an Underlying Fund could lose more than it invested, federal securities laws, regulations and guidance may require a Fund or Underlying Fund to earmark assets to reduce the risks associated with derivatives or to otherwise hold instruments that offset the Underlying Fund's obligations under the derivatives instrument. This process is known as "cover." An Underlying Fund should not enter into any derivative transaction unless it can comply with SEC guidance regarding cover, and, if SEC guidance so requires, an Underlying Fund will generally earmark cash or liquid assets with a value sufficient to cover its obligations under a derivative transaction or otherwise "cover" the transaction in accordance with applicable SEC guidance. If a large portion of an Underlying Fund's assets is used for cover, it could affect portfolio management or the Fund's ability to meet redemption requests or other current obligations. The leverage involved in certain derivative transactions may result in an Underlying Fund's net asset value being more sensitive to changes in the value of the related investment.

Futures Contracts. The Fund may invest in Underlying Funds that may purchase and sell futures contracts to hedge against changes in prices. The Underlying Funds may utilize Treasury futures to hedge against interest rate risk and inflation risk.

The Underlying Funds may engage in futures transactions for speculative or hedging purposes. The Underlying Funds may also write call options and purchase put options on futures contracts as a hedge to attempt to protect securities in its portfolio against decreases in value. Writing a call option on a futures contract is undertaking the obligation of selling a futures contract at a fixed price at any time during a specified period if the option is exercised. Conversely, as purchaser of a put option on a futures contract, the funds are entitled (but not obligated) to sell a futures contract at the fixed price during the life of the option.

When the Underlying Fund purchases futures contracts, an amount of cash and cash equivalents equal to the underlying commodity value of the futures contracts (less any related margin deposits) will be segregated on the books and records of the funds to collateralize the position and thereby insure that the use of such futures contract is unleveraged. When the Underlying Fund sells futures contracts or related option contracts, it will either own or have the right to receive the underlying future or security, or will make deposits to collateralize the position as discussed above. When futures and options on futures are used as hedging devices, there is a risk that the prices of the securities subject to the futures contracts may not correlate perfectly with the prices of the securities in the funds' portfolio. This may cause the futures contract and any related options to react differently than the portfolio securities to market changes. In addition, an investment adviser could be incorrect in its expectations about the direction or extent of market factors such as stock price movements. In these events, the Underlying Fund may lose money on the futures contract or option. It is not certain that a secondary market for positions in futures contracts or for options will exist at all times. There is no assurance that a liquid secondary market on an exchange or otherwise will exist for any particular futures contract or option at any particular time. An Underlying Fund's ability to establish and close out futures and options positions depends on this secondary market.

The Fund is being operated by an investment adviser that has claimed an exemption from registration with the Commodity Futures Trading Commission as a commodity pool operator under the Commodity Exchange Act, and therefore the investment adviser is not subject to registration or regulation as a commodity pool operator under that Act. This claim of exemption from registration as a commodity pool operator is pursuant to Rule 4.5 promulgated under the Commodity Exchange Act. Specifically, in accordance with the requirements of Rule 4.5(b)(1), the Fund will limit its use of commodity futures contracts and commodity options contracts to no more than (i) five percent (5%) of the Fund's liquidation value being committed as aggregate initial premium or margin for such contracts or (ii) one hundred percent (100%) of the Fund's liquidation value in aggregate net notional value of commodity futures, commodity options and swaps positions.

Cash Equivalents. The Fund may invest in Underlying Funds that invest in cash and high-quality short-term fixed-income securities. All money market instruments can change in value when interest rates or an issuer's creditworthiness change dramatically. These short-term fixed-income securities are described below:

a. **Repurchase Agreements.** Repurchase agreements are agreements by which a fund purchases a security and obtain a simultaneous commitment from the seller to repurchase the security at an agreed upon price and date. The resale price is in excess of the purchase price and reflects an agreed upon market rate unrelated to the coupon rate on the purchased security. Repurchase agreements must be fully collateralized and can be entered into only with well-established banks and broker-dealers that have been deemed creditworthy by the Adviser.

Repurchase transactions are intended to be short-term transactions, usually with the seller repurchasing the securities within seven days. Repurchase agreements that mature in more than seven days are subject to a fund's limit on illiquid securities. When a fund enters into a repurchase agreement it may lose money if the other party defaults on its obligation and the fund is delayed or prevented from disposing of the collateral. A loss may be incurred if the value of the collateral declines, and it might incur costs in selling the collateral or asserting its legal rights under the agreement. If a defaulting seller filed for bankruptcy or became insolvent, disposition of collateral might be delayed pending court action.

b. Bank Obligations. Bank obligations include banker's acceptances, negotiable certificates of deposit and non-negotiable time deposits, including U.S. dollar-denominated instruments issued or supported by the credit of U.S. or foreign banks or savings institutions. All investments in bank obligations are limited to the obligations of financial institutions having more than \$1 billion in total assets at the time of purchase, and investments by the respective Fund in the obligations of foreign banks and foreign branches of U.S. banks will not exceed 10% of the respective Fund's total assets at the time of purchase.

c. Commercial Paper. The Fund may invest in Underlying Funds that hold commercial paper. Commercial paper will consist of issues rated at the time of investment as A-1 and/or P-1 by S&P, Moody's or similar rating by another nationally recognized rating agency. In addition, the Underlying Fund may acquire unrated commercial paper and corporate bonds.

d. Investment Company Securities. (*See Above*). The Fund may invest in Underlying Funds such as money market funds and short-term bond funds.

Temporary Investments. To maintain cash for redemptions and distributions and for temporary defensive purposes, the Fund may invest in money market mutual funds and in investment grade short-term fixed income securities including short-term U.S. government securities, negotiable certificates of deposit, commercial paper, banker's acceptances and repurchase agreements.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), *i.e.*, they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of the Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of a Fund is present or represented at such meeting; or (2) more than 50% of the outstanding shares of a Fund. Other investment practices which may be changed by the Board of Trustees without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental ("Non-Fundamental").

The Fund:

1. The Fund shall be a "diversified company" as that term is defined in the 1940 Act, as interpreted or modified by regulatory authorities from time to time.
2. The Fund may not underwrite securities issued by others except to the extent the Fund may

be deemed to be an underwriter under the federal securities laws, in connection with the disposition of portfolio securities.

3. The Fund may not purchase or sell physical commodities or commodity futures contracts, except as permitted by the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
4. The Fund may not borrow money except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
5. The Fund may not make loans to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
6. The Fund may not invest more than 25% of the value of its net assets in any one industry or group of industries (except that securities of the U.S. government, its agencies and instrumentalities are not subject to these limitations).
7. The Fund may not issue any senior security to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
8. The Fund may not purchase or sell real estate except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.

Except with respect to borrowing and circumstances where the Fund is required to “cover” its positions, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectus is adhered to at the time a transaction is effected, later changes in percentage resulting from any cause other than actions by the Fund will not be considered a violation. Currently, subject to modification to conform to the 1940 Act as interpreted or modified from time to time, the Fund is permitted, consistent with the 1940 Act, to borrow, and pledge its Shares to secure such borrowing, provided, that immediately thereafter there is asset coverage of at least 300% for all borrowings by a Fund from a bank. If borrowings exceed this 300% asset coverage requirement by reason of a decline in net assets of a Fund, the Fund will reduce its borrowings within three days (not including Sundays and holidays) to the extent necessary to comply with the 300% asset coverage requirement. The 1940 Act also permits the Fund to borrow for temporary purposes only in an amount not exceeding 5% of the value of its total assets at the time when the loan is made. A loan shall be presumed to be for temporary purposes if it is repaid within 60 days and is not extended or renewed. To the extent outstanding borrowings of a Fund exceed 5% of the value of the total assets of the Fund, the Fund will not make additional purchases of securities – the foregoing shall not be construed to prevent the Fund from settling portfolio transactions or satisfying shareholder redemptions orders. The SEC has indicated, however, that certain types of transactions, which could be deemed “borrowings” (such as firm commitment agreements and reverse repurchase agreements), are permissible if a Fund “covers” the agreements by establishing and maintaining segregated accounts.

Currently, with respect to senior securities, the 1940 Act and regulatory interpretations of relevant provisions of the 1940 Act establish the following general limits, subject to modification to conform to the 1940 Act as interpreted or modified from time to time: Open-end registered investment companies such as the Fund is not permitted to issue any class of senior security or to sell any senior security of which they are the issuers. The Trust is, however, permitted to issue

separate series of Shares (the Fund is a series of the Trust) and to divide those series into separate classes. The Fund has no intention of issuing senior securities, except that the Trust has issued its Shares in separate series and may divide those series into classes of Shares. Collateral arrangements with respect to forward contracts, futures contracts or options, including deposits of initial and variation margin, are not considered to be the issuance of a senior security for purposes of this restriction.

With respect to the percentages adopted by the Trust as maximum limitations on its investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

INVESTMENT ADVISER AND SUB-ADVISER

The Adviser Mission Institutional Advisors, LLC, dba Mission Funds Advisors (the "Adviser"), located at 2651 North Harwood Street, Suite 525, Dallas, Texas 75201, manages the investments of the Fund pursuant to an investment advisory agreement (the "Advisory Agreement"). The Adviser is a limited liability company and was organized on August 22, 2017 and became registered as an investment adviser with the Securities and Exchange Commission in November of 2017. As of November 30, 2017, the Adviser had approximately \$12,600,000 million in assets under management. Mr. Michael A. Young is President of the Adviser and Mr. Jeffrey J. Groves is Chief Executive Officer of the Adviser.

The Adviser assumed responsibility for managing the Fund pursuant to an interim advisory agreement on November 7, 2017. Under the terms of the interim advisory agreement, the Adviser was entitled to receive compensation at the rate of 1.25%, which was the annualized fee rate in place for the previous investment adviser to the Fund; however, the Adviser voluntarily waived fees such that the compensation during the interim period accrued at the rate of 0.60% - all compensation during the interim period was held in an escrow account. On December 28, 2017, shareholders of the Fund approved the Advisory Agreement and that agreement became effective on December 29, 2017.

Under the terms of the Advisory Agreement, the Adviser manages the investment portfolio of the Fund, subject to the policies adopted by the Trust's Board of Trustees. Under the Advisory Agreement, the Adviser, at its own expense and without reimbursement from the Trust, furnishes office space and all necessary office facilities, equipment and executive personnel necessary for managing the assets of the Fund. Under the Advisory Agreement, the Adviser assumes and pays all ordinary expenses of the Fund, except that the Fund pays all management fees, brokerage fees and commissions, taxes, interest expense, Underlying Fund fees and expenses, all expenses which it is authorized to pay pursuant to Rule 12b-1 under the 1940 Act, and extraordinary or non-recurring

expenses. The Adviser is authorized, subject to approval by the Board and if applicable shareholders of the Fund.

For its services with respect to the Fund, the Adviser is entitled to receive an annual management fee calculated daily and payable monthly, as a percentage of the Fund’s average daily net assets at the rate of 0.60%. The Adviser retains the right to use the names “Mission” and “Auour” or any derivative thereof in connection with another investment company or business enterprise with which the Adviser is or may become associated. The Trust’s right to use the names “Mission” and “Auour” or any derivative thereof automatically ceases ninety days after termination of the Advisory Agreement and may be withdrawn by the Adviser on ninety days written notice. The services furnished by the Adviser under the Advisory Agreement are not exclusive, and the Adviser is free to perform similar services for others.

The Adviser may make payments to banks or other financial institutions that provide shareholder services and administer shareholder accounts. If a bank or other financial institution were prohibited from continuing to perform all or a part of such services, management of the Fund believes that there would be no material impact on the Fund or its shareholders. Financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of the financial institution’s services will be lower than to those shareholders who do not. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

Effective December 29, 2017, the Adviser entered into a written expense limitation agreement under which it has agreed to limit the total expenses of the Fund (exclusive of interest, distribution fees pursuant to Rule 12b-1 Plans, taxes, acquired fund fees and expenses, brokerage commissions, extraordinary expenses and dividend expense on short sales) to an annual rate of 1.20% of the average daily net assets of the Investor, Class A and Institutional Classes of shares of Fund and 1.12% of the Class Z shares. The Adviser may not terminate this expense limitation agreement prior to April 30, 2019. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within three fiscal years following the fiscal year in which the expense was incurred, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and at the time the waiver or reimbursement is recouped.

Prior to November 7, 2017, the Fund was managed by another investment adviser at the annual rate of 1.25% on the first \$500 million of average daily net assets and 1.00% of average daily net assets over \$500 million of the Fund. The previous investment adviser received the following payments for each of the years set forth below ending on December 31:

	2016	2015	2014
Gross Advisory Fees	\$178,199	\$213,905	\$268,811
Waivers and reimbursements	\$107,124	\$192,856	\$157,563
Net Advisory fees	\$ 71,075	\$ 21,049	\$111,248

The Adviser has retained the services of Auour Investments, LLC (“Sub-Adviser”), 162 Main St., Suite 2, Wenham, MA 01984, pursuant to the terms of a sub-advisory agreement (the “Sub-Advisory Agreement”) to serve as sub-adviser to the Fund. The Sub-Adviser is controlled by

Joseph B. Hosler, Robert Z. Kuflinec and Kenneth J. Doerr. As of November 30, 2017, the Sub-Adviser had approximately \$180 million in assets under management. The Sub-Adviser has provided investment advisory services to high net worth individuals, pension and profit sharing plans and charitable organizations since March 15, 2013. The Sub-Adviser began providing sub-advisory services on November 7, 2017. At a meeting held on December 28, 2017, shareholders of the Fund approved the Sub-Advisory Agreement and that agreement became effective on December 29, 2017. Under the Sub-Advisory Agreement, the Sub-Adviser is responsible for the day-to-day decision-making with respect to the Fund's investment program although the Adviser retains the authority and responsibility to execute portfolio transactions on behalf of the Fund. The Sub-Adviser, with the Adviser's oversight, manages the investment and reinvestment of the assets of the Fund, continuously reviews, supervises and administers the investment program of the Fund, determines in its discretion the securities to be purchased or sold and provides the Trust and its agents with records relating to its activities. The Adviser pays the Sub-Adviser at the annualized rate of 0.45% for average daily net assets of the Fund. During the interim period described herein, the Sub-Adviser was not compensated by the Adviser under the interim sub-advisory agreement.

A discussion regarding the basis for the Board's approval of the Advisory Agreement with the Adviser and the Sub-Advisory Agreement will be available in the Fund's annual report to shareholders for the year ended December 31, 2017.

Agreement between the Adviser and the Sub-Adviser. As noted above, per the terms of the Sub-Advisory Agreement between the Adviser and the Sub-Adviser, the Sub-Adviser is responsible for the day-to-day investment management responsibilities for the Fund. In addition, the Adviser and the Sub-Adviser contemplate an on-going relationship between the parties pursuant to a separate agreement wherein, among other things: (i) the Adviser agrees to recommend to the Board that the Sub-Adviser continue to serve as sub-adviser for the Fund subject to Board approval and other conditions, insofar as recommendation is consistent with the Adviser's and Board's fiduciary duties; (ii) the Sub-Adviser agrees not to provide advisory or sub-advisory services to other open-end investment management companies with similar investment objectives to that of the Fund without providing advance notice to the Adviser; (iii) the Sub-Adviser makes certain concessions related to the expense limitation arrangements (as described in the Fund's Prospectus) for the Fund; and (iv) the Sub-Adviser agrees to share in certain expenses that are absorbed by the Adviser related to marketing and distribution. To the extent the Sub-Adviser does not provide advisory or sub-advisory services to other open-end investment management companies with similar investment objectives to that of the Fund that the Adviser deems to be a competitive conflict, and otherwise complies with the conditions of the separate agreement, the Sub-Adviser will be entitled to portion of any sales proceeds resulting from any future sale of the Adviser. Nothing in the separate agreement or any other arrangement between the Adviser and Sub-Adviser contemplate any future sale of the Adviser at this time. The separate agreement also contemplates a degrees of marketing support to be provided by the Sub-Adviser to the Adviser, non-solicitation of employees, and the right of the Sub-Adviser to recoup fees that it may waive.

PORTFOLIO MANAGERS

Portfolio Manager - As described in the prospectus, Messrs. Joseph B. Hosler, Robert Z. Kuflinec and Kenneth J. Doerr, serve as the Portfolio Managers responsible for the day-to-day investment management of the Fund and have done so since November 7, 2017 under the terms of an interim agreement and effective as of December 29, 2017 pursuant to the terms of the Sub-Advisory Agreement. This section of the SAI includes information about the Portfolio Managers, including

information about other accounts they manage, the dollar range of Fund shares owned and compensation.

The following table provides information as of November 30, 2017, regarding any other accounts managed by the portfolio manager for the Fund. As noted in the table, the portfolio manager managing the Fund may also manage or be a member of management teams for other similar accounts.

Portfolio Manager (Fund)	<u>Registered Investment Companies</u>		<u>Other Pooled Investment Vehicles</u>		<u>Other Accounts</u>	
	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)	Number of Accounts	Total Assets (in millions)
Joseph B. Hosler	0	\$0	0	\$0	653	\$190
Accounts where compensation is based upon account performance	0	\$0	0	\$0	0	\$0
Robert Z. Kutinec	0	\$0	0	\$0	653	\$190
Accounts where compensation is based upon account performance	0	\$0	0	\$0	0	\$0
Kenneth J. Doerr	0	\$0	0	\$0	653	\$190
Accounts where compensation is based upon account performance	0	\$0	0	\$0	0	\$0

As of November 30, 2017, Messrs. Hosler, Kutinec and Doerr did not beneficially own shares of the Fund.

Conflicts of Interests. The Portfolio Manager's management of "other accounts" may give rise to potential conflicts of interest in connection with their management of a Fund's investments, on the one hand, and the investments of the other accounts, on the other. The other accounts may have the same investment objective as the Fund. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the Portfolio Manager could favor one account over another. Another potential conflict could include the Portfolio Manager's knowledge

about the size, timing and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of other accounts and to the disadvantage of the Fund. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Compensation. The Portfolio Managers do not receive compensation that is based upon the Fund, any separate account strategy, partnership or any other commingled account's, or any private account's pre- or after-tax performance, or the value of the assets held by such entities. The Portfolio Managers do not receive any special or additional compensation from the Adviser for their service as Portfolio Manager. The Portfolio Managers receives a salary from the Adviser. In addition to base salary, the Portfolio Managers may receive additional bonus compensation which is tied to the overall financial operating results of the Adviser.

Fund Shares Owned by the Portfolio Managers. The following table shows the dollar range of equity securities beneficially owned by the Portfolio Managers in the Fund as of November 30, 2017.

Name of Portfolio Manager	Dollar Range of Equity Securities in the Fund
Joseph B. Hosler	None
Robert Z. Kufinec	None
Kenneth J. Doerr	None

SERVICE PROVIDERS

Administrator, Fund Accountant and Transfer Agent. Pursuant to a Fund Services Agreement, Commonwealth Fund Services, Inc. (“CFS”), 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235, serves as the Fund’s administrator, transfer agent and accounting agent.

In its capacity as administrator, CFS supervises all aspects of the operations of the Fund except those performed by the Adviser. CFS will provide certain administrative services and facilities for the Fund, including preparing and maintaining certain books, records, and monitoring compliance with state and federal regulatory requirements. CFS, as administrative agent for the Fund, will provide shareholder, recordkeeping, administrative and blue-sky filing services.

As transfer agent, CFS provides certain shareholder and other services to the Fund, including furnishing account and transaction information and maintaining shareholder account records. CFS will be responsible for processing orders and payments for share purchases. CFS will mail proxy materials (and receive and tabulate proxies), shareholder reports, confirmation forms for purchases and redemptions and prospectuses to shareholders. CFS will disburse income dividends and capital distributions and prepare and file appropriate tax-related information concerning dividends and distributions to shareholders.

CFS also provides accounting services to the Fund. CFS will be responsible for accounting relating to the Fund and its investment transactions; maintaining certain books and records of the Fund; determining daily the net asset value per share of the Fund; and preparing security position, transaction and cash position reports. CFS also monitors periodic distributions of gains or losses on portfolio sales and maintains a daily listing of portfolio holdings. CFS is responsible for providing expenses accrued and payment reporting services, tax-related financial information to the Trust, and for monitoring compliance with the regulatory requirements relating to maintaining accounting records.

CFS receives, for administrative services, an asset-based fee based computed daily and paid monthly on the average daily net assets of the Fund, subject to a minimum fee plus out-of-pocket expenses. CFS receives, for transfer agency services, per account fees computed daily and paid monthly, subject to a minimum fee plus out-of-pocket expenses. CFS receives, for fund accounting services, an asset-based fee, computed daily and paid monthly on the average daily net assets of the Fund, subject to a minimum fee plus out-of-pocket expenses.

Prior to November 7, 2017, CFS only provided administrative and transfer agency services to the Fund. The following table provides information regarding administrative services and transfer agency fees paid by the Fund to CFS during the periods indicated.

Prior to November 7, 2017, pursuant to a Custodian Agreement and the Accounting Agency Agreement with the Trust, Brown Brothers Harriman & Co. ("BBH"), 40 Water Street, Boston, Massachusetts 02109, acted as the custodian of the Fund's securities and cash and as the Fund's accounting services agent. The following table provides information regarding accounting services paid by the Fund to BBH during the periods indicated.

Fiscal Year Ended December 31,	Fees Paid for Administrative Services*	Fees Paid for Transfer Agent Services*	Fees Paid for Accounting Services**
2016	\$30,000	\$50,091	\$33,011
2015	\$30,000	\$58,522	\$45,449
2014	\$41,695	\$68,050	\$49,357

* Fees paid to CFS (and/or its affiliates/predecessors)

** Fees paid to BBH

Custodian. Fifth Third Bank (the "Custodian"), 38 Fountain Square Plaza, Cincinnati, Ohio 45263, serves as the custodian of the Fund's assets. The Custodian has entered into a foreign sub-custody arrangement with The Bank of New York, as the approved foreign custody manager (the Delegate) to perform certain functions with respect to the custody of the Fund's assets outside of the United States of America. The Delegate shall place and maintain the Fund's assets with an eligible foreign custodian; provided that, the Delegate shall be required to determine that the Fund's assets will be subject to reasonable care based on the standards applicable to custodians in the relevant market.

Distributor and Principal Underwriter. First Dominion Capital Corp. ("FDCC" or the "Distributor"), located at 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235, serves as the principal underwriter and national distributor for the shares of the Fund pursuant to a Distribution Agreement (the "Distribution Agreement"). Under the Distribution Agreement, the Distributor serves as the Fund's principal underwriter and acts as exclusive agent for the Fund in selling its shares to the public on a "best efforts" basis and then only in respect to orders placed – that is, the Distributor is under no obligations to sell any specific number of Shares. The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Fund and (ii) by the vote of a majority of the Trustees who are not "interested persons" of the Trust and have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval.

FDCC is registered as a broker-dealer and is a member of the Financial Industry Regulatory Authority. The offering of the Fund's shares is continuous. The Distributor may receive

distribution 12b-1 and service fees from the Fund, as described in the prospectus and this SAI. FDCC is entitled to a portion of the front-end sales charge on the sale of Class A Shares as described in the prospectus and this SAI. FDCC is also entitled to the payment of deferred sales charges upon the redemption of Fund shares as described in the Fund's prospectus and in this SAI. For its underwriting services, the Distributor may receive compensation from the Fund's 12b-1 Plan to the extent that such plan generates sufficient fees to compensate for these services; otherwise, the Fund's Adviser is responsible for payment for such underwriting services.

The table below shows the total compensation that the Fund paid to FDCC for the last three fiscal years:

Fiscal year ended December 31:	Net underwriting discounts and concessions	Compensation on redemptions and repurchases	Brokerage commissions	Other compensation ⁽¹⁾
2016	\$12	\$24	None	\$37,666
2015	\$518	\$312	None	\$45,749
2014	\$838	\$474	None	\$59,560

⁽¹⁾ Fees received pursuant to the Fund's Distribution (12b-1) and Services Fees.

Legal Counsel. The Law Offices of John H. Lively & Associates, Inc., a member firm of The 1940 Act Law Group™, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, KS 66211, serves as legal counsel to the Trust and the Fund.

Independent Registered Public Accounting Firm. The Fund's independent registered public accounting firm, Tait, Weller & Baker LLP, audits the Fund's annual financial statements, assists in the preparation of certain reports to the SEC, and prepares the Trust's tax returns. Tait, Weller & Baker LLP is located at 1818 Market Street, Suite 2400, Philadelphia, Pennsylvania 19103.

TRUSTEES & OFFICERS OF THE TRUST

Trustees and Officers. The Trust is governed by the Board, which is responsible for protecting the interests of shareholders. The trustees are experienced businesspersons who meet throughout the year to oversee the Trust's activities, review contractual arrangements with companies that provide services to the Fund and review performance. The names, addresses and ages of the trustees and officers of the Trust, together with information as to their principal occupations during the past five years, are listed below.

Each Trustee was nominated to serve on the Board of Trustees based on their particular experiences, qualifications, attributes and skills. Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience; (ii) qualifications; (iii) attributes; and (iv) skills. Mr. David J. Urban has been a Professor of Education since 1989. His strategic planning, organizational and leadership skills help the Board set long-term goals. Ms. Mary Lou H. Ivey has business experience as a practicing tax accountant

since 1996 and, as such, brings tax, budgeting and financial reporting skills to the Board. Mr. Theo H. Pitt has experience as an investor, including his role as trustee of several other investment companies and business experience as Senior Partner of a financial consulting company, as a partner of a real estate partnership and as an Account Administrator for a money management firm. The Trust does not believe any one factor is determinative in assessing a Trustee’s qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Chairman of the Board of Trustees is Ms. Ivey, who is not an “interested person” of the Trust, within the meaning of the 1940 Act. The Trust also has an independent Audit Committee that allows the Board to access the expertise necessary of oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and, through its private sessions with the Trust’s auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions.

Mutual funds face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund’s risks directly and through its officers. While day-to-day risk management responsibilities rest with the the Fund’s Chief Compliance Officer, investment advisers and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Fund; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust’s valuation policies and transaction procedures; (3) periodically meeting with the portfolio manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund’s investment advisers, administrator, distributor, transfer agent and the independent registered public accounting firm, to discuss the activities of the Fund; (5) engaging the services of the Chief Compliance Officer of the the Fund to monitor and test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust’s independent registered public accounting firm regarding the Fund’s financial condition and the Trust’s internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust’s compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the investment advisers and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

Following is a list of the Trustees and executive officers of the Trust and their principal occupation over the last five years. The mailing address of each Trustee and officer is 8730 Stony Point Parkway, Suite 205, Richmond VA, 23235, unless otherwise indicated.

NON-INTERESTED TRUSTEES

David A. Bogaert (54) President and Principal	Indefinite, Since August 2017	Managing Director of Business Development, Commonwealth Fund Services, Inc., October 2013 – present; Senior Vice President of Business Development and	N/A	N/A

Executive Officer		other positions for Huntington Asset Services, Inc. from 1986 to 2013.		
Karen M. Shupe (53) Treasurer and Principal Financial Officer	Indefinite, Since June 2008	Managing Director of Fund Operations, Commonwealth Fund Services, Inc., 2003 - present.	N/A	N/A
Ann T. MacDonald (62) Assistant Treasurer	Indefinite, Since November 2015	Director, Fund Administration and Fund Accounting, Commonwealth Fund Services, Inc., 2003 – present.	N/A	N/A
John H. Lively (48) Secretary	Indefinite, Since November 2013	Attorney, The Law Offices of John H. Lively & Associates, Inc. (law firm), March 2010 to present:	N/A	N/A
Holly B. Giangiulio (54) Assistant Secretary	Indefinite, Since May 2015	Managing Director, Corporate Operations, Commonwealth Fund Services, Inc., January 2015 to present; Corporate Accounting and HR Manager from 2010 to 2015.	N/A	N/A
Julian G. Winters (48) Chief Compliance Officer	Indefinite, Since August 2013	Managing Member of Watermark Solutions, LLC (investment compliance and consulting) , March 2007 to present.	N/A	N/A

BOARD OF TRUSTEES

The Board of Trustees oversees the Trust and certain aspects of the services provided by the Adviser and the Fund’s other service providers. Each Trustee will hold office until their successors have been duly elected and qualified or until their earlier resignation or removal. Each officer of the Trust serves at the pleasure of the Board and for a term of one year or until their successors have been duly elected and qualified.

The Trust has a standing Audit Committee of the Board composed of Mr. Urban, Ms. Ivey and Mr. Pitt. The functions of the Audit Committee are to meet with the Trust's independent auditors to review the scope and findings of the annual audit, discuss the Trust's accounting

policies, discuss any recommendations of the independent auditors with respect to the Trust's management practices, review the impact of changes in accounting standards on the Trust's financial statements, recommend to the Board the selection of independent registered public accounting firm, and perform such other duties as may be assigned to the Audit Committee by the Board. For the Fund's most recent period ended December 31, 2016, the Audit Committee met eight times.

The Nominating and Corporate Governance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Nominating and Corporate Governance Committee's purposes, duties and powers are set forth in its written charter, which is described in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. For the Fund's most recent period ended December 31, 2016, the Committee met once.

The Valuation Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Valuation Committee meets as needed in the event that the Fund holds any securities that are subject to valuation and it reviews the fair valuation of such securities on an as needed basis. For the Fund's most recent period ended December 31, 2016, the Committee did not meet.

The Qualified Legal Compliance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Qualified Legal Compliance Committee receives, investigates, and makes recommendations as to the appropriate remedial action in connection with any report of evidence of a material violation of the securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees, or agents. For the Fund's most recent period ended December 31, 2016, the Committee did not meet.

Trustee Compensation. Each Trustee who is not an “interested person” of the Trust may receive compensation for their services to the Trust. All Trustees are reimbursed for any out-of-pocket expenses incurred in connection with attendance at meetings. Effective July 1, 2017, each Trustee receives a retainer fee at the annualized rate of \$50,000. Additionally, each Trustee receives a fee of \$2,500 per special in person meeting and \$1,250 per special telephonic meeting. Compensation received from the Trust for the year ended December 31, 2016 is as follows:

Name of Person / Position	Aggregate Compensation From Fund	Pension or Retirement Benefits Accrued As Part of Funds Expenses	Estimated Annual Benefits upon Retirement	Total Compensation From Fund and Fund Complex Paid To Trustees (*)⁽¹⁾
David J. Urban, Trustee	\$1,290	\$0	\$0	\$22,000
Mary Lou H. Ivey, Trustee	\$1,290	\$0	\$0	\$22,000
Theo H. Pitt, Jr., Trustee	\$1,290	\$0	\$0	\$22,000

* Company does not pay deferred compensation.

(1) The “Fund Complex” consists of the Trust, which is comprised of the 57 Funds.

Trustee Ownership of Fund Shares – The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all investments in equity securities of the Fund of the Trust, as of December 31, 2016, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Name of Trustee	Dollar Range of Equity Securities in the Fund	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustees in Family of Investment Companies
<u>Non-Interested Trustees</u>

Mary Lou H. Ivey	A	A
Theo H. Pitt, Jr.	A	A

Sales Loads. No front-end or deferred sales charges are applied to purchase of Fund shares by current or former trustees, officers, employees or agents of the Trust, the Adviser or the principal underwriter and by the members of their immediate families.

Policies Concerning Personal Investment Activities. The Fund, the Adviser, the Sub-Adviser, and the Distributor have each adopted a Code of Ethics, pursuant to Rule 17j-1 under the 1940 Act that permit investment personnel, subject to their particular code of ethics, to invest in securities, including securities that may be purchased or held by the Fund, for their own account.

The Codes of Ethics are on file with, and can be reviewed and copied at the SEC Public Reference Room in Washington, D. C. In addition, the Codes of Ethics are also available on the EDGAR Database on the SEC's Internet website at <http://www.sec.gov>.

CONTROL PERSONS AND PRINCIPAL SECURITIES HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of a Fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of a Fund or acknowledges the existence of such control. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to a Fund's fundamental policies or the terms of the management agreement with the Adviser.

As of November 30, 2017, the following persons were record owners (or to the knowledge of the Trust, beneficial owners) of 5% or more of Class A shares of the Fund.

Shareholder Name and Address	Percentage of Class	Type of Ownership
Charles Schwab & Co. Inc. 101 Montgomery St.	18.72%	Record

As of the date of this SAI, none of the other classes of shares of the Fund have been offered to the public and therefore they do not have any shareholders who beneficially own of record 5% or more of the outstanding shares of the Fund. As of the date of this SAI, the Trustees and officers of the Trust beneficially owned less than 1% of the outstanding shares of the Fund.

DETERMINATION OF NET ASSET VALUE

General Policy. The Fund adheres to Section 2(a)(41), and Rule 2a-4 thereunder, of the 1940 Act with respect to the valuation of portfolio securities. In general, securities for which market quotations are readily available are valued at current market value, and all other securities are valued at fair value as determined in good faith by the Board. In complying with the 1940 Act, the Trust relies on guidance provided by the SEC and by the SEC staff in various interpretive letters and other guidance.

Equity Securities. Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on valuation date (or at approximately 4:00 p.m. ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If such prices are not available or determined to not represent the fair value of the security as of a Fund's pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Trust's Board of Trustees.

Money Market Securities and other Debt Securities. If available, money market securities and other debt securities are priced based upon valuations provided by recognized independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings and developments relating to specific securities in arriving at valuations. Money market securities and other debt securities with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. If such prices are not available or determined to not represent the fair value of the security as of the Fund's pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Trust's Board of Trustees.

Use of Third-Party Pricing Agents. Pursuant to contracts with the Administrator, market prices for securities held by the Fund is generally provided daily by third-party independent pricing agents that are approved by the Board of Trustees of the Trust. The valuations provided by third-party independent pricing agents are reviewed daily by the Administrator.

DISTRIBUTION

The Distributor may from time to time offer incentive compensation to dealers (which sell shares of the Fund that are subject to sales charges) allowing such dealers to retain an additional

portion of the sales load. A dealer who receives all of the sales load may be considered an underwriter of a Fund's shares.

In connection with promotion of the sales of the Fund, the Distributor may, from time to time, offer (to all broker dealers who have a sales agreement with the Distributor) the opportunity to participate in sales incentive programs (which may include non-cash concessions). The Distributor may also, from time to time, pay expenses and fees required in order to participate in dealer sponsored seminars and conferences, reimburse dealers for expenses incurred in connection with pre-approved seminars, conferences and advertising, and may, from time to time, pay or allow additional promotional incentives to dealers as part of pre-approved sales contests.

Statement of Intention. The reduced sales charge and public offering price applicable to Class A Shares, as set forth in the prospectus, applies to purchases of \$50,000 or more made within a 13-month period pursuant to the terms of a written Statement of Intention in the form provided by the Distributor and signed by the purchaser. The Statement of Intention is not a binding obligation to purchase the indicated amount. Class A Shares equal to 4.50% (declining to 0.00% after an aggregate of \$1,000,000 has been purchased under the Statement of Intention) of the dollar amount specified in the Statement of Intention will be held in escrow and capital gain distributions on these escrowed shares will be credited to the shareholder's account in shares (or paid in cash, if requested). If the intended investment is not completed within the specified 13-month period, the purchaser will remit to the Distributor the difference between the sales charge actually paid and the sales charge which would have been paid if the total purchases had been made at a single time. If the difference is not paid within 20 days after written request by the Distributor or the securities dealer, the appropriate number of escrowed Class A Shares will be redeemed to pay such difference.

In the case of purchase orders by the trustees of certain employee plans by payroll deduction, the sales charge for the investments made during the 13-month period will be based on the following: total investments made the first month of the 13-month period times 13; as the period progresses the sales charge will be based (1) on the actual investment made previously during the 13-month period, plus (2) the current month's investments times the number of months remaining in the 13-month period. There will be no retroactive adjustments in sales charge on investments previously made during the 13-month period.

ADDITIONAL INFORMATION ABOUT PURCHASES AND SALES

Purchasing Shares. You may purchase shares of the Fund directly from the Distributor. You may also buy shares through accounts with brokers and other institutions ("authorized institutions") that are authorized to place trades in Fund shares for their customers. If you invest through an authorized institution, you will have to follow its procedures. Your institution may charge a fee for its services, in addition to the fees charged by the Fund. You will also generally have to address your correspondence or questions regarding the Fund to your authorized institution. The offering price per share is equal to the NAV next determined after the Fund or authorized institution receives your purchase order, plus any applicable sales charge.

Your authorized institution is responsible for transmitting all subscription and redemption requests, investment information, documentation and money to the Fund on time. Certain authorized institutions have agreements with the Fund that allow them to enter confirmed purchase or redemption orders on behalf of clients and customers. Under this arrangement, the authorized

institution must send your payment to the Fund by the time it prices its shares on the following day. If your authorized institution fails to do so, it may be responsible for any resulting fees or losses.

The Fund reserve the right to reject any purchase order and to suspend the offering of shares. Under certain circumstances the Trust or the Adviser may waive the minimum initial investment for purchases by officers, trustees, and employees of the Trust and its affiliated entities and for certain related advisory accounts and retirement accounts (such as IRAs). The Fund may also change or waive policies concerning minimum investment amounts at any time.

Exchanging Shares. If you request the exchange of the total value of your account from one fund to another, we will reinvest any declared but unpaid income dividends and capital gain distributions in the new fund at its net asset value. Backup withholding and information reporting may apply. Information regarding the possible tax consequences of an exchange appears in the tax section in this SAI.

If a substantial number of shareholders sell their shares of a Fund under the exchange privilege, within a short period, the Fund may have to sell portfolio securities that it would otherwise have held, thus incurring additional transactional costs. Increased use of the exchange privilege may also result in periodic large inflows of money. If this occurs, it is a Fund's general policy to initially invest in short-term, interest-bearing money market instruments.

However, if the Adviser believes that attractive investment opportunities (consistent with a Fund's investment objective and policies) exist immediately, then it will invest such money in portfolio securities in as orderly a manner as is possible.

The proceeds from the sale of shares of the Fund may not be available until the third business day following the sale. The fund you are seeking to exchange into may also delay issuing shares until that third business day. The sale of Fund shares to complete an exchange will be effected at net asset value of the Fund next computed after your request for exchange is received in proper form.

Eligible Benefit Plans. An eligible benefit plan is an arrangement available to the employees of an employer (or two or more affiliated employers) having not less than 10 employees at the plan's inception, or such an employer on behalf of employees of a trust or plan for such employees, their spouses and their children under the age of 21 or a trust or plan for such employees, which provides for purchases through periodic payroll deductions or otherwise. There must be at least 5 initial participants with accounts investing or invested in Fund shares and/or certain other funds.

The initial purchase by the eligible benefit plan and prior purchases by or for the benefit of the initial participants of the plan must aggregate not less than \$2,500 and subsequent purchases must be at least \$50 per account and must aggregate at least \$250. Purchases by the eligible benefit plan must be made pursuant to a single order paid for by a single check or federal funds wire and may not be made more often than monthly. A separate account will be established for each employee, spouse or child for which purchases are made. The requirements for initiating or continuing purchases pursuant to an eligible benefit plan may be modified and the offering to such plans may be terminated at any time without prior notice.

Selling Shares. You may sell your shares by giving instructions to the Transfer Agent by mail or by telephone. The Fund will use reasonable procedures to confirm that instructions

communicated by telephone are genuine and, if the procedures are followed, will not be liable for any losses due to unauthorized or fraudulent telephone transactions.

The Fund's procedure is to redeem shares at the NAV next determined after the Transfer Agent receives the redemption request in proper order, less any applicable deferred sales charge on purchases held for less than one year and for which no sales charge was paid at the time of purchase. Payment will be made promptly, but no later than the seventh day following the receipt of the redemption request in proper order. The Board may suspend the right of redemption or postpone the date of payment during any period when (a) trading on the New York Stock Exchange is restricted as determined by the SEC or such exchange is closed for other than weekends and holidays, (b) the SEC has by order permitted such suspension, or (c) an emergency, as defined by rules of the SEC, exists during which time the sale of Fund shares or valuation of securities held by the Fund is not reasonably practicable.

ADDITIONAL PAYMENTS TO FINANCIAL INTERMEDIARIES

The Adviser or the Distributor and their affiliates may, out of their own resources and without additional cost to the Fund or its shareholders, pay a solicitation fee to securities dealers or other financial intermediaries.

SHAREHOLDER SERVICES

As described briefly in the applicable prospectus, the Fund offers the following shareholder services:

Regular Account. The regular account allows for voluntary investments to be made at any time. Available to individuals, custodians, corporations, trusts, estates, corporate retirement plans and others, investors are free to make additions and withdrawals to or from their account as often as they wish. Simply use the account application provided with the prospectus to open your account.

Telephone Transactions. A shareholder may redeem shares or transfer into another fund by telephone if this service is requested at the time the shareholder completes the initial account application. If it is not elected at that time, it may be elected at a later date by making a request in writing to the Transfer Agent and having the signature on the request guaranteed. The Fund employs reasonable procedures designed to confirm the authenticity of instructions communicated by telephone and, if it does not, it may be liable for any losses due to unauthorized or fraudulent transactions. As a result of this policy, a shareholder authorizing telephone redemption or transfer bears the risk of loss which may result from unauthorized or fraudulent transactions which the Fund believes to be genuine. When requesting a telephone redemption or transfer, the shareholder will be asked to respond to certain questions designed to confirm the shareholder's identity as the shareholder of record. Cooperation with these procedures helps to protect the account and the Fund from unauthorized transactions.

Automatic Investment Plan. Any shareholder may utilize this feature, which provides for automatic monthly investments into your account. Upon your request, the Transfer Agent will withdraw a fixed amount each month from a checking or savings account for investment into the Fund. This does not require a commitment for a fixed period of time. A shareholder may change the monthly investment, skip a month or discontinue the Automatic Investment Plan as desired by notifying the Transfer Agent at (800) 628-4077.

Retirement Plans. Fund shares are available for purchase in connection with the following tax-deferred prototype retirement plans:

1. **Individual Retirement Arrangements (IRAs).** IRAs are available for use by individuals with compensation for services rendered who wish to use shares of the Fund as the funding medium for individual retirement savings. IRAs include traditional IRAs, Roth IRAs and Rollover IRAs.

2. **Simplified Employee Pension Plans (SEPs).** SEPs are a form of retirement plan for sole proprietors, partnerships and corporations.

For information about eligibility requirements and other matters concerning these plans and to obtain the necessary forms to participate in these plans, please call the Trust at 800-673-0550. Each plan's custodian charges nominal fees in connection with plan establishment and maintenance. These fees are detailed in the plan documents. You may wish to consult with your attorney or other tax adviser for specific advice concerning your tax status and plans.

Exchange Privilege. To the extent that the Adviser manages other funds in the Trust, shareholders may exchange their shares for shares of any other series of the Trust managed by the Adviser, provided the shares of the Fund the shareholder is exchanging into are registered for sale in the shareholder's state of residence. Each account must meet the minimum investment requirements. As of the date of this prospectus, the Adviser manages 5 funds in the Trust. Also, to make an exchange, an exchange order must comply with the requirements for a redemption or repurchase order and must specify the value or the number of shares to be exchanged. Your exchange will take effect as of the next determination of the Fund's NAV per share (usually at the close of business on the same day). The Transfer Agent will charge your account a \$10 service fee each time you make such an exchange. The Trust reserves the right to limit the number of exchanges or to otherwise prohibit or restrict shareholders from making exchanges at any time, without notice, should the Trust determine that it would be in the best interest of its shareholders to do so. For tax purposes, an exchange constitutes the sale of the shares of the fund from which you are exchanging and the purchase of shares of the fund into which you are exchanging. Consequently, the sale may involve either a capital gain or loss to the shareholder for federal income tax purposes. The exchange privilege is available only in states where it is legally permissible to do so.

TAXES

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable federal income tax laws of the U.S. as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the "IRS"), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Fund and its shareholders (including shareholders owning large positions in the Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust, insurance company, regulated investment company ("RIC"), individual retirement account, other tax-exempt entity, dealer in securities or non-U.S. investor. Furthermore, this discussion does not reflect possible

application of the alternative minimum tax (“AMT”). Unless otherwise noted, this discussion assumes shares of the Fund is held by U.S. shareholders and that such shares are held as capital assets.

At the time this SAI was being prepared, the President and members of Congress have introduced various tax reform proposals. At this time, it not possible to predict if any of these proposals will become a law or, if so, how such proposals might affect the Fund and its shareholders.

A U.S. shareholder is a beneficial owner of shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. shareholders have the authority to control all of its substantial decisions or the trust has made a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A “Non-U.S. shareholder” is a beneficial owner of shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds shares of the Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective shareholder who is a partner of a partnership holding the Fund shares should consult its tax advisors with respect to the purchase, ownership and disposition of its Fund shares.

Taxation as a RIC. The Fund intends to qualify and remain qualified as a RIC under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”). The Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, the Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership.” A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Internal Revenue Code section 7704. However, for these purposes, a qualified publicly traded partnership does not include a publicly traded partnership if 90% or more of its income is described in (i) above. Income derived from a partnership (other than a qualified publicly traded partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

The Fund intends to invest in ETFs that are taxable as RICs under the Code. Accordingly,

the income the Fund receive from such ETFs should be qualifying income for purposes of the Fund satisfying the 90% Test described above. However, the Fund may also invest in one or more ETFs that are not taxable as RICs under the Code and that may generate non-qualifying income for purposes of satisfying the 90% Test. The Fund anticipates monitoring its investments in such ETFs so as to keep the Fund's non-qualifying income within acceptable limits of the 90% Test, however, it is possible that such non-qualifying income will be more than anticipated which could cause the Fund to inadvertently fail the 90% Test thereby causing the Fund to fail to qualify as a RIC. In such a case, the Fund would be subject to the rules described below.

If a RIC fails this 90% source-of-income test as long as such failure was due to reasonable cause and not willful neglect it is no longer subject to a 35%. Instead, the amount of the penalty for non-compliance is the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

With respect to the asset-diversification requirement, the Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund's total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund's total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets is invested in the securities other than U.S. government securities or the securities of other RICs of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships.

If a RIC fails this asset-diversification test, such RIC, in addition to other cure provisions previously permitted, has a 6-month period to correct any failure without incurring a penalty if such failure is "de minimis," meaning that the failure does not exceed the lesser of 1% of the RIC's assets, or \$10 million.

Similarly, if a RIC fails this asset-diversification test and the failure is not de minimis, a RIC can cure failure if: (a) the RIC files with the Treasury Department a description of each asset that causes the RIC to fail the diversification tests; (b) the failure is due to reasonable cause and not willful neglect; and (c) the failure is cured within six months (or such other period specified by the Treasury). In such cases, a tax is imposed on the RIC equal to the greater of: (a) \$50,000 or (b) an amount determined by multiplying the highest rate of tax (currently 35%) by the amount of net income generated during the period of diversification test failure by the assets that caused the RIC to fail the diversification test.

If the Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its "investment company taxable income" as that term is defined in the Internal Revenue Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed, the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gain, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to U.S. federal income tax at regular corporate federal income tax rates (currently at a maximum rate of 35%). The Fund intends to distribute at least annually all or substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

The Fund will generally be subject to a nondeductible 4% federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. To avoid the 4% federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98% of the Fund's ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund's capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any income realized, but not distributed, and on which we paid no federal income tax in preceding years. The Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

The Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if the Fund holds debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants), the Fund must include in income each year a portion of the original issue discount that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any original issue discount accrued will be included in the Fund's "investment company taxable income" (discussed above) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the distribution requirement, even though it will not have received an amount of cash that corresponds with the income earned.

To the extent that the Fund has capital loss carryforwards from prior tax years, those carryforwards will reduce the net capital gains that can support a Fund's distribution of Capital Gain Dividends. If the Fund uses net capital losses incurred in taxable years beginning on or before December 22, 2010 (pre-2011 losses), those carryforwards will not reduce a Fund's current earnings and profits, as losses incurred in later years will. As a result, if the Fund then makes distributions of capital gains recognized during the current year in excess of net capital gains (as reduced by carryforwards), the portion of the excess equal to pre-2011 losses factoring into net capital gain will be taxable as an ordinary dividend distribution, even though that distributed excess amount would not have been subject to tax if retained by the Fund. Capital loss carryforwards are reduced to the extent they offset current-year net realized capital gains, whether the Fund retains or distributes such gains. Beginning in 2011, a RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). For net capital losses recognized prior to such date, such losses are permitted to be carried forward up to 8 years and are characterized as short-term. These capital loss carryforwards may be utilized in future years to offset net realized capital gains of the Fund, if any, prior to distributing such gains to shareholders.

Except as set forth in "Failure to Qualify as a RIC," the remainder of this discussion assumes that the Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC. If the Fund is unable to satisfy the 90% distribution requirement or otherwise fails to qualify as a RIC in any year, it will be subject to corporate level income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to a Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, a Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate shareholders, and non-corporate shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for reduced rates of U.S. federal income taxation, if holding

period and other requirements are satisfied.

Distributions in excess of a Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders' tax basis in their Fund shares, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the source-of-income, the asset diversification, and the annual distribution requirements for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Internal Revenue Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

Taxation for U.S. Shareholders. Distributions paid to U.S. shareholders by the Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate shareholders under Section 243 of the Internal Revenue Code to the extent that the Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or real estate investment trusts or (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at reduced rates under Section 1(h)(11) of the Internal Revenue Code (which provides for a maximum 20% rate) to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met. Qualified dividend income is, in general, dividend income from taxable domestic corporations and qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company. Distributions made to a U.S. shareholder from an excess of net long-term capital gain over net short-term capital losses ("capital gain dividends"), including capital gain dividends credited to such shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such shareholder owned the shares of the Fund. The maximum tax rate on capital gain dividends received by individuals is generally 20%. Distributions in excess of the Fund's earnings and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder (assuming the shares are held as a capital asset). The Fund is not required to provide written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions. The Forms 1099 will instead serve this notice purpose.

As a RIC, the Fund will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between the Fund and the shareholders and this may affect the shareholders' AMT liabilities. The Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund's taxable income (determined

without regard to the dividends paid deduction).

For purpose of determining (i) whether the annual distribution requirement is satisfied for any year and (ii) the amount of capital gain dividends paid for that year, the Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If the Fund makes such an election, the U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by the Fund in October, November or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

The Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund were to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares owned by a shareholder of the Fund will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholders.

Sales and other dispositions of the shares of the Fund generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the shares of the Fund is properly treated as a sale or exchange for federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transactions. The sale or other disposition of shares of the Fund will generally result in capital gain or loss to the shareholder equal to the difference between the amount realized and his adjusted tax basis in the shares sold or exchanged, and will be long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of shares held for six months or less will be treated as long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividend) by such shareholder with respect to such shares. A loss realized on a sale or exchange of shares of the Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Present law taxes both long-term and short-term capital gain of corporations at the rates applicable to ordinary income of corporations. For non-corporate taxpayers, short-term capital gain will currently be taxed at the rate applicable to ordinary income, while long-term capital gain generally will be taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

Federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the Internal Revenue Service on the Fund's shareholders' Consolidated Form 1099s when "covered" securities are sold. Covered securities are any regulated investment company and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific

shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. The Fund's standing tax lot identification method is the method covered shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances

For those securities defined as "covered" under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and their service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

For taxable years beginning after December 31, 2013, certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Straddles. When the Fund enters into an offsetting position to limit the risk on another position, the "straddle" rules usually come into play. An option or other position entered into or held by a Fund in conjunction with any other position held by the Fund may constitute a "straddle" for Federal income tax purposes. In general, straddles are subject to certain rules that may affect the character and timing of the Fund's gains and losses with respect to straddle positions. The key features of the straddle rules are as follows:

The Fund may have to wait to deduct any losses. If the Fund has a capital gain in one position of a straddle and a capital loss in the other, the Fund may not recognize the loss for federal income tax purposes until the Fund disposes of both positions. This might occur, for example, if the Fund had a highly appreciated stock position and the Fund purchased protective put options (which give the Fund the right to sell the stock to someone else for a period of time at a predetermined price) to offset the risk. If the stock continued to increase in value and the put options expired worthless, the Fund must defer recognition of the loss on its put options until the Fund sells and recognizes the gain on the original, appreciated position.

The Fund's capital gain holding period may be limited. The moment the Fund enters into a typical straddle, the capital gains holding period on its offsetting positions is frozen. If the Fund held the original position for one year or less (thus not qualifying for the long-term capital gains rate), not only is the holding period frozen, it starts all over again when the Fund disposes of the offsetting position.

Losses recognized with respect to certain straddle positions that would otherwise constitute short-term capital losses may be treated as long-term capital losses. This generally has the effect of reducing the tax benefit of such losses.

The Fund may not be able to deduct any interest expenses or carrying charges. During the

offsetting period, any interest or carrying charges associated with the straddle are not currently tax deductible, but must be capitalized (added to cost basis).

Original Issue Discount, Pay-In-Kind Securities, Market Discount and Commodity-Linked Notes. Some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in a Fund’s taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its “revised issue price”) over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in a Fund’s income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in a Fund’s income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear. See “Higher-Risk Securities.”

Some debt obligations (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. The Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

If the Fund holds the foregoing kinds of securities, they may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Higher-Risk Securities. To the extent such investments are permissible for the Fund, the Fund may invest in debt obligations that are in the lowest rating categories or are unrated,

including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for the Fund. Tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether the Fund should recognize market discount on a debt obligation, and if so, what amount of market discount the Fund should recognize. These and other related issues will be addressed by the Fund when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its status as a regulated investment company and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by the Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligations is a domestic corporation, dividend payments by the Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by the Fund, if any, that are considered for U.S. tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Tax-Exempt Shareholders. A tax-exempt shareholder could recognize UBTI by virtue of its investment in the Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Internal Revenue Code Section 514(b). Furthermore, a tax-exempt shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in REMICs or equity interests in TMPs if the amount of such income recognized by the Fund exceeds a Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in regulated investment companies that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. Under legislation enacted in December 2006, a CRT (as defined in section 664 of the Internal Revenue Code) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognizes “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in the Fund that recognize “excess inclusion income,” then the regulated investment company will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Fund.

Foreign Taxation. Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes.

The ETFs in which the Fund invests may invest in foreign securities. Dividends and interest received by an ETF's holding of foreign securities may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes. If the ETF in which the Fund invests is taxable as a RIC and meets certain other requirements, which include a requirement that more than 50% of the value of such ETF's total assets at the close of its respective taxable year consists of stocks or securities of foreign corporations, then the ETF should be eligible to file an election with the IRS that may enable its shareholders, including the Fund in effect, to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid the by Fund, subject to certain limitations.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfies this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of a Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Foreign Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by the Fund to a shareholder that is not a "U.S. person" within the meaning of the Internal Revenue Code (such shareholder, a "foreign shareholder") are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

A regulated investment company is not required to withhold any amounts (i) with respect to distributions (other than distributions to a foreign person (w) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (x) to the extent that the dividend is attributable to certain interest on an obligation if the foreign person is the issuer or is a 10% shareholder of the issuer, (y) that is within a foreign country that has inadequate information exchange with the United States, or (z) to the extent the dividend is attributable to interest paid by a person that is a related person of the foreign person and the foreign person is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by an individual foreign person, to the extent such distributions are properly reported as such by the Fund in a written notice to shareholders ("interest-related dividends"), and (ii) with respect to distributions (other than (a) distributions to an individual foreign person who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the regulated investment company ("short-term capital gain dividends"). If the Fund invests in an Underlying Fund that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to foreign persons.

The Fund is permitted to report such part of its dividends as interest-related or short-term capital gain dividends as are eligible, but is not required to do so. These exemptions from withholding will not be available to foreign shareholders of the Fund that do not currently report their dividends as interest-related or short-term capital gain dividends.

In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports all or a portion of a payment as an interest-related or short-term capital gain dividend to shareholders. Foreign persons should contact their intermediaries regarding the application of these rules to their accounts.

Under U.S. federal tax law, a beneficial holder of shares who is a foreign shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of the Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States, (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of “U.S. real property interests” (“USRPIs”) apply to the foreign shareholder’s sale of shares of the Fund or to the Capital Gain Dividend the foreign shareholder received (as described below).

Special rules would apply if the Fund were either a “U.S. real property holding corporation” (“USRPHC”) or would be a USRPHC but for the operation of certain exceptions to the definition thereof. Very generally, a USRPHC is a domestic corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation’s USRPIs, interests in real property located outside the United States, and other assets. USRPIs are generally defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or former USRPHC.

If the Fund were a USRPHC or would be a USRPHC but for the exceptions referred to above, any distributions by the Fund to a foreign shareholder (including, in certain cases, distributions made by the Fund in redemption of its shares) attributable to gains realized by the Fund on the disposition of USRPIs or to distributions received by the Fund from a lower-tier regulated investment company or REIT that the Fund is required to treat as USRPI gain in its hands generally would be subject to U.S. tax withholding. In addition, such distributions could result in the foreign shareholder being required to file a U.S. tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a foreign shareholder, including the rate of such withholding and character of such distributions (*e.g.*, as ordinary income or USRPI gain), would vary depending upon the extent of the foreign shareholder’s current and past ownership of the Fund. On and after January 1, 2012, this “look-through” USRPI treatment for distributions by the Fund, if it were either a USRPHC or would be a USRPHC but for the operation of the exceptions referred to above, to foreign shareholders applies only to those distributions that, in turn, are attributable to distributions received by the Fund from a lower-tier REIT, unless Congress enacts legislation providing otherwise.

In addition, if the Fund were a USRPHC or former USRPHC, it could be required to withhold U.S. tax on the proceeds of a share redemption by a greater-than-5% foreign shareholder, in which case such foreign shareholder generally would also be required to file U.S. tax returns and pay any additional taxes due in connection with the redemption.

Whether or not the Fund is characterized as a USRPHC will depend upon the nature and mix of a Fund's assets. The Fund does not expect to be a USRPHC. Foreign shareholders should consult their tax advisors concerning the application of these rules to their investment in the Fund.

If a beneficial holder of Fund shares who is a foreign shareholder has a trade or business in the United States, and the dividends are effectively connected with the beneficial holder's conduct of that trade or business, the dividend will be subject to U.S. federal net income taxation at regular income tax rates.

If a beneficial holder of Fund shares who is a foreign shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that beneficial holder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a foreign shareholder must comply with special certification and filing requirements relating to its non-US status (including, in general, furnishing an IRS Form W-8BEN or substitute form). Foreign shareholders in the Fund should consult their tax advisers in this regard.

A beneficial holder of Fund shares who is a foreign shareholder may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal tax on income referred to above.

Backup Withholding. The Fund generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is currently 28%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shareholder Reporting Obligations With Respect to Foreign Financial Assets. Certain individuals (and, if provided in future guidance, certain domestic entities) must disclose annually their interests in "specified foreign financial assets" on IRS Form 8938, which must be attached to their U.S. federal income tax returns for taxable years beginning after March 18, 2010. The IRS has not yet released a copy of the Form 8938 and has suspended the requirement to attach Form 8938 for any taxable year for which an income tax return is filed before the release of Form 8938.

Following Form 8938's release, individuals will be required to attach to their next income tax return required to be filed with the IRS a Form 8938 for each taxable year for which the filing of Form 8938 was suspended. Until the IRS provides more details regarding this reporting requirement, including in Form 8938 itself and related Treasury regulations, it remains unclear under what circumstances, if any, a shareholder's (indirect) interest in the Fund's "specified foreign financial assets," if any, will be required to be reported on this Form 8938.

Other Reporting and Withholding Requirements. Rules enacted in March 2010 require the reporting to the IRS of direct and indirect ownership of foreign financial accounts and foreign entities by U.S. persons. Failure to provide this required information can result in a 30% withholding tax on certain payments ("withholdable payments") made after December 31, 2013. Specifically, withholdable payments subject to this 30% withholding tax include payments of U.S.-source dividends and interest made on or after January 1, 2014, and payments of gross proceeds from the sale or other disposal of property that can produce U.S.-source dividends or interest made on or after January 1, 2015.

The IRS has issued only very preliminary guidance with respect to these new rules; their scope remains unclear and potentially subject to material change. Very generally, it is possible that distributions made by the Fund after the dates noted above (or such later dates as may be provided in future guidance) to a shareholder, including a distribution in redemption of shares and a distribution of income or gains otherwise exempt from withholding under the rules applicable to non-U.S. shareholders described above (e.g., Capital Gain Dividends, Short-Term Capital Gain Dividends and interest-related dividends, as described above) will be subject to the new 30% withholding requirement. Payments to a foreign shareholder that is a "foreign financial institution" will generally be subject to withholding, unless such shareholder enters into a timely agreement with the IRS. Payments to shareholders that are U.S. persons or foreign individuals will generally not be subject to withholding, so long as such shareholders provide the Fund with such certifications or other documentation, including, to the extent required, with regard to such shareholders' direct and indirect owners, as the Fund requires to comply with the new rules. Persons investing in the Fund through an intermediary should contact their intermediary regarding the application of the new reporting and withholding regime to their investments in the Fund.

Shareholders are urged to consult a tax advisor regarding this new reporting and withholding regime, in light of their particular circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

FATCA. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by the Fund after June 30, 2014 and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2016. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. The Fund may disclose the information that it receives from its

shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

The foregoing is a general and abbreviated summary of the provisions of the Internal Revenue Code and the Treasury regulations in effect as they directly govern the taxation of the Fund and its shareholders. These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their tax advisers regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

BROKERAGE ALLOCATION AND OTHER PRACTICES

Brokerage Transactions. Generally, equity securities are bought and sold through brokerage transactions for which commissions are payable. Purchases from underwriters will include the underwriting commission or concession, and purchases from dealers serving as market makers will include a dealer's mark-up or reflect a dealer's mark-down. The purchase price for securities bought from dealers serving as market makers will similarly include the dealer's mark up or reflect a dealer's mark down. When the Fund executes transactions in the over-the-counter market, it will generally deal with primary market makers unless prices that are more favorable are otherwise obtainable.

In selecting brokers and dealers to execute portfolio transactions, the Adviser may consider research and brokerage services furnished to the Adviser or its affiliates. The Adviser may not consider sales of shares of the Fund as a factor in the selection of brokers and dealers, but may place portfolio transactions with brokers and dealers that promote or sell a Fund's shares so long as such transactions are done in accordance with the policies and procedures established by the Trustees that are designed to ensure that the selection is based on the quality of execution and not on sales efforts. When placing portfolio transactions with a broker or dealer, the Adviser may aggregate securities to be sold or purchased for the Fund with those to be sold or purchased for other advisory accounts managed by the Adviser. In aggregating such securities, the Adviser will average the transaction as to price and will allocate available investments in a manner that the Adviser believes to be fair and reasonable to the Fund and such other advisory accounts. An aggregated order will generally be allocated on a pro rata basis among all participating accounts, based on the relative dollar values of the participating accounts, or using any other method deemed to be fair to the participating accounts, with any exceptions to such methods involving the Trust being reported to the Trustees.

Section 28(e) of the 1934 Act permits the Adviser, under certain circumstances, to cause the Fund to pay a broker or dealer a commission for effecting a transaction in excess of the amount of commission another broker or dealer would have charged for effecting the transaction in recognition of the value of brokerage and research services provided by the broker or dealer. In addition to agency transactions, the Adviser may receive brokerage and research services in connection with certain riskless principal transactions, in accordance with applicable SEC guidance. Brokerage and research services include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing or selling securities, and the availability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, Fund strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto (such as clearance, settlement, and custody). In the case of research services, the Adviser believes that

access to independent investment research is beneficial to its investment decision-making processes and, therefore, to the Fund.

To the extent that research services may be a factor in selecting brokers, such services may be in written form or through direct contact with individuals and may include information as to particular companies and securities as well as market, economic, or institutional areas and information which assists in the valuation and pricing of investments. Examples of research-oriented services for which the Adviser might utilize Fund commissions include research reports and other information on the economy, industries, sectors, groups of securities, individual companies, statistical information, political developments, technical market action, pricing and appraisal services, credit analysis, risk measurement analysis, performance and other analysis. The Adviser may use research services furnished by brokers in servicing all client accounts and not all services may necessarily be used in connection with the account that paid commissions to the broker providing such services. Information so received by the Adviser will be in addition to and not in lieu of the services required to be performed by the Fund's Adviser under the Advisory Agreement. Any advisory or other fees paid to the Adviser are not reduced as a result of the receipt of research services.

In some cases the Adviser may receive a service from a broker that has both a "research" and a "non-research" use. When this occurs, the Adviser makes a good faith allocation, under all the circumstances, between the research and non-research uses of the service. The percentage of the service that is used for research purposes may be paid for with client commissions, while the Adviser will use its own funds to pay for the percentage of the service that is used for non-research purposes. In making this good faith allocation, the Adviser faces a potential conflict of interest, but the Adviser believes that its allocation procedures are reasonably designed to ensure that it appropriately allocates the anticipated use of such services to their research and non-research uses.

From time to time, the Fund may purchase new issues of securities in a fixed price offering. In these situations, the seller may be a member of the selling group that will, in addition to selling securities, provide the Adviser with research services. The Financial Industry Regulatory Authority has adopted rules expressly permitting these types of arrangements under certain circumstances. Generally, the seller will provide research "credits" in these situations at a rate that is higher than that which is available for typical secondary market transactions. These arrangements may not fall within the safe harbor of Section 28(e).

During the past three fiscal years, the Fund paid brokerage commissions as follows:

2016	2015	2014
\$20,704	\$16,257	\$15,513

Brokerage with Fund Affiliates. The Fund may execute brokerage or other agency transactions through registered broker-dealer affiliates of either the Fund, the Adviser or the Distributor for a commission in conformity with the 1940 Act, the Securities Exchange Act of 1934 (the "1934 Act") and rules promulgated by the SEC. These rules further require that commissions paid to the affiliate by the Fund for exchange transactions not exceed "usual and customary" brokerage commissions. The rules define "usual and customary" commissions to include amounts which are "reasonable and fair compared to the commission, fee or other remuneration received or to be received by other brokers in connection with comparable transactions involving similar securities being purchased or sold on a securities exchange during a comparable period of time." The Trustees, including those who are not "interested persons" of the Fund, have adopted

procedures for evaluating the reasonableness of commissions paid to affiliates and review these procedures periodically.

For the fiscal years ended December 31, 2014, 2015 and 2016, the Fund paid no brokerage commissions on portfolio transactions effected by affiliated brokers.

Securities of "Regular Broker-Dealers." The Fund is required to identify any securities of its "regular brokers and dealers" (as such term is defined in the 1940 Act) which the Fund may hold at the close of its most recent fiscal year. As of December 31, 2016, the Fund did not hold any securities of "regular broker dealers."

Allocation. When two or more clients managed by the Adviser are simultaneously engaged in the purchase or sale of the same security, the transactions are allocated in a manner deemed equitable to each client. In some cases this procedure could have a detrimental effect on the price or volume of the security as far as the Fund is concerned. In other cases, however, the ability to participate in volume transactions will be beneficial to the Fund. The Board believes that these advantages, when combined with the other benefits available because of the Adviser's organization, outweigh the disadvantages that may exist from this treatment of transactions.

DISCLOSURE OF PORTFOLIO SECURITIES HOLDINGS

This Disclosure of Portfolio Securities Holdings Policy (the "Policy") shall govern the disclosure of the portfolio securities holdings of each Fund series of the Trust. The Trust maintains this Policy to ensure that disclosure of information about portfolio securities is in the best interests of the Fund and the Fund's shareholders. The Board reviews these policies and procedures as necessary and compliance will be periodically assessed by the Board in connection with a report from the Trust's Chief Compliance Officer. In addition, the Board has reviewed and approved the provision of portfolio holdings information to entities described below that may be prior to and more frequently than the public disclosure of such information (i.e., "non-standard disclosure"). The Board has also delegated authority to the officers of the Trust and Adviser to provide such information in certain circumstances (see below).

The Trust is required by the SEC to file its complete portfolio holdings schedule with the SEC on a quarterly basis. This schedule is filed with the Trust's annual and semi-annual reports on Form N-CSR for the second and fourth fiscal quarters and on Form N-Q for the first and third fiscal quarters. The portfolio holdings information provided in these reports is as of the end of the respective quarter. Form N-CSR must be filed with the SEC no later than ten (10) calendar days after the Trust transmits its annual or semi-annual report to its shareholders. Form N-Q must be filed with the SEC no later than sixty (60) calendar days after the end of the applicable quarter.

Additionally, the Trust's service providers which have contracted to provide services to the Trust and its funds, including, for example, the custodian, fund accountants, and other service providers assisting with materials utilized in the Board's 15c processes that require portfolio holdings information in order to perform those services, may receive non-standard disclosure. Non-standard disclosure of portfolio holdings information may also be provided to a third-party when the Trust has a legitimate business purpose for doing so. The Trust has the following ongoing arrangements with certain third parties to provide the Fund's portfolio holdings information:

1. to the Trust's auditors within sixty (60) days after the applicable fiscal period or other periods as necessary for use in providing audit opinions and other advice related to financial, regulatory, or tax reporting;
2. to financial printers within sixty (60) days after the applicable fiscal period for the purpose of preparing Trust regulatory filings; and
3. to the Trust's administrator, custodian, transfer agent and accounting services provider on a daily basis in connection with their providing services to the Fund.

The Trust's service providers may also disclose non-public portfolio holdings information if such disclosure is required by applicable laws, rules or regulations, or by regulatory authorities. Additionally, the Adviser may establish ongoing arrangements with certain third parties to provide the Fund's portfolio holdings information that the Adviser determines that the Fund has a legitimate business purpose for doing so and the recipient is subject to a duty of confidentiality. These third parties may include:

1. financial data processing companies that provide automated data scanning and monitoring services for the Fund;
2. research companies that allow the Adviser to perform attribution analysis for the Fund; and
3. the Adviser's proxy voting agent to assess and vote proxies on behalf of the Fund.

From time to time, employees of the Adviser may express their views orally or in writing on the Fund's portfolio securities or may state that the Fund has recently purchased or sold, or continues to own, one or more securities. The securities subject to these views and statements may be ones that were purchased or sold since a Fund's most recent quarter-end and therefore may not be reflected on the list of the Fund's most recent quarter-end portfolio holdings. These views and statements may be made to various persons, including members of the press, brokers and other financial intermediaries that sell shares of the Fund, shareholders in the Fund, persons considering investing in the Fund or representatives of such shareholders or potential shareholders, such as fiduciaries of a 401(k) plan or a trust and their advisers, and other entities for which the Adviser may determine. The nature and content of the views and statements provided to these persons may differ. From time to time, employees of the Adviser also may provide oral or written information ("portfolio commentary") about the Fund, including, but not limited to, how the Fund's investments are divided among various sectors, industries, countries, investment styles and capitalization sizes, and among stocks, bonds, currencies and cash, security types, bond maturities, bond coupons and bond credit quality ratings. This portfolio commentary may also include information on how these various weightings and factors contributed to Fund performance. The Adviser may also provide oral or written information ("statistical information") about various financial characteristics of the Fund or its underlying portfolio securities including, but not limited to, alpha, beta, R-squared, coefficient of determination, duration, maturity, information ratio, sharpe ratio, earnings growth, payout ratio, price/book value, projected earnings growth, return on equity, standard deviation, tracking error, weighted average quality, market capitalization, percent debt to equity, price to cash flow, dividend yield or growth, default rate, portfolio turnover, and risk and style characteristics. This portfolio commentary and statistical information about the Fund may be based on the Fund's portfolio as of the most recent quarter-end or the end of some other interim period, such as month-end. The portfolio commentary and statistical information may be provided to various persons, including those described in the preceding paragraph. The nature and content of the information provided to these persons may differ.

Additionally, employees of the Adviser may disclose one or more of the portfolio securities of the Fund when purchasing and selling securities through broker-dealers, requesting bids on securities, obtaining price quotations on securities, or in connection with litigation involving the Fund's portfolio securities. The Adviser does not enter into formal non-disclosure or confidentiality agreements in connection with these situations; however, the Fund would not continue to conduct business with a person who the Adviser believed was misusing the disclosed information.

The Adviser or its affiliates may manage products sponsored by companies other than itself, including investment companies, offshore funds, and separate accounts and affiliates of the Adviser may provide investment related services, including research services, to other companies, including other investment companies, offshore funds, institutional investors and other entities. In each of these instances, the sponsors of these other companies and the affiliates of the Adviser may receive compensation for their services. In many cases, these other products are managed in a similar fashion to the Fund and thus have similar portfolio holdings, and the other investment related services provided by affiliates of the Adviser may involve disclosure of information that is also utilized by the Adviser in managing the Fund. The sponsors of these other products may disclose the portfolio holdings of their products at different times than the Adviser discloses portfolio holdings for the Fund, and affiliates of the Adviser may provide investment related services to its clients at times that are different than the times disclosed to the Fund.

The Trust and the Adviser currently have no other arrangements for the provision of non-standard disclosure to any party or shareholder. Other than the non-standard disclosure discussed above, if a third-party requests specific, current information regarding the Fund's portfolio holdings, the Trust will refer the third-party to the latest regulatory filing.

All of the arrangements above are subject to the policies and procedures adopted by the Board to ensure such disclosure is for a legitimate business purpose and is in the best interests of the Trust and its shareholders. The Trust's CCO is responsible for monitoring the use and disclosure of information relating to Portfolio Securities. Although no material conflicts of interest are believed to exist that could disadvantage the Fund and its shareholders, various safeguards have been implemented to protect the Fund and its shareholders from conflicts of interest, including: the adoption of Codes of Ethics pursuant to Rule 17j-1 under the 1940 Act designed to prevent fraudulent, deceptive or manipulative acts by officers and employees of the Trust, the Adviser and the Distributor in connection with their personal securities transactions; the adoption by the Adviser and Distributor of insider trading policies and procedures designed to prevent their employees' misuse of material non-public information; and the adoption by the Trust of a Code of Ethics for Officers that requires the Chief Executive Officer and Chief Financial Officer of the Trust to report to the Board any affiliations or other relationships that could potentially create a conflict of interest with the Fund. There may be instances where the interests of the Trust's shareholders respecting the disclosure of information about portfolio holdings may conflict or appear to conflict with the interests of the Adviser, any principal underwriter for the Trust or an affiliated person of the Trust, the Adviser or the Distributor. In such situations, the conflict must be disclosed to the Board and the Board will attempt to resolve the situation in a manner that it deems in the best interests of the Fund.

Affiliated persons of the Trust who receive non-standard disclosure are subject to restrictions and limitations on the use and handling of such information, including requirements to maintain the confidentiality of such information, pre-clear securities trades and report securities transactions activity, as applicable. Except as provided above, affiliated persons of the Trust and third party service providers of the Trust receiving such non-standard disclosure will be instructed

that such information must be kept confidential and that no trading on such information should be allowed.

Neither the Trust, the Fund nor the Adviser receives compensation or other consideration in connection with the non-standard disclosure of information about portfolio securities.

DESCRIPTION OF SHARES

The Trust was organized as a Delaware statutory trust on April 9, 2007. The Trust's Agreement and Declaration of Trust authorizes the Board to issue an unlimited number of full and fractional shares of beneficial interest in the Trust and to classify or reclassify any unissued shares into one or more series of shares. The Agreement and Declaration of Trust further authorizes the trustees to classify or reclassify any series of shares into one or more classes. The Trust's shares of beneficial interest have no par value.

The Fund is authorized to issue four classes of shares, which are described earlier in this SAI.

Shares have no preemptive rights and only such conversion or exchange rights as the Board may grant in its discretion. When issued for payment as described in the applicable prospectus, shares will be fully paid and non-assessable. In the event of a liquidation or dissolution of the Trust or an individual fund, shareholders of a fund are entitled to receive the assets available for distribution belonging to the particular fund, and a proportionate distribution, based upon the relative asset values of the respective fund, of any general assets of the Trust not belonging to any particular fund which are available for distribution.

Shareholders are entitled to one vote for each full share held, and a proportionate fractional vote for each fractional share held, and will vote in the aggregate and not by class, except as otherwise expressly required by law or when the Board determines that the matter to be voted on affects only the interests of shareholders of a particular class. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate of the Trust's outstanding shares may elect all of the trustees, irrespective of the votes of other shareholders.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of the fund affected by the matter. A particular fund is deemed to be affected by a matter unless it is clear that the interests of the fund in the matter are substantially identical or that the matter does not affect any interest of the fund. Under the Rule, the approval of an investment management agreement or any change in an investment objective, if fundamental, or in a fundamental investment policy would be effectively acted upon with respect to a fund only if approved by a majority of the outstanding shares of such fund. However, the Rule also provides that the ratification of the appointment of independent public accountants, the approval of principal underwriting contracts and the election of trustees may be effectively acted upon by shareholders of the Trust voting without regard to series or class.

The Trust does not presently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. Upon the written request of shareholders owning at least 25% of the Trust's shares, the Trust will call for a meeting of shareholders to consider the removal of one or more trustees and other certain matters. To the extent required by law, the Trust will assist in shareholder communication in such matters.

The Board has full power and authority, in its sole discretion, and without obtaining shareholder approval, to divide or combine the shares of any class or series thereof into a greater or lesser number, to classify or reclassify any issued shares or any class or series thereof into one or more classes or series of shares, and to take such other action with respect to the Trust's shares as the Board may deem desirable. The Agreement and Declaration of Trust authorizes the trustees, without shareholder approval, to cause the Trust to merge or to consolidate with any corporation, association, trust or other organization in order to change the form of organization and/or domicile of the Trust or to sell or exchange all or substantially all of the assets of the Trust, or any series or class thereof, in dissolution of the Trust, or any series or class thereof. The Agreement and Declaration of Trust permits the termination of the Trust or of any series or class of the Trust by the trustees without shareholder approval. However, the exercise of such authority by the Board without shareholder approval may be subject to certain restrictions or limitations under the 1940 Act.

PROXY VOTING

The Board of Trustees of the Trust has delegated responsibility for decisions regarding proxy voting for securities held by the Fund to the Adviser, which in turn has delegated such responsibility to the Sub-Adviser. The Sub-Adviser will vote such proxies in accordance with its proxy policies and procedures, which are included in Exhibit A to this SAI. The Board of Trustees will periodically review the Fund's proxy voting record. The proxy voting policies and procedures of the Trust are included as Exhibit B to this SAI. The proxy voting policies and procedures of the Sub-Adviser are included as Exhibit A to this SAI.

The Trust is required to disclose annually the Fund's complete proxy voting record on Form N-PX. Any material changes to the proxy policies and procedures will be submitted to the Board for approval. Information regarding how the Fund voted proxies relating to portfolio securities for the most recent 12-month period ending June 30, will be available (1) without charge, upon request by calling 800-628-40 or by writing to the Fund at 8730 Stony Point Parkway, Suite 205, Richmond, VA 23235; and (2) on the SEC's website at <http://www.sec.gov>.

CODES OF ETHICS

The Board of Trustees, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser, Sub-Adviser and Distributor have each adopted Codes of Ethics pursuant to Rule 17j-1. These Codes of Ethics apply to the personal investing activities of trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements, or are prohibited from making such investments. Copies of these Codes of Ethics are on file with the SEC, and are available to the public on the EDGAR Database on the SEC's Internet website at <http://www.sec.gov>.

FINANCIAL INFORMATION

The Fund is a continuation of another fund that was organized in a different investment company (the “Predecessor Fund”) and, therefore, the Fund’s financial information includes results of the Predecessor Fund. The Predecessor Fund commenced operations on February 15, 1996 for Class A Shares. Shareholders of the Predecessor Fund approved the reorganization into the Fund on July 29, 2014 and received shares of the Fund on August 15, 2014.

The audited financial statements of the Fund and Predecessor Fund for the fiscal year ended December 31, 2016, including the financial highlights appearing in the Annual Report to shareholders, have been adopted by the Fund and are incorporated by reference and made a part of this document. The Fund’s semi-annual report for the fiscal period ending June 30, 2016 is also incorporated herein by reference.

All performance results achieved prior to November 7, 2017 were achieved by investment advisers and sub-advisers other than the Adviser and Sub-Adviser. Performance results achieved prior to December 29, 2017 were achieved while the Fund had in place a different investment objective and investment strategies.

You may request a copy of the annual and semi-annual reports for the Fund at no charge by calling the Fund at:

EXHIBIT A

PROXY VOTING POLICY
Of
Auour Investments, LLC

PROXY VOTING

Auour Investments, LLC (“Auour”) as a matter of policy and as a fiduciary to our clients, has responsibility for voting proxies for portfolio securities consistent with the best economic interests of the clients. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm’s proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

Background

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised. Investment advisers registered with the SEC, and which exercise voting authority with respect to client securities, are required by Rule 206(4)-6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its clients; (b) to disclose to clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

Responsibility

Joseph Hosler has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and record keeping, including outlining our voting guidelines in our procedures.

Procedure

Auour has adopted procedures to implement the firm’s policy and reviews to monitor and insure the firm’s policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

- All associated persons will forward any proxy materials received on behalf of clients to Joseph Hosler;
- Joseph Hosler will determine which client accounts hold the security to which the proxy relates;

- Absent material conflicts, Joseph Hosler, CFA, will determine how Auour should vote the proxy in accordance with applicable voting guidelines, complete the proxy and vote the proxy in a timely and appropriate manner.

Disclosure

Auour will provide information in its Form ADV Part 2A summarizing this proxy voting policy and procedures, including a statement that clients may request information regarding how Auour Investments voted a client's proxies, and that clients may request a copy of these policies and procedures.

Client Requests for Information

All client requests for information regarding proxy votes, or policies and procedures, received by any associated person should be forwarded to Joseph Hosler.

In response to any request, Mr. Hosler will prepare a written response to the client with the information requested, and as applicable will include the name of the issuer, the proposal voted upon, and how Auour voted the client's proxy with respect to each proposal about which client inquired.

Voting Guidelines

In the absence of specific voting guidelines from the client, Auour will vote proxies in the best interests of each particular client. Auour's policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. Clients are permitted to place reasonable restrictions on Auour's voting authority in the same manner that they may place such restrictions on the actual selection of account securities.

As a general policy, Auour believes that the management of each of the invested companies makes proxy voting recommendations that are in the best interest for the company and its shareholders. Auour will therefore, as a matter of procedure, vote in a manner that is consistent with management recommendations except in certain specific situations where Auour determines management recommendation is not consistent with its client's interests. Any vote cast inconsistent with management recommendations will be specifically documented.

Conflicts of Interest

Auour will identify any conflicts that exist between the interests of the adviser and the client by reviewing the relationship of Auour with the issuer of each security to determine if Auour or any of its associated persons has any financial, business or personal relationship with the issuer.

If a material conflict of interest exists, the Managing Principals will determine whether it is appropriate to disclose the conflict to the affected clients, to give the clients an opportunity to vote the proxies themselves, or to address the voting issue through other objective means such as voting in a manner consistent with a predetermined voting policy or receiving an independent third party voting recommendation.

Auour will maintain a record of the voting resolution of any conflict of interest.

Recordkeeping

Auour will manage the record keeping of its proxy voting. Auour Investments retains records in accordance with the SEC's five-year retention requirement and can be accessed at any time.

- Each proxy statement that Auour receives;
- A record of each vote that Auour casts;

Furthermore, Auour will retain any records that relate to the following.

- Any document Auour created that was material to making a decision how to vote proxies inconsistent with management recommendations.
- A copy of each written request from a client for information on how Auour voted such client's proxies, and a copy of any written response.

EXHIBIT B
World Funds Trust
PROXY VOTING POLICY AND PROCEDURES

The World Funds Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Fund”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Fund’s shareholders.

Delegation of Proxy Voting Authority to Fund Advisers

The Board believes that the investment advisor, or sub-advisor of the Fund, as applicable (each an “Adviser” and, collectively, the “Advisers”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of the Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of the Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, the Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund’s shareholders, and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy, to the extent consistent with the shareholders’ best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board’s decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

If a Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of the Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Each Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 30 days following the end of each 12-month period ending June 30. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the Securities and Exchange Commission no later than August 31st of each year.

Adopted: November 26, 2013

Amended: January 26, 2015

EXHIBIT C

Nominating and Corporate Governance Committee Charter

World Funds Trust

Nominating and Corporate Governance Committee Membership

1. The Nominating and Corporate Governance Committee of World Funds Trust (the “Trust”) shall be composed entirely of Independent Trustees.

Board Nominations and Functions

1. The Committee shall make nominations for Trustee membership on the Board of Trustees, including the Independent Trustees. The Committee shall evaluate candidates’ qualifications for Board membership and their independence from the investment advisers to the Trust’s series portfolios and the Trust’s other principal service providers. Persons selected as Independent Trustees must not be “interested person” as that term is defined in the Investment Company Act of 1940, nor shall Independent Trustee have and affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, *e.g.*, business, financial or family relationships with managers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.
2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board of Trustees.
3. The Committee shall periodically review the composition of the Board of Trustees to determine whether it may be appropriate to add individuals with different backgrounds or skill sets from those already on the Board.
4. The Committee shall periodically review trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make nominations for membership on all committees and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the full Board.

Other Powers and Responsibilities

1. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.

2. The Committee shall review this Charter at least annually and recommend any changes to the full Board of Trustees.

Adopted: August 2, 2013

**APPENDIX A TO THE NOMINATING AND CORPORATE GOVERNANCE
COMMITTEE CHARTER
WORLD FUNDS TRUST**

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Nominating and Corporate Governance Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures. In no event shall the Nominating and Corporate Governance Committee consider as a candidate to fill any such vacancy an individual recommended by any investment adviser of any series portfolio of the Trust, unless the Nominating and Corporate Governance Committee has invited management to make such a recommendation.

- II. *Shareholder Candidates.* The Nominating and Corporate Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Nominating and Corporate Governance Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Nominating and Corporate Governance Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.

- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Nominating and Corporate Governance Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Nominating and Corporate Governance Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Nominating and Corporate Governance Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
