

Philotimo Focused Growth and Income Fund

Ticker: PHLOX

a Series of World Funds Trust

STATEMENT OF ADDITIONAL INFORMATION

May 1, 2021

This Statement of Additional Information ("SAI") is not a prospectus. It should be read in conjunction with the Prospectus of the Philotimo Focused Growth and Income Fund (the "Fund") dated May 1, 2021. The Fund's Prospectus is hereby incorporated by reference, which means it is legally part of this document. A free copy of the Prospectus and Annual Report can be obtained by writing to World Funds Trust (the "Trust"), c/o Commonwealth Fund Services, Inc., 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235, or by calling toll-free at 1-800-673-0550.

THE TRUST

General. The Trust was organized as a Delaware statutory trust on April 9, 2007. The Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act") and commonly known as a "mutual fund". The Declaration of Trust permits the Trust to offer separate series ("funds") of shares of beneficial interest ("shares"). The Trust reserves the right to create and issue shares of additional funds. Each fund is a separate mutual fund, and each share of each fund represents an equal proportionate interest in that fund. All consideration received by the Trust for shares of any fund and all assets of such fund belong solely to that fund and would be subject to liabilities related thereto. Each fund of the Trust pays its (i) operating expenses, including fees of its service providers, expenses of preparing prospectuses, proxy solicitation material and reports to shareholders, costs of custodial services and registering its shares under federal and state securities laws, pricing, insurance expenses, brokerage costs, interest charges, taxes and organization expenses; and (ii) pro rata share of the fund's other expenses, including audit and legal expenses. Expenses attributable to a specific fund shall be payable solely out of the assets of that fund. Notwithstanding the foregoing, an investment adviser to a fund may be obligated through an investment advisory, expense limitation, or fee waiver agreement to assume, waive, reimburse, or otherwise assume responsibility for certain of the fund's operating expenses – any such arrangements for a fund are described in that fund's prospectus and statement of additional information.

Expenses not attributable to a specific fund are allocated across all of the funds on the basis of relative net assets. The other funds of the Trust are described in one or more separate Statements of Additional Information.

The Fund. This SAI relates to the prospectus for the Philotimo Focused Growth and Income Fund (the "Fund"), and should be read in conjunction with the prospectus. This SAI is incorporated by reference into the Fund's prospectus. No investment in shares should be made without reading the prospectus. The Fund is a separate investment portfolio or series of the Trust.

ADDITIONAL INFORMATION ABOUT INVESTMENT OBJECTIVES AND POLICIES

The Fund's investment objective and principal investment strategies are described in the prospectus. The Fund is a "non-diversified" series as that term is defined in the Internal Revenue Code of 1986, as amended. This following information contains a discussion of some of the investments the Fund may make and some of the techniques it may use and the risks associated with such investments.

Portfolio Turnover. Average annual portfolio turnover rate is the ratio of the lesser of sales or purchases to the monthly average value of the portfolio securities owned during the year, excluding from both the numerator and the denominator all securities with maturities at the time of acquisition of one year or less. A higher portfolio turnover rate involves greater transaction expenses to the Fund and may result in the realization of net capital gains, which would be taxable to shareholders when distributed. The Fund's Adviser makes purchases and sales for the Fund's portfolio whenever necessary, in the Adviser's opinion, to meet the Fund's objective. The Fund expects to begin operations on, or around, the date of this SAI so there is no portfolio turnover to report at this time.

Equity Securities. The Fund may invest in equity securities such as common stock, preferred stock, convertible securities, rights and warrants. Common stocks, the most familiar type, represent an equity (ownership) interest in a corporation. Preferred stock is a class of capital stock that pays dividends at a specified rate and that has preference over common stock in the payment of dividends and the liquidation of assets. Preferred stock does not ordinarily carry voting rights. Most preferred stock is cumulative; if

dividends are passed (not paid for any reason), they accumulate and must be paid before common dividends. A passed dividend on non-cumulative preferred stock is generally gone forever. Participating preferred stock entitles its holders to share in profits above and beyond the declared dividend, along with common shareholders, as distinguished from non-participating preferred, which is limited to the stipulated dividend. Adjustable rate preferred stock pays a dividend that is adjustable, usually quarterly, based on changes in the Treasury bill rate or other money market rates. Warrants are options to purchase equity securities at a specified price for a specific time period. Rights are similar to warrants, but normally have a short duration and are distributed by the issuer to its shareholders. Although equity securities have a history of long-term growth in value, their prices fluctuate based on changes in a company's financial condition and on overall market and economic conditions.

Securities of Other Investment Companies. Investments in registered investment companies including mutual funds and ETFs involve certain additional expenses and certain tax results, which would not be present in a direct investment in such funds. The Fund may invest in open-end mutual funds and ETFs, within the limitations imposed by the 1940 Act. Each investment company is subject to specific risks, depending on the nature of the fund. ETFs and mutual funds may employ leverage, which magnifies the changes in the underlying stock or other index upon which they are based.

ETFs are a type of registered investment company. Many ETFs are passively managed and track their related index and have the flexibility of trading like a security. They are managed by professionals and typically provide the investor with diversification, cost and tax efficiency, liquidity, marginability, are useful for hedging, have the ability to go long and short, and some provide quarterly dividends. Additionally, some ETFs are unit investment trusts. Under certain circumstances, the Adviser may invest in ETFs, known as "inverse funds," which are designed to produce results opposite to market trends. Inverse ETFs are funds designed to rise in price when stock prices are falling.

ETFs typically have two markets. The primary market is where institutions swap "creation units" in block-multiples of, for example, 50,000 shares for in-kind securities and cash in the form of dividends. The secondary market is where individual investors can trade as little as a single share during trading hours on the exchange. This is different from open-ended mutual funds that are traded after hours once the NAV is calculated. ETFs share many similar risks with open-end and closed-end funds.

Foreign Securities. Investing in securities of foreign companies and countries involves certain considerations and risks that are not typically associated with investing in U.S. government securities and securities of domestic companies. There may be less publicly available information about a foreign issuer than a domestic one, and foreign companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. There may also be less government supervision and regulation of foreign securities exchanges, brokers and listed companies than exists in the United States. Interest and dividends paid by foreign issuers may be subject to withholding and other foreign taxes, which may decrease the net return on such investments as compared to dividends and interest paid to the Fund by domestic companies or the U.S. government. There may be the possibility of expropriations, seizure or nationalization of foreign deposits, confiscatory taxation, political, economic or social instability or diplomatic developments that could affect assets of the Fund held in foreign countries. Finally, the establishment of exchange controls or other foreign governmental laws or restrictions could adversely affect the payment of obligations.

To the extent currency exchange transactions do not fully protect the Fund against adverse changes in currency exchange rates, decreases in the value of currencies of the foreign countries in which the Fund will invest relative to the U.S. dollar will result in a corresponding decrease in the U.S. dollar value of the Fund's assets denominated in those currencies (and possibly a corresponding increase in the amount of securities required to be liquidated to meet distribution requirements). Conversely, increases in the value of currencies of the foreign countries in which the Fund invests relative to the U.S. dollar will result in a corresponding increase in the U.S. dollar value of the Fund's assets (and possibly a corresponding decrease in the amount of securities to be liquidated).

Emerging Markets Securities. Investing in emerging market securities imposes risks different from, or greater than, risks of investing in foreign developed countries. These risks include: smaller market capitalization of securities markets, which may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; possible repatriation of investment income and capital. In addition, foreign investors may be required to register the proceeds of sales; future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization, or creation of government monopolies. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may continue to have, negative effects on the economies and securities markets of certain emerging market countries.

Additional risks of emerging markets securities may include: greater social, economic and political uncertainty and instability; more substantial governmental involvement in the economy; less governmental supervision and regulation; unavailability of currency hedging techniques; companies that are newly organized and small; differences in auditing and financial reporting standards, which may result in unavailability of material information about issuers; and less developed legal systems. In addition, emerging securities markets may have different clearance and settlement procedures, which may be unable to keep pace with the volume of securities transactions or otherwise make it difficult to engage in such transactions. Settlement problems may cause the Fund to miss attractive investment opportunities, hold a portion of its assets in cash pending investment, or be delayed in disposing of a portfolio security. Such a delay could result in possible liability to a purchaser of the security.

Investing in securities of foreign companies and countries involves certain considerations and risks that are not typically associated with investing in U.S. government securities and securities of domestic companies. There may be less publicly available information about a foreign issuer than a domestic one, and foreign companies are not generally subject to uniform accounting, auditing and financial standards and requirements comparable to those applicable to U.S. companies. There may also be less government supervision and regulation of foreign securities exchanges, brokers and listed companies than exists in the United States. Interest and dividends paid by foreign issuers may be subject to withholding and other foreign taxes, which may decrease the net return on such investments as compared to dividends and interest paid to the Fund by domestic companies or the U.S. government. There may be the possibility of expropriations, seizure or nationalization of foreign deposits, confiscatory taxation, political, economic or social instability or diplomatic developments that could affect assets of the Fund held in foreign countries. Finally, the establishment of exchange controls or other foreign governmental laws or restrictions could adversely affect the payment of obligations.

To the extent currency exchange transactions do not fully protect the Fund against adverse changes in currency exchange rates, decreases in the value of currencies of the foreign countries in which the Fund will invest relative to the U.S. dollar will result in a corresponding decrease in the U.S. dollar value of the Fund's assets denominated in those currencies (and possibly a corresponding increase in the amount of securities required to be liquidated to meet distribution requirements). Conversely, increases in the value of currencies of the foreign countries in which the Fund invests relative to the U.S. dollar will result in a corresponding increase in the U.S. dollar value of the Fund's assets (and possibly a corresponding decrease in the amount of securities to be liquidated).

Options. The Fund may purchase and write (*i.e.*, sell) put and call options. Such options may relate to particular securities or stock indices, and may or may not be listed on a domestic or foreign securities exchange and may or may not be issued by the Options Clearing Corporation. Options trading is a highly specialized activity that entails greater than ordinary investment risk. Options may be more volatile than the underlying instruments, and therefore, on a percentage basis, an investment in options may be subject to greater fluctuation than an investment in the underlying instruments themselves.

A call option for a particular security gives the purchaser of the option the right to buy, and the writer (seller) the obligation to sell, the underlying security at the stated exercise price at any time prior to the expiration of the option, regardless of the market price of the security. The premium paid to the writer is in consideration for undertaking the obligation under the option contract. A put option for a particular security gives the purchaser the right to sell the security at the stated exercise price at any time prior to the expiration date of the option, regardless of the market price of the security.

Stock index options are put options and call options on various stock indices. In most respects, they are identical to listed options on common stocks. The primary difference between stock options and index options occurs when index options are exercised. In the case of stock options, the underlying security, common stock, is delivered. However, upon the exercise of an index option, settlement does not occur by delivery of the securities comprising the index. The option holder who exercises the index option receives an amount of cash if the closing level of the stock index upon which the option is based is greater than, in the case of a call, or less than, in the case of a put, the exercise price of the option. This amount of cash is equal to the difference between the closing price of the stock index and the exercise price of the option expressed in dollars times a specified multiple. A stock index fluctuates with changes in the market value of the stocks included in the index. For example, some stock index options are based on a broad market index, such as the Standard & Poor's 500® Index or the Value Line Composite Index or a narrower market index, such as the Standard & Poor's 100®. Indices may also be based on an industry or market segment, such as the NYSE Arca Oil and Gas Index or the Computer and Business Equipment Index. Options on stock indices are currently traded on the Chicago Board Options Exchange, the New York Stock Exchange and the NASDAQ PHLX.

The Fund's obligation to sell an instrument subject to a call option written by it, or to purchase an instrument subject to a put option written by it, may be terminated prior to the expiration date of the option by the Fund's execution of a closing purchase transaction, which is effected by purchasing on an exchange an option of the same series (*i.e.*, same underlying instrument, exercise price and expiration date) as the option previously written. A closing purchase transaction will ordinarily be effected to realize a profit on an outstanding option, to prevent an underlying instrument from being called, to permit the sale of the underlying instrument or to permit the writing of a new option containing different terms on such underlying instrument. The cost of such a liquidation purchase plus transactions costs may be greater than the premium received upon the original option, in which event the Fund will have paid a loss in the transaction. There is no assurance that a liquid secondary market will exist for any particular option. An option writer unable to effect a closing purchase transaction will not be able to sell the underlying instrument or liquidate the assets held in a segregated account, as described below, until the option expires or the optioned instrument is delivered upon exercise. In such circumstances, the writer will be subject to the risk of market decline or appreciation in the instrument during such period.

If an option purchased by the Fund expires unexercised, the Fund realizes a loss equal to the premium paid. If the Fund enters into a closing sale transaction on an option purchased by it, the Fund will realize a gain if the premium received by the Fund on the closing transaction is more than the premium paid to purchase the option, or a loss if it is less. If an option written by the Fund expires on the stipulated expiration date or if the Fund enters into a closing purchase transaction, it will realize a gain (or loss if the cost of a closing purchase transaction exceeds the net premium received when the option is sold). If an option written by the Fund is exercised, the proceeds of the sale will be increased by the net premium originally received and the Fund will realize a gain or loss.

Risks Regarding Call and Put Options. There are risks associated with transactions in options. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objectives. In addition, a liquid secondary market for particular options, whether traded over-the-counter or on an exchange, may be absent for reasons which include the following: there may be insufficient trading interest in certain options; restrictions may be imposed by an exchange on opening transactions or closing

transactions or both; trading halts, suspensions or other restrictions may be imposed with respect to particular classes or series of options or underlying securities or currencies; unusual or unforeseen circumstances may interrupt normal operations on an exchange; the facilities of an exchange or the Options Clearing Corporation may not at all times be adequate to handle current trading value; or one or more exchanges could, for economic or other reasons, decide or be compelled at some future date to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options that had been issued by the Options Clearing Corporation as a result of trades on that exchange would continue to be exercisable in accordance with their terms.

Successful use by the Fund of options on stock indices will be subject to the ability of the Adviser to correctly predict movements in the directions of the stock market. This requires different skills and techniques than predicting changes in the prices of individual securities. In addition, the Fund's ability to effectively hedge all or a portion of the securities in its portfolio, in anticipation of or during a market decline, through transactions in put options on stock indices, depends on the degree to which price movements in the underlying index correlate with the price movements of the securities held by the Fund. Inasmuch as the Fund's securities will not duplicate the components of an index, the correlation will not be perfect. Consequently, the Fund bears the risk that the prices of its securities being hedged will not move in the same amount as the prices of its put options on the stock indices. It is also possible that there may be a negative correlation between the index and the Fund's securities that would result in a loss on both such securities and the options on stock indices acquired by the Fund.

The hours of trading for options may not conform to the hours during which the underlying securities are traded. To the extent that the options markets close before the markets for the underlying securities, significant price and rate movements can take place in the underlying markets that cannot be reflected in the options markets. The purchase of options is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio securities transactions. The purchase of stock index options involves the risk that the premium and transaction costs paid by the Fund in purchasing an option will be lost as a result of unanticipated movements in prices of the securities comprising the stock index on which the option is based.

There is no assurance that a liquid secondary market on an options exchange will exist for any particular option, or at any particular time, and for some options no secondary market on an exchange or elsewhere may exist. If the Fund is unable to close out a call option on securities that it has written before the option is exercised, the Fund may be required to purchase the optioned securities in order to satisfy its obligation under the option to deliver such securities. If the Fund is unable to effect a closing sale transaction with respect to options on securities that it has purchased, it would have to exercise the option in order to realize any profit and would incur transaction costs upon the purchase and sale of the underlying securities.

Transactions using options (other than options that the Fund has purchased) expose the Fund to an obligation to another party. The Fund will not enter into any such transactions unless it owns either (i) an offsetting ("covered") position in securities or other options or (ii) cash or liquid securities with a value sufficient at all times to cover its potential obligations not covered as provided in (i) above. The Fund will comply with SEC guidelines regarding cover for these instruments and, if the guidelines so require, set aside cash or liquid securities in a segregated account with the Fund's custodian in the prescribed amount. Under current SEC guidelines, the Fund will segregate assets to cover transactions in which the Fund writes or sells options.

Assets used as cover or held in a segregated account cannot be sold while the position in the corresponding option is open, unless they are replaced with similar assets. As a result, the commitment of a large portion of the Fund's assets to cover or segregated accounts could impede portfolio management or the Fund's ability to meet redemption requests or other current obligations.

Options on Futures Contracts. The Fund may purchase and sell options on the same types of futures in which it may invest. Options on futures are similar to options on underlying instruments except that options on futures give the purchaser the right, in return for the premium paid, to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put), rather than to purchase or sell the futures contract, at a specified exercise price at any time during the period of the option. Upon exercise of the option, the delivery of the futures position by the writer of the option to the holder of the option will be accompanied by the delivery of the accumulated balance in the writer's futures margin account which represents the amount by which the market price of the futures contract, at exercise, exceeds (in the case of a call) or is less than (in the case of a put) the exercise price of the option on the futures contract. Purchasers of options who fail to exercise their options prior to the exercise date suffer a loss of the premium paid.

Short Sales. The Fund may sell securities short as an outright investment strategy and to offset potential declines in long positions in similar securities. A short sale is a transaction in which the Fund sells a security it does not own or have the right to acquire (or that it owns but does not wish to deliver) in anticipation that the market price of that security will decline.

When the Fund makes a short sale, the broker-dealer through which the short sale is made must borrow the security sold short and deliver it to the party purchasing the security. The Fund is required to make a margin deposit in connection with such short sales; the Fund may have to pay a fee to borrow particular securities and will often be obligated to pay over any dividends and accrued interest on borrowed securities.

If the price of the security sold short increases between the time of the short sale and the time the Fund covers its short position, the Fund will incur a loss; conversely, if the price declines, the Fund will realize a capital gain. Any gain will be decreased, and any loss increased, by the transaction costs described above. The successful use of short selling may be adversely affected by imperfect correlation between movements in the price of the security sold short and the securities being hedged.

To the extent the Fund sells securities short, it will provide collateral to the broker-dealer and (except in the case of short sales "against the box") will maintain additional asset coverage in the form of cash, U.S. government securities or other liquid securities with its custodian in a segregated account in an amount at least equal to the difference between the current market value of the securities sold short and any amounts required to be deposited as collateral with the selling broker. A short sale is "against the box" to the extent the Fund contemporaneously owns, or has the right to obtain at no added cost, securities identical to those sold short.

U.S. Government Securities. U.S. government securities are high-quality debt securities issued or guaranteed by the U.S. Treasury or by an agency or instrumentality of the U.S. government. Not all U.S. government securities are backed by the full faith and credit of, or guaranteed by, the United States Treasury. For example, securities issued by the Farm Credit Banks or by the Federal National Mortgage Association are supported by the instrumentality's right to borrow money from the U.S. Treasury under certain circumstances. Moreover, securities issued by other agencies or instrumentalities are supported only by the credit of the entity that issued them.

Structured Products. The Fund may invest in structured products, including instruments such as credit-linked securities, commodity-linked notes and structured notes, which are potentially high-risk derivatives. For example, a structured product may combine a traditional stock, bond, or commodity with an option or forward contract. Generally, the principal amount, amount payable upon maturity or redemption, or interest rate of a structured product is tied (positively or negatively) to the price of some commodity, currency or securities index or another interest rate or some other economic factor (each a benchmark). The interest rate or (unlike most fixed income securities) the principal amount payable at maturity of a structured product may be increased or decreased, depending on changes in the value of the benchmark.

Convertible Securities. Convertible securities include fixed income securities that may be exchanged or converted into a predetermined number of shares of the issuer's underlying common stock at the option of the holder during a specified period. Convertible securities may take the form of convertible preferred stock, convertible bonds or debentures, units consisting of "usable" bonds and warrants or a combination of the features of several of these securities. Convertible securities are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed-income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar nonconvertible security), a convertible security also gives an investor the opportunity, through its conversion feature, to participate in the capital appreciation of the issuing company depending upon a market price advance in the convertible security's underlying common stock.

Real Estate Investment Trusts. The Fund may invest in securities of real estate investment trusts ("REITs"). REITs are publicly traded corporations or trusts that specialize in acquiring, holding and managing residential, commercial or industrial real estate. A REIT is not taxed at the entity level on income distributed to its shareholders or unitholders if it distributes to shareholders or unitholders at least 95% of its taxable income for each taxable year and complies with regulatory requirements relating to its organization, ownership, assets and income.

REITs generally can be classified as "Equity REITs," "Mortgage REITs" and "Hybrid REITs." An Equity REIT invests the majority of its assets directly in real property and derives its income primarily from rents and from capital gains on real estate appreciation, which are realized through property sales. A Mortgage REIT invests the majority of its assets in real estate mortgage loans and derives its income primarily from interest payments. A Hybrid REIT combines the characteristics of an Equity REIT and a Mortgage REIT. Although the Fund can invest in all three kinds of REITs, its emphasis is expected to be on investments in Equity REITs.

Investments in the real estate industry involve particular risks. The real estate industry has been subject to substantial fluctuations and declines on a local, regional and national basis in the past and may continue to be in the future. Real property values and income from real property may decline due to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, regulatory limitations on rents, changes in neighborhoods and in demographics, increases in market interest rates, or other factors. Factors such as these may adversely affect companies that own and operate real estate directly, companies that lend to such companies, and companies that service the real estate industry.

Investments in REITs also involve risks. Equity REITs will be affected by changes in the values of and income from the properties they own, while Mortgage REITs may be affected by the credit quality of the mortgage loans they hold. In addition, REITs are dependent on specialized management skills and on their ability to generate cash flow for operating purposes and to make distributions to shareholders or unitholders. REITs may have limited diversification and are subject to risks associated with obtaining financing for real property, as well as to the risk of self-liquidation. REITs also can be adversely affected by their failure to qualify for tax-free pass-through treatment of their income under the Internal Revenue Code of 1986, as amended, or their failure to maintain an exemption from registration under the 1940 Act. By investing in REITs indirectly through the Fund, a shareholder bears not only a proportionate share of the expenses of the Fund, but also may indirectly bear similar expenses of some of the REITs in which it invests.

Depositary Receipts. Sponsored and unsponsored American Depositary Receipts ("ADRs"), are receipts issued by an American bank or trust company evidencing ownership of underlying securities issued by a foreign issuer. ADRs, in registered form, are designed for use in U.S. securities markets. Unsponsored ADRs may be created without the participation of the foreign issuer. Holders of these ADRs generally bear all the costs of the ADR facility, whereas foreign issuers typically bear certain costs in a sponsored ADR. The bank or trust company depositary of an unsponsored ADR may be under no obligation to distribute shareholder communications received from the foreign issuer or to pass through voting rights. Many of the risks described below regarding foreign securities apply to investments in ADRs.

Futures Contracts. A futures contract provides for the future sale by one party and purchase by another party of a specified amount of a specific financial instrument (e.g., units of a stock index) for a specified price, date, time and place designated at the time the contract is made. Brokerage fees are paid when a futures contract is bought or sold and margin deposits must be maintained. Entering into a contract to buy is commonly referred to as buying or purchasing a contract or holding a long position. Entering into a contract to sell is commonly referred to as selling a contract or holding a short position.

Unlike when the Fund purchases or sells a security, no price would be paid or received by the Fund upon the purchase or sale of a futures contract. Upon entering into a futures contract, and to maintain the Fund's open positions in futures contracts, the Fund would be required to deposit with its custodian or futures broker in a segregated account in the name of the futures broker an amount of cash, U.S. government securities, suitable money market instruments, or other liquid securities, known as "initial margin." The margin required for a particular futures contract is set by the exchange on which the contract is traded, and may be significantly modified from time to time by the exchange during the term of the contract. Futures contracts are customarily purchased and sold on margins that may range upward from less than 5% of the value of the contract being traded.

If the price of an open futures contract changes (by increase in underlying instrument or index in the case of a sale or by decrease in the case of a purchase) so that the loss on the futures contract reaches a point at which the margin on deposit does not satisfy margin requirements, the broker will require an increase in the margin. However, if the value of a position increases because of favorable price changes in the futures contract so that the margin deposit exceeds the required margin, the broker will pay the excess to the Fund.

These subsequent payments, called "variation margin," to and from the futures broker, are made on a daily basis as the price of the underlying assets fluctuate making the long and short positions in the futures contract more or less valuable, a process known as "marking to the market." The Fund expects to earn interest income on margin deposits.

Although certain futures contracts, by their terms, require actual future delivery of and payment for the underlying instruments, in practice most futures contracts are usually closed out before the delivery date. Closing out an open futures contract purchase or sale is effected by entering into an offsetting futures contract sale or purchase, respectively, for the same aggregate amount of the identical underlying instrument or index and the same delivery date. If the offsetting purchase price is less than the original sale price, the Fund realizes a gain; if it is more, the Fund realizes a loss. Conversely, if the offsetting sale price is more than the original purchase price, the Fund realizes a gain; if it is less, the Fund realizes a loss. The transaction costs must also be included in these calculations. There can be no assurance, however, that the Fund will be able to enter into an offsetting transaction with respect to a particular futures contract at a particular time. If the Fund is not able to enter into an offsetting transaction, the Fund will continue to be required to maintain the margin deposits on the futures contract.

For example, one contract in the Financial Times Stock Exchange 100 Index future is a contract to buy 25 pounds sterling multiplied by the level of the UK Financial Times 100 Share Index on a given future date. Settlement of a stock index futures contract may or may not be in the underlying instrument or index. If not in the underlying instrument or index, then settlement will be made in cash, equivalent over time to the difference between the contract price and the actual price of the underlying asset at the time the stock index futures contract expires.

When-Issued, Forward Commitments and Delayed Settlements. The Fund may purchase and sell securities on a when-issued, forward commitment or delayed settlement basis. In this event, the Custodian (as defined under the section entitled "Custodian") will segregate liquid assets equal to the amount of the commitment in a separate account. Normally, the Custodian will set aside portfolio securities to satisfy a purchase commitment. In such a case, the Fund may be required subsequently to segregate additional assets in order to assure that the value of the account remains equal to the amount of the Fund's commitment. It

may be expected that the Fund's net assets will fluctuate to a greater degree when it sets aside portfolio securities to cover such purchase commitments than when it sets aside cash.

The Fund does not intend to engage in these transactions for speculative purposes but only in furtherance of its investment objectives. Because the Fund will segregate liquid assets to satisfy purchase commitments in the manner described, the Fund's liquidity and the ability of the Adviser to manage them may be affected in the event the Fund's forward commitments, commitments to purchase when-issued securities and delayed settlements ever exceeded 15% of the value of its net assets.

The Fund will purchase securities on a when-issued, forward commitment or delayed settlement basis only with the intention of completing the transaction. If deemed advisable as a matter of investment strategy, however, the Fund may dispose of or renegotiate a commitment after it is entered into, and may sell securities it has committed to purchase before those securities are delivered to the Fund on the settlement date. In these cases, the Fund may realize a taxable capital gain or loss. When the Fund engages in when-issued, forward commitment and delayed settlement transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in the Fund incurring a loss or missing an opportunity to obtain a price credited to be advantageous.

The market value of the securities underlying a when-issued purchase, forward commitment to purchase securities, or a delayed settlement and any subsequent fluctuations in their market value is taken into account when determining the market value of the Fund starting on the day the Fund agrees to purchase the securities. The Fund does not earn interest on the securities it has committed to purchase until it has paid for and delivered on the settlement date.

Restricted, Private Company and Illiquid Securities. Restricted securities are securities where the resale of which is subject to legal or contractual restrictions. Restricted securities may be sold only in privately negotiated transactions, in a public offering with respect to which a registration statement is in effect under the Securities Act of 1933 or pursuant to Rule 144 or Rule 144A promulgated under such Act. Where registration is required, the Fund may be obligated to pay all or part of the registration expense, and a considerable period may elapse between the time of the decision to sell and the time such security may be sold under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than the price it could have obtained when it decided to sell. The Fund may hold up to 15% of its net assets in illiquid securities. For this purpose, the term "illiquid securities" means securities that cannot be disposed of within seven days in the ordinary course of business at approximately the amount which the Fund has valued the securities. Securities may be illiquid due to contractual or legal restrictions on resale or lack of a ready market. Illiquid securities include generally, among other things, certain written over-the-counter options, securities or other liquid assets as cover for such options, repurchase agreements with maturities in excess of seven days, certain loan participation interests and other securities whose disposition is restricted under the federal securities laws. With respect to Rule 144A securities, these restricted securities are treated as exempt from the 15% limit on illiquid securities, provided that a dealer or institutional trading market in such securities exists. Under the supervision of the Board of Trustees, the Adviser determines the liquidity of restricted securities and, through reports from the Adviser, the Board of Trustees will monitor trading activity in restricted securities. If institutional trading in restricted securities were to decline, the liquidity of the Fund could be adversely affected.

Loans. The Fund may invest directly or indirectly (by investing in other investment companies that so invest) in loans, including senior secured loans, unsecured and/or subordinated loans, loan participations and unfunded contracts. These loans are typically made by or issued to corporations primarily to finance acquisitions, refinance existing debt, support organic growth, or pay out dividends, and are typically originated by large banks and are then syndicated out to institutional investors as well as to other banks. A senior secured loan holds a senior position in the issuer's capital structure and is typically secured by collateral such that, under normal circumstances, holders (such as the Fund) enjoy a priority claim to some or all of the issuer's assets in the event of default as compared to other creditors of the issuer. Variable and

floating-rate loans generally pay interest at rates that adjust whenever a specified interest rate changes and/or reset on predetermined dates (such as the last day of a month or calendar quarter). Due to their lower place in the borrower's capital structure, unsecured and/or subordinated loans involve a higher degree of overall risk than senior bank loans of the same borrower. Loan participations are loans that are shared by a group of lenders. Unfunded commitments are contractual obligations by lenders (such as a fund) to loan an amount in the future or that is due to be contractually funded in the future. Loans may have restrictive covenants limiting the ability of a borrower to further encumber its assets. The types of covenants included in loan agreements generally vary depending on market conditions, the creditworthiness of the borrower, the nature of the collateral securing the loan and other factors. Such restrictive covenants normally allow for early intervention and proactive mitigation of credit risk by providing lenders with the ability to (1) intervene and either prevent or restrict actions that may potentially compromise the borrower's ability to repay the loan and/or (2) obtain concessions from the borrower in exchange for waiving or amending a particular covenant. Loans with fewer or weaker restrictive covenants may limit the Fund's ability to intervene or obtain additional concessions from borrowers. Investing in loans, including bank loans, may expose the Fund to heightened credit risk, call risk and liquidity risk. If an issuer of a senior loan prepays or redeems the loan prior to maturity, the Fund may have to reinvest the proceeds in instruments that pay lower interest rates.

Borrowing. At this time, the Fund does not expect to engage in borrowing. The Fund may engage in borrowing in the future and, to the extent it does so, the Fund will be permitted to borrow money up to one-third of the value of its total assets. Borrowing is a speculative technique that increases both investment opportunity and the Fund's ability to achieve greater diversification. However, it also increases investment risk. Because the Fund's investments will fluctuate in value, whereas the interest obligations on borrowed funds may be fixed, during times of borrowing, the Fund's NAV may tend to increase more when its investments increase in value, and decrease more when its investments decrease in value. In addition, interest costs on borrowings may fluctuate with changing market interest rates and may partially offset or exceed the return earned on the borrowed funds. Also, during times of borrowing under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales.

Currently, subject to modification to conform to the 1940 Act as interpreted or modified from time to time, the Fund is permitted, consistent with the 1940 Act, to borrow, and pledge its shares to secure such borrowing, provided, that immediately thereafter there is asset coverage of at least 300% for all borrowings by the Fund from a bank. If borrowings exceed this 300% asset coverage requirement by reason of a decline in net assets of the Fund, the Fund will reduce its borrowings within three days (not including weekends and holidays) to the extent necessary to comply with the 300% asset coverage requirement. The 1940 Act also permits the Fund to borrow for temporary purposes only in an amount not exceeding 5% of the value of its total assets at the time when the loan is made. A loan shall be presumed to be for temporary purposes if it is repaid within 60 days and is not extended or renewed. To the extent outstanding borrowings of the Fund exceed 5% of the value of the total assets of the Fund, the Fund will not make additional purchases of securities – the foregoing shall not be construed to prevent the Fund from settling portfolio transactions or satisfying shareholder redemptions orders. The Securities and Exchange Commission (the "SEC") has indicated, however, that certain types of transactions, which could be deemed "borrowings" (such as firm commitment agreements and reverse repurchase agreements), are permissible if the Fund "covers" the agreements by establishing and maintaining segregated accounts.

Financial Services Industry Obligations. The Fund may invest in each of the following obligations of the financial services industry:

- (1) Certificate of Deposit. Certificates of deposit are negotiable certificates evidencing the indebtedness of a commercial bank or a savings and loan association to repay funds deposited with it for a definite period of time (usually from fourteen days to one year) at a stated or variable interest rate.

- (2) Time Deposits. Time deposits are non-negotiable deposits maintained in a banking institution or a savings and loan association for a specified period of time at a stated interest rate.
- (3) Bankers' Acceptances. Bankers' acceptances are credit instruments evidencing the obligation of a bank to pay a draft which has been drawn on it by a customer, which instruments reflect the obligation both of the bank and of the drawer to pay the face amount of the instrument upon maturity.

Repurchase Agreements. The Fund may invest in repurchase agreements fully collateralized by obligations issued by the U.S. government or agencies of the U.S. government ("U.S. Government Obligations"). A repurchase agreement is a short term investment in which the purchaser (i.e., the Fund) acquires ownership of a U.S. Government Obligation (which may be of any maturity) and the seller agrees to repurchase the obligation at a future time at a set price, thereby determining the yield during the purchaser's holding period (usually not more than 7 days from the date of purchase). Any repurchase transaction in which the Fund engages will require full collateralization of the seller's obligation during the entire term of the repurchase agreement. In the event of a bankruptcy or other default of the seller, the Fund could experience both delays in liquidating the underlying security and losses in value. However, the Fund intends to enter into repurchase agreements only with the custodian, other banks with assets of \$1 billion or more and registered securities dealers determined by the Adviser to be creditworthy. The Adviser monitors the creditworthiness of the banks and securities dealers with which the Fund engages in repurchase transactions. The Fund may engage in repurchase agreement transactions to the maximum extent permitted by applicable law.

Cash Investments. The Fund may invest its net assets in cash. When the Adviser believes market, economic or political conditions are unfavorable for investors, the Adviser may invest up to 100% of the Fund's net assets in cash, cash equivalents or other short-term investments. Unfavorable market or economic conditions may include excessive volatility or a prolonged general decline in the securities markets, or the U.S. economy. The Adviser also may invest in these types of securities or hold cash while looking for suitable investment opportunities or to maintain liquidity.

INVESTMENT LIMITATIONS

Fundamental. The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental ("Fundamental"), i.e., they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and the Statement of Additional Information, the term "majority" of the outstanding shares of the Fund means the lesser of: (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund. Other investment practices which may be changed by the Board of Trustees without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental ("Non-Fundamental").

1. Borrowing Money. The Fund may not borrow money except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
2. Senior Securities. The Fund may not issue any senior security to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
3. Underwriting. The Fund may not underwrite securities issued by others except to the extent the Fund may be deemed to be an underwriter under the federal securities laws, in connection with the disposition of portfolio securities.
4. Real Estate. The Fund may not purchase or sell real estate except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.

5. Commodities. The Fund may not purchase or sell physical commodities or commodity futures contracts, except as permitted by the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
6. Loans. The Fund may not make loans to others, except as permitted under the 1940 Act, and as interpreted or modified by regulatory authority having jurisdiction, from time to time.
7. Concentration. The Fund may not invest more than 25% of the value of its net assets in any one industry or group of industries (except that securities of the U.S. government, its agencies and instrumentalities are not subject to these limitations).

With respect to the percentages adopted by the Trust as maximum limitations on its investment policies and limitations, an excess above the fixed percentage will not be a violation of the policy or limitation unless the excess results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth in paragraph 1 above. With respect to Fund's policy on concentration, the Fund will use the Standard Industrial Classification Codes list that is maintained by the SEC to classify the Fund's holdings by industry.

INVESTMENT ADVISER

Kanen Wealth Management, LLC, located at 5850 Coral Ridge Drive, Suite 309, Coral Springs, Florida 33076, serves as the Fund's investment adviser. The Adviser is registered with the SEC as an investment adviser under the Investment Advisers Act of 1940, as amended. The Adviser is a limited liability company formed in Florida for the purpose of managing the Fund. David L. Kanen owns and controls the Adviser.

Pursuant to an investment advisory agreement (the "Advisory Agreement"), the Adviser, subject to the supervision of the Trustees, provides a continuous investment program for the Fund, including investment research and management with respect to securities, investments and cash equivalents, in accordance with the Fund's investment objectives, policies, and restrictions as set forth in the prospectus and this SAI. The Adviser is responsible for effecting all security transactions on behalf of the Fund, including the allocation of principal business and portfolio brokerage and the negotiation of commissions. The Adviser also maintains books and records with respect to the securities transactions of the Fund and furnishes to the trustees such periodic or other reports as the trustees may request.

The Fund pays an annual management fee (computed daily and payable monthly) of 1.00% of the Fund's average daily net assets to the Adviser pursuant to the Advisory Agreement. The Adviser has contractually agreed to waive its fees and/or pay for operating expenses of the Fund to ensure that total annual fund operating expenses (exclusive of interest, fees pursuant to a shareholder services plan, taxes, acquired fund fees and expenses, brokerage commissions, dividend expenses on short sales, other expenditures which are capitalized in accordance with generally accepted accounting principles and other extraordinary expenses not incurred in the ordinary course of business) do not exceed 1.50% of the average daily net assets of the Fund. The Adviser may not terminate this expense limitation agreement prior to May 1, 2022. Each waiver or reimbursement of an expense by the Adviser is subject to repayment by the Fund within the three years following the date such waiver and/or reimbursement was made, provided that the Fund is able to make the repayment without exceeding the expense limitation in place at the time of the waiver or reimbursement and at the time the waiver or reimbursement is recouped. A discussion regarding the basis for the Board of Trustees' approval of the Advisory Agreement will be available in the Fund's semiannual report to shareholders.

The Advisory Agreement will continue in effect for two (2) years initially and thereafter shall continue from year to year provided such continuance is approved at least annually by (a) a vote of the majority of the Independent Trustees, cast in person at a meeting specifically called for the purpose of voting on such approval and by (b) the majority vote of either all of the Trustees or the vote of a majority of the outstanding

shares of the Fund. The Advisory Agreement may be terminated without penalty on 60 days written notice by a vote of a majority of the Trustees or by the Adviser, or by holders of a majority of the Fund's outstanding shares (with respect to the Fund). The Advisory Agreement shall terminate automatically in the event of its assignment.

PORTFOLIO MANAGER

David L. Kanen serves as the portfolio manager of the Fund. As of the date of this SAI, the portfolio manager is responsible for the portfolio management of the following types of accounts in addition to the Fund:

David L. Kanen

Total Other Accounts By Type	Total Number of Accounts by Type	Total Assets By Account Type (in millions)	Number of Accounts by Type Subject to a Performance Fee	Total Assets by Account Type Subject to a Performance Fee (in millions)
Registered Investment Companies	0	\$0	0	\$0
Other Pooled Investment Companies	1	\$92	1	\$65
Other Accounts	267	\$160	0	\$0

Conflicts of Interest. As a general matter, certain conflicts of interest may arise in connection with the portfolio manager's management of the Fund's investments, on the one hand, and the investments of other accounts for which the portfolio manager is responsible, on the other. For example, it is possible that the various accounts managed could have different investment strategies that, at times, might conflict with one another to the possible detriment of the Fund. Alternatively, to the extent that the same investment opportunities might be desirable for more than one account, possible conflicts could arise in determining how to allocate them. Other potential conflicts might include conflicts created by specific portfolio manager compensation arrangements, and conflicts relating to selection of brokers or dealers to execute the Fund's portfolio trades and/or specific uses of commissions from the Fund's portfolio trades (for example, research, or "soft dollars," if any). The Adviser has adopted policies and procedures and has structured the portfolio managers' compensation in a manner reasonably designed to safeguard the Fund from being negatively affected as a result of any such potential conflicts.

Compensation. Mr. David L. Kanen has an ownership interest in the Adviser and will participate in business profits accordingly.

Ownership of Securities. As of the date of this SAI, the portfolio manager owned no shares of the Fund.

TRUSTEES AND OFFICERS OF THE TRUST

Trustees and Officers. The Trust is governed by the Board, which is responsible for protecting the interests of shareholders. The trustees are experienced businesspersons who meet throughout the year to oversee the Trust's activities, review contractual arrangements with companies that provide services to the Fund and review performance. The names, addresses, and ages of the trustees and officers of the Trust, together with information as to their principal occupations during the past five years, are listed below.

Each Trustee was nominated to serve on the Board of Trustees based on their particular experiences, qualifications, attributes and skills. Generally, the Trust believes that each Trustee is competent to serve because of their individual overall merits including: (i) experience; (ii) qualifications; (iii) attributes; and (iv) skills. Mr. David J. Urban has been a Professor of Education since 1989. His strategic planning, organizational and leadership skills help the Board set long-term goals. Ms. Mary Lou H. Ivey has business experience as a practicing tax accountant since 1996 and, as such, brings tax, budgeting and financial reporting skills to the Board. Mr. Theo H. Pitt has experience as an investor, including his role as trustee of several other investment companies and business experience as Senior Partner of a financial consulting company, as a partner of a real estate partnership and as an Account Administrator for a money management firm. The Trust does not believe any one factor is determinative in assessing a Trustee's qualifications, but that the collective experience of each Trustee makes them each highly qualified.

The Chairman of the Board of Trustees is Ms. Ivey, who is not an "interested person" of the Trust, within the meaning of the 1940 Act. The Trust also has an independent Audit Committee that allows the Board to access the expertise necessary to oversee the Trust, identify risks, recognize shareholder concerns and needs and highlight opportunities. The Audit Committee is able to focus Board time and attention to matters of interest to shareholders and, through its private sessions with the Trust's auditor, Chief Compliance Officer and legal counsel, stay fully informed regarding management decisions.

Mutual funds face a number of risks, including investment risk, compliance risk and valuation risk. The Board oversees management of the Fund's risks directly and through its officers. While day-to-day risk management responsibilities rest with the Fund's Chief Compliance Officer, investment advisers and other service providers, the Board monitors and tracks risk by: (1) receiving and reviewing quarterly reports related to the performance and operations of the Fund; (2) reviewing and approving, as applicable, the compliance policies and procedures of the Trust, including the Trust's valuation policies and transaction procedures; (3) periodically meeting with the portfolio manager to review investment strategies, techniques and related risks; (4) meeting with representatives of key service providers, including the Fund's investment advisers, administrator, distributor, transfer agent and the independent registered public accounting firm, to discuss the activities of the Fund; (5) engaging the services of the Chief Compliance Officer of the Fund to monitor and test the compliance procedures of the Trust and its service providers; (6) receiving and reviewing reports from the Trust's independent registered public accounting firm regarding the Fund's financial condition and the Trust's internal controls; and (7) receiving and reviewing an annual written report prepared by the Chief Compliance Officer reviewing the adequacy of the Trust's compliance policies and procedures and the effectiveness of their implementation. The Board has concluded that its general oversight of the investment advisers and other service providers as implemented through the reporting and monitoring process outlined above allows the Board to effectively administer its risk oversight function.

Following is a list of the Trustees and executive officers of the Trust and their principal occupation over the last five years. The mailing address of each Trustee and officer is 8730 Stony Point Parkway, Suite 205, Richmond Virginia, 23235, unless otherwise indicated.

NON-INTERESTED TRUSTEES

NAME, AGE AND POSITION WITH THE TRUST	TERM OF OFFICE AND LENGTH OF TIME SERVED	PRINCIPAL OCCUPATION(S) DURING THE PAST FIVE YEARS	NUMBER OF FUNDS IN FUND COMPLEX OVERSEEN BY TRUSTEE	OTHER DIRECTORSHIPS HELD BY TRUSTEE
David J. Urban (65) Trustee	Indefinite, Since June 2010	Dean, Jones College of Business, Middle Tennessee State University since July 2013.	22	Independent Trustee for the seven series of the ETF Opportunities Trust (registered investment company)
Mary Lou H. Ivey (62) Trustee	Indefinite, Since June 2010	Accountant, Harris, Hardy & Johnstone, P.C. (accounting firm), since 2008.	22	Independent Trustee for the seven series of the ETF Opportunities Trust (registered investment company)
Theo H. Pitt, Jr. (84) Trustee	Indefinite; Since August 2013	Senior Partner, Community Financial Institutions Consulting (bank consulting) since 1997 to present.	22	Independent Trustee of Chesapeake Investment Trust for the one series of that trust; Leeward Investment Trust for the one series of that trust; Hillman Capital Management Investment Trust for the one series of that trust; Starboard Investment Trust for the 12 series of that trust; and ETF Opportunities Trust for the seven series of that Trust (all registered investment companies).

OFFICERS WHO ARE NOT TRUSTEES

NAME, AGE AND POSITION(S) WITH THE TRUST	TERM OF OFFICE AND LENGTH OF TIME SERVED	PRINCIPAL OCCUPATION(S) DURING THE PAST FIVE YEARS
David Bogaert (57) President	Indefinite, Since August 2017	Managing Director of Business Development, Commonwealth Fund Services, Inc., October 2013 – present; Senior Vice President of Business Development and other positions for Huntington Asset Services, Inc. (fund administration and transfer agency) from 1986 to 2013.
Karen M. Shupe (56) Treasurer and Principal Executive Officer	Indefinite, Since June 2008	Managing Director of Fund Operations, Commonwealth Fund Services, Inc., 2003 to present.
Ann T. MacDonald (66) Assistant Treasurer and Principal Financial Officer	Indefinite, Since November 2015	Managing Director, Fund Administration and Fund Accounting, Commonwealth Fund Services, Inc., 2003 to present.
John H. Lively (52) Secretary	Indefinite, Since November 2013	Attorney, Practus, LLP (law firm), May 2018 to present. Attorney, The Law Offices of John H. Lively & Associates, Inc. (law firm), March 2010 to May 2018.
Holly B. Giangulio (59) Assistant Secretary	Indefinite, Since November 2015	Managing Director, Corporate Operations, Commonwealth Fund Services, Inc., January 2015 to present, Corporate Accounting and HR Manager from 2010 to 2015.
Julian G. Winters (52) Chief Compliance Officer	Indefinite, Since August 2013	Managing Member of Watermark Solutions, LLC (investment management compliance and consulting) since March 2007.
Tina H. Bloom (52) Assistant Secretary	Indefinite, Since November 2018	Attorney, Practus, LLP, May 2018 to present; Attorney, The Law Offices of John H. Lively & Associates, Inc., November 2017 to May 2018; Director of Fund Administration of Ultimus Fund Solutions, LLC (fund administration and transfer agency) from 2011-2017.

The Board of Trustees oversees the Trust and certain aspects of the services that the Adviser and the Fund’s other service providers. Each trustee will hold office until their successors have been duly elected and qualified or until their earlier resignation or removal. Each officer of the Trust serves at the pleasure of the Board and for a term of one year or until their successors have been duly elected and qualified.

The Trust has a standing Audit Committee of the Board composed of Mr. Urban, Ms. Ivey and Mr. Pitt. The functions of the Audit Committee are to meet with the Trust's independent auditors to review the scope and findings of the annual audit, discuss the Trust's accounting policies, discuss any recommendations of the independent auditors with respect to the Trust's management practices, review the impact of changes in accounting standards on the Trust's financial statements, recommend to the Board the selection of independent registered public accounting firm, and perform such other duties as may be assigned to the Audit Committee by the Board. As of the date of this SAI, the Audit Committee did not meet as it relates to this Fund.

The Nominating and Corporate Governance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Nominating and Corporate Governance Committee’s purposes, duties and powers are set forth in its written charter, which is described in Exhibit C – the charter also describes the process by which shareholders of the Trust may make nominations. As of the date of this SAI, the Nominating Committee and Corporate Governance Committee did not meet as it relates to this Fund.

The Valuation Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Valuation Committee meets as needed in the event that the Fund holds any securities that are subject to valuation and it reviews the fair valuation of such securities on an as needed basis. As of the date of this SAI, the Valuation Committee did not meet as it relates to this Fund. The Qualified Legal Compliance Committee is comprised of Mr. Urban, Ms. Ivey and Mr. Pitt. The Qualified Legal Compliance Committee receives, investigates, and makes recommendations as to the appropriate remedial action in connection with any report of evidence of a material violation of the securities laws or breach of fiduciary duty or similar violation by the Trust, its officers, Trustees, or agents. As of the date of this SAI, the Qualified Legal Compliance Committee did not meet as it relates to this Fund.

Trustee Compensation. Each Trustee who is not an “interested person” of the Trust may receive compensation for their services to the Trust. All Trustees are reimbursed for any out-of-pocket expenses incurred in connection with attendance at meetings. Each Trustee who is not an “interested person” of the Trust may receive compensation for their services to the Trust. All Trustees are reimbursed for any out-of-pocket expenses incurred in connection with attendance at meetings. Each Trustee receives an annual retainer fee of \$60,000, paid quarterly. Additionally, each Trustee receives a fee of \$2,500 per special meeting attended. Compensation received from the Trust for the Fund’s first fiscal year is estimated as follows:

Name of Trustee	Aggregate Compensation From Fund ⁽¹⁾	Pension or Retirement		Total Compensation From Fund and Fund Complex Paid To Trustees ^(*) (2)
		Benefits Accrued As Part of Funds Expenses	Estimated Annual Benefits upon Retirement	
David J. Urban	\$1,500	\$0	\$0	\$1,500
Mary Lou H. Ivey	\$1,500	\$0	\$0	\$1,500
Theo H. Pitt, Jr.	\$1,500	\$0	\$0	\$1,500

⁽¹⁾ The Fund commenced operations on or about the date of this SAI.

⁽²⁾ As of the date of this SAI, the “Fund Complex” consists of the Fund.

Trustee Ownership of Fund Shares. The table below shows for each Trustee, the amount of Fund equity securities beneficially owned by each Trustee, and the aggregate value of all investments in equity securities of the Funds of the Trust, as of December 31, 2020, and stated as one of the following ranges: A = None; B = \$1-\$10,000; C = \$10,001-\$50,000; D = \$50,001-\$100,000; and E = over \$100,000.

Name of Trustee <u>Non-Interested Trustees</u>	Dollar Range of Equity Securities in the Fund⁽¹⁾	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustees in Family of Investment Companies
David J. Urban	A	A
Mary Lou H. Ivey	A	A
Theo H. Pitt, Jr.	A	A

⁽¹⁾ The Fund commenced operations on or about the date of this SAI.

Policies Concerning Personal Investment Activities. The Fund, the Adviser, and the Distributor have each adopted a Code of Ethics, pursuant to Rule 17j-1 under the 1940 Act that permit investment personnel, subject to their particular code of ethics, to invest in securities, including securities that may be purchased or held by the Fund, for their own account.

CONTROL PERSONS AND PRINCIPAL SECURITY HOLDERS

A principal shareholder is any person who owns (either of record or beneficially) 5% or more of the outstanding shares of the Fund. A control person is one who owns, either directly or indirectly, more than 25% of the voting securities of the Fund or acknowledges the existence of such control. As a controlling shareholder, each of these persons could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser. As of the date of this SAI, no shareholder owned 5% or more of the outstanding shares of the Fund.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board, the Adviser is responsible for the Fund's portfolio decisions and the placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received. The Adviser may not give consideration to sales of shares of the Trust as a factor in the selection of brokers and dealers to execute portfolio transactions. However, the Adviser may place portfolio transactions with brokers or dealers that promote or sell the Fund's shares so long as such placements are made pursuant to policies approved by the Fund's Board of Trustees that are designed to ensure that the selection is based on the quality of the broker's execution and not on its sales efforts.

The Section 28(e) of the Securities Exchange Act of 1934 and the Investment Advisory Agreement, the Adviser is specifically authorized to select brokers or dealers who also provide brokerage and research services to the Fund and/or the other accounts over which the Adviser exercises investment discretion and

to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if the Adviser determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction or the Adviser's overall responsibilities with respect to the Trust and to other accounts over which it exercises investment discretion.

Research services include supplemental research, securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. Although research services and other information are useful to the Fund and the Adviser, it is not possible to place a dollar value on the research and other information received. It is the opinion of the Board of Trustees and the Adviser that the review and study of the research and other information will not reduce the overall cost to the Adviser of performing its duties to the Fund under the Investment Advisory Agreement. Due to research services provided by brokers, the Fund may direct trades to certain brokers.

Over-the-counter transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and asked prices.

When the Fund and another of the Adviser's clients seek to purchase or sell the same security at or about the same time, the Adviser may execute the transaction on a combined ("blocked") basis. Blocked transactions can produce better execution for the Fund because of the increased volume of the transaction. If the entire blocked order is not filled, the Fund may not be able to acquire as large a position in such security as it desires, or it may have to pay a higher price for the security. Similarly, the Fund may not be able to obtain as large an execution of an order to sell or as high a price for any particular portfolio security if the other client desires to sell the same portfolio security at the same time. In the event that the entire blocked order is not filled, the purchase or sale will normally be allocated on a pro rata basis. The allocation may be adjusted by the Adviser, taking into account such factors as the size of the individual orders and transaction costs, when the Adviser believes an adjustment is reasonable.

DESCRIPTION OF SHARES

The Trust was organized as a Delaware statutory trust on April 9, 2007. The Trust's Agreement and Declaration of Trust authorizes the Board to issue an unlimited number of full and fractional shares of beneficial interest in the Trust and to classify or reclassify any unissued shares into one or more series of shares. The Agreement and Declaration of Trust further authorizes the trustees to classify or reclassify any series of shares into one or more classes. The Trust's shares of beneficial interest have no par value.

Shares have no preemptive rights and only such conversion or exchange rights as the Board may grant in its discretion. When issued for payment as described in the applicable prospectus, shares will be fully paid and non-assessable. In the event of a liquidation or dissolution of the Trust or an individual fund, shareholders of a fund are entitled to receive the assets available for distribution belonging to the particular fund, and a proportionate distribution, based upon the relative asset values of the respective fund, of any general assets of the Trust not belonging to any particular fund which are available for distribution.

Shareholders are entitled to one vote for each full share held, and a proportionate fractional vote for each fractional share held, and will vote in the aggregate and not by class, except as otherwise expressly required by law or when the Board determines that the matter to be voted on affects only the interests of shareholders

of a particular class. Voting rights are not cumulative and, accordingly, the holders of more than 50% of the aggregate of the Trust's outstanding shares may elect all of the trustees, irrespective of the votes of other shareholders.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each fund affected by the matter. A particular fund is deemed to be affected by a matter unless it is clear that the interests of each fund in the matter are substantially identical or that the matter does not affect any interest of the fund. Under the Rule, the approval of an investment management agreement or any change in an investment objective, if fundamental, or in a fundamental investment policy would be effectively acted upon with respect to a fund only if approved by a majority of the outstanding shares of such fund. However, the Rule also provides that the ratification of the appointment of independent public accountants, the approval of principal underwriting contracts and the election of trustees may be effectively acted upon by shareholders of the Trust voting without regard to series or class.

The Trust does not presently intend to hold annual meetings of shareholders except as required by the 1940 Act or other applicable law. Upon the written request of shareholders owning at least 25% of the Trust's shares, the Trust will call for a meeting of shareholders to consider the removal of one or more trustees and other certain matters. To the extent required by law, the Trust will assist in shareholder communication in such matters.

The Board has full power and authority, in its sole discretion, and without obtaining shareholder approval, to divide or combine the shares of any class or series thereof into a greater or lesser number, to classify or reclassify any issued shares or any class or series thereof into one or more classes or series of shares, and to take such other action with respect to the Trust's shares as the Board may deem desirable. The Agreement and Declaration of Trust authorizes the trustees, without shareholder approval, to cause the Trust to merge or to consolidate with any corporation, association, trust or other organization in order to change the form of organization and/or domicile of the Trust or to sell or exchange all or substantially all of the assets of the Trust, or any series or class thereof, in dissolution of the Trust, or any series or class thereof. The Agreement and Declaration of Trust permits the termination of the Trust or of any series or class of the Trust by the trustees without shareholder approval. However, the exercise of such authority by the Board without shareholder approval may be subject to certain restrictions or limitations under the 1940 Act.

CODE OF ETHICS

The Board, on behalf of the Trust, has adopted a Code of Ethics pursuant to Rule 17j-1 under the 1940 Act. In addition, the Adviser, Distributor and Administrator have each adopted Codes of Ethics pursuant to Rule 17j-1. These Codes of Ethics apply to the personal investing activities of trustees, officers and certain employees ("access persons"). Rule 17j-1 and the Codes of Ethics are designed to prevent unlawful practices in connection with the purchase or sale of securities by access persons. Under each Code of Ethics, access persons are permitted to engage in personal securities transactions, but are required to report their personal securities transactions for monitoring purposes. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. In addition, certain access persons are required to obtain approval before investing in initial public offerings or private placements, or are prohibited from making such investments. Copies of these Codes of Ethics are on file with the SEC, and are available to the public.

TAXES

The following discussion is a summary of certain U.S. federal income tax considerations affecting the Fund and its shareholders. The discussion reflects applicable federal income tax laws of the U.S. as of the date of this SAI, which tax laws may be changed or subject to new interpretations by the courts or the Internal Revenue Service (the “IRS”), possibly with retroactive effect. No attempt is made to present a detailed explanation of all U.S. income, estate or gift tax, or foreign, state or local tax concerns affecting the Fund and its shareholders (including shareholders owning large positions in the Fund). The discussion set forth herein does not constitute tax advice. Investors are urged to consult their own tax advisers to determine the tax consequences to them of investing in the Fund.

In addition, no attempt is made to address tax concerns applicable to an investor with a special tax status such as a financial institution, real estate investment trust, insurance company, regulated investment company (“RIC”), individual retirement account, other tax-exempt entity, dealer in securities or non-U.S. investor. Furthermore, this discussion does not reflect possible application of the alternative minimum tax (“AMT”). Unless otherwise noted, this discussion assumes shares of the Fund are held by U.S. shareholders and that such shares are held as capital assets.

A U.S. shareholder is a beneficial owner of shares of the Fund that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States (including certain former citizens and former long-term residents);
- a corporation or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States or any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust with respect to which a court within the United States is able to exercise primary supervision over its administration and one or more U.S. shareholders have the authority to control all of its substantial decisions or the trust has made a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

A “Non-U.S. shareholder” is a beneficial owner of shares of the Fund that is an individual, corporation, trust or estate and is not a U.S. shareholder. If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) holds shares of the Fund, the tax treatment of a partner in the partnership generally depends upon the status of the partner and the activities of the partnership. A prospective shareholder who is a partner of a partnership holding the Fund shares should consult its tax advisors with respect to the purchase, ownership and disposition of its Fund shares.

Taxation as a RIC. The Fund intends to qualify and remain qualified as a RIC under the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”). The Fund will qualify as a RIC if, among other things, it meets the source-of-income and the asset-diversification requirements. With respect to the source-of-income requirement, the Fund must derive in each taxable year at least 90% of its gross income (including tax-exempt interest) from (i) dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such shares, securities or currencies and (ii) net income derived from an interest in a “qualified publicly traded partnership.” A “qualified publicly traded partnership” is generally defined as a publicly traded partnership under Internal Revenue Code section 7704. However, for these purposes, a qualified publicly traded partnership does not include a publicly traded partnership if 90% or more of its income is described in (i) above. Income derived from a partnership (other than a qualified publicly traded

partnership) or trust is qualifying income to the extent such income is attributable to items of income of the partnership or trust which would be qualifying income if realized by the Fund in the same manner as realized by the partnership or trust.

The Fund intends to invest in ETFs. Some of those ETFs are taxable as RICs under the Internal Revenue Code. Accordingly, the income the Fund receives from such ETFs should be qualifying income for purposes of the Fund satisfying the 90% Test described above. However, the Fund may also invest in one or more ETFs that are not taxable as RICs under the Internal Revenue Code and that may generate non-qualifying income for purposes of satisfying the 90% Test. The Fund anticipates monitoring its investments in such ETFs so as to keep the Fund's non-qualifying income within acceptable limits of the 90% Test, however, it is possible that such non-qualifying income will be more than anticipated which could cause the Fund to inadvertently fail the 90% Test thereby causing the Fund to fail to qualify as a RIC. In such a case, the Fund would be subject to the rules described below.

If a RIC fails this 90% source-of-income test as long as such failure was due to reasonable cause and not willful neglect it is no longer subject to a 35% tax. Instead, the amount of the penalty for non-compliance is the amount by which the non-qualifying income exceeds one-ninth of the qualifying gross income.

With respect to the asset-diversification requirement, the Fund must diversify its holdings so that, at the end of each quarter of each taxable year (i) at least 50% of the value of the Fund's total assets is represented by cash and cash items, U.S. government securities, the securities of other RICs and other securities, if such other securities of any one issuer do not represent more than 5% of the value of the Fund's total assets or more than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of the Fund's total assets is invested in the securities other than U.S. government securities or the securities of other RICs of (a) one issuer, (b) two or more issuers that are controlled by the Fund and that are engaged in the same, similar or related trades or businesses, or (c) one or more qualified publicly traded partnerships.

If a RIC fails this asset-diversification test, such RIC, in addition to other cure provisions previously permitted, has a 6-month period to correct any failure without incurring a penalty if such failure is "de minimis," meaning that the failure does not exceed the lesser of 1% of the RIC's assets, or \$10 million.

Similarly, if a RIC fails this asset-diversification test and the failure is not de minimis, a RIC can cure failure if: (a) the RIC files with the Treasury Department a description of each asset that causes the RIC to fail the diversification tests; (b) the failure is due to reasonable cause and not willful neglect; and (c) the failure is cured within six months (or such other period specified by the Treasury). In such cases, a tax is imposed on the RIC equal to the greater of: (a) \$50,000 or (b) an amount determined by multiplying the highest rate of corporate tax (currently 21%) by the amount of net income generated during the period of diversification test failure by the assets that caused the RIC to fail the diversification test.

If the Fund qualifies as a RIC and distributes to its shareholders, for each taxable year, at least 90% of the sum of (i) its "investment company taxable income" as that term is defined in the Internal Revenue Code (which includes, among other things, dividends, taxable interest, the excess of any net short-term capital gains over net long-term capital losses and certain net foreign exchange gains as reduced by certain deductible expenses) without regard to the deduction for dividends paid, and (ii) the excess of its gross tax-exempt interest, if any, over certain deductions attributable to such interest that are otherwise disallowed, the Fund will be relieved of U.S. federal income tax on any income of the Fund, including long-term capital gains, distributed to shareholders. However, any ordinary income or capital gain retained by the Fund will be subject to U.S. federal income tax at regular corporate federal income tax rates (currently at a maximum rate of 21%). The Fund intends to distribute at least annually substantially all of its investment company taxable income, net tax-exempt interest, and net capital gain.

The Fund will generally be subject to a nondeductible 4% federal excise tax on the portion of its undistributed ordinary income with respect to each calendar year and undistributed capital gains if it fails to meet certain distribution requirements with respect to the one-year period ending on October 31 in that calendar year. To avoid the 4% federal excise tax, the required minimum distribution is generally equal to the sum of (i) 98% of the Fund's ordinary income (computed on a calendar year basis), (ii) 98.2% of the Fund's capital gain net income (generally computed for the one-year period ending on October 31) and (iii) any income realized, but not distributed, and on which we paid no federal income tax in preceding years. The Fund generally intends to make distributions in a timely manner in an amount at least equal to the required minimum distribution and therefore, under normal market conditions, does not expect to be subject to this excise tax.

The Fund may be required to recognize taxable income in circumstances in which it does not receive cash. For example, if the Fund holds debt obligations that are treated under applicable tax rules as having original issue discount (such as debt instruments with payment in kind interest or, in certain cases, with increasing interest rates or that are issued with warrants), the Fund must include in income each year a portion of the original issue discount that accrues over the life of the obligation regardless of whether cash representing such income is received by the Fund in the same taxable year. Because any original issue discount accrued will be included in the Fund's "investment company taxable income" (discussed above) for the year of accrual, the Fund may be required to make a distribution to its shareholders to satisfy the distribution requirement, even though it will not have received an amount of cash that corresponds with the income earned.

A RIC is permitted to carry forward net capital losses indefinitely and may allow losses to retain their original character (as short or as long-term). These capital loss carryforwards may be utilized in future years to offset net realized capital gains of the Fund, if any, prior to distributing such gains to shareholders.

Except as set forth in "Failure to Qualify as a RIC," the remainder of this discussion assumes that the Fund will qualify as a RIC for each taxable year.

Failure to Qualify as a RIC. If the Fund is unable to satisfy the 90% distribution requirement or otherwise fails to qualify as a RIC in any year, it will be subject to corporate level income tax on all of its income and gain, regardless of whether or not such income was distributed. Distributions to the Fund's shareholders of such income and gain will not be deductible by the Fund in computing its taxable income. In such event, the Fund's distributions, to the extent derived from the Fund's current or accumulated earnings and profits, would constitute ordinary dividends, which would generally be eligible for the dividends received deduction available to corporate shareholders, and non-corporate shareholders would generally be able to treat such distributions as "qualified dividend income" eligible for reduced rates of U.S. federal income taxation provided in each case that certain holding period and other requirements are satisfied.

Distributions in excess of the Fund's current and accumulated earnings and profits would be treated first as a return of capital to the extent of the shareholders' tax basis in their Fund shares, and any remaining distributions would be treated as a capital gain. To qualify as a RIC in a subsequent taxable year, the Fund would be required to satisfy the source-of-income, the asset diversification, and the annual distribution requirements for that year and dispose of any earnings and profits from any year in which the Fund failed to qualify for tax treatment as a RIC. Subject to a limited exception applicable to RICs that qualified as such under the Internal Revenue Code for at least one year prior to disqualification and that requalify as a RIC no later than the second year following the nonqualifying year, the Fund would be subject to tax on any unrealized built-in gains in the assets held by it during the period in which the Fund failed to qualify for tax treatment as a RIC that are recognized within the subsequent 10 years, unless the Fund made a special election to pay corporate-level tax on such built-in gain at the time of its requalification as a RIC.

Taxation for U.S. Shareholders. Distributions paid to U.S. shareholders by the Fund from its investment company taxable income (which is, generally, the Fund's ordinary income plus net realized short-term capital gains in excess of net realized long-term capital losses) are generally taxable to U.S. shareholders as ordinary income to the extent of the Fund's earnings and profits, whether paid in cash or reinvested in additional shares. Such distributions (if designated by the Fund) may qualify (i) for the dividends received deduction in the case of corporate shareholders under Section 243 of the Internal Revenue Code to the extent that the Fund's income consists of dividend income from U.S. corporations, excluding distributions from tax-exempt organizations, exempt farmers' cooperatives or real estate investment trusts or (ii) in the case of individual shareholders, as qualified dividend income eligible to be taxed at reduced rates under Section 1(h)(11) of the Internal Revenue Code (which provides for a maximum 20% rate) to the extent that the Fund receives qualified dividend income, and provided in each case certain holding period and other requirements are met. Qualified dividend income is, in general, dividend income from taxable domestic corporations and qualified foreign corporations (e.g., generally, foreign corporations incorporated in a possession of the United States or in certain countries with a qualified comprehensive income tax treaty with the United States, or the stock with respect to which such dividend is paid is readily tradable on an established securities market in the United States). A qualified foreign corporation generally excludes any foreign corporation, which for the taxable year of the corporation in which the dividend was paid, or the preceding taxable year, is a passive foreign investment company. Distributions made to a U.S. shareholder from an excess of net long-term capital gains over net short-term capital losses ("capital gain dividends"), including capital gain dividends credited to such shareholder but retained by the Fund, are taxable to such shareholder as long-term capital gain if they have been properly designated by the Fund, regardless of the length of time such shareholder owned the shares of the Fund. The maximum tax rate on capital gain dividends received by individuals is generally 20%. Distributions in excess of the Fund's earnings and profits will be treated by the U.S. shareholder, first, as a tax-free return of capital, which is applied against and will reduce the adjusted tax basis of the U.S. shareholder's shares and, after such adjusted tax basis is reduced to zero, will constitute capital gain to the U.S. shareholder (assuming the shares are held as a capital asset). The Fund is not required to provide written notice designating the amount of any qualified dividend income or capital gain dividends and other distributions. The Forms 1099 will instead serve this notice purpose.

As a RIC, the Fund will be subject to the AMT, but any items that are treated differently for AMT purposes must be apportioned between the Fund and the shareholders and this may affect the shareholders' AMT liabilities. The Fund intends in general to apportion these items in the same proportion that dividends paid to each shareholder bear to the Fund's taxable income (determined without regard to the dividends paid deduction).

For purpose of determining (i) whether the annual distribution requirement is satisfied for any year and (ii) the amount of capital gain dividends paid for that year, the Fund may, under certain circumstances, elect to treat a dividend that is paid during the following taxable year as if it had been paid during the taxable year in question. If the Fund makes such an election, the U.S. shareholder will still be treated as receiving the dividend in the taxable year in which the distribution is made. However, any dividend declared by the Fund in October, November or December of any calendar year, payable to shareholders of record on a specified date in such a month and actually paid during January of the following year, will be treated as if it had been received by the U.S. shareholders on December 31 of the year in which the dividend was declared.

The Fund intends to distribute all realized capital gains, if any, at least annually. If, however, the Fund were to retain any net capital gain, the Fund may designate the retained amount as undistributed capital gains in a notice to shareholders who, if subject to U.S. federal income tax on long-term capital gains, (i) will be required to include in income as long-term capital gain, their proportionate shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the federal income tax paid by the Fund on the undistributed amount against their U.S. federal income tax liabilities, if any, and to

claim refunds to the extent the credit exceeds such liabilities. If such an event occurs, the tax basis of shares owned by a shareholder of the Fund will, for U.S. federal income tax purposes, generally be increased by the difference between the amount of undistributed net capital gain included in the shareholder's gross income and the tax deemed paid by the shareholders.

Sales and other dispositions of the shares of the Fund generally are taxable events. U.S. shareholders should consult their own tax adviser with reference to their individual circumstances to determine whether any particular transaction in the shares of the Fund is properly treated as a sale or exchange for federal income tax purposes, as the following discussion assumes, and the tax treatment of any gains or losses recognized in such transactions. The sale or other disposition of shares of the Fund will generally result in capital gain or loss to the shareholder equal to the difference between the amount realized and his adjusted tax basis in the shares sold or exchanged, and will be long-term capital gain or loss if the shares have been held for more than one year at the time of sale. Any loss upon the sale or exchange of shares held for six months or less will be treated as long-term capital loss to the extent of any capital gain dividends received (including amounts credited as an undistributed capital gain dividend) by such shareholder with respect to such shares. A loss realized on a sale or exchange of shares of the Fund generally will be disallowed if other substantially identical shares are acquired within a 61-day period beginning 30 days before and ending 30 days after the date that the shares are disposed. In such case, the basis of the shares acquired will be adjusted to reflect the disallowed loss. Present law taxes both long-term and short-term capital gain of corporations at the rates applicable to ordinary income of corporations. For non-corporate taxpayers, short-term capital gain will currently be taxed at the rate applicable to ordinary income, while long-term capital gain generally will be taxed at a maximum rate of 20%. Capital losses are subject to certain limitations.

Federal law requires that mutual fund companies report their shareholders' cost basis, gain/loss, and holding period to the Internal Revenue Service on the Fund's shareholders' Consolidated Form 1099s.

The Fund has chosen average cost as the standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders. The Fund's standing tax lot identification method is the method covered shares will be reported on your Consolidated Form 1099 if you do not select a specific tax lot identification method. You may choose a method different than the Fund's standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

For those securities defined as "covered" under current Internal Revenue Service cost basis tax reporting regulations, the Fund is responsible for maintaining accurate cost basis and tax lot information for tax reporting purposes. The Fund is not responsible for the reliability or accuracy of the information for those securities that are not "covered." The Fund and its service providers do not provide tax advice. You should consult independent sources, which may include a tax professional, with respect to any decisions you may make with respect to choosing a tax lot identification method.

Certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their "net investment income," which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Original Issue Discount, Pay-In-Kind Securities, Market Discount and Commodity-Linked Notes. Some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund may be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in the Fund’s taxable income (and required to be distributed by the Fund) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security.

Some debt obligations (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by the Fund in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligations issued with OID, its “revised issue price”) over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, the Fund may elect to accrue market discount currently, in which case the Fund will be required to include the accrued market discount in the Fund’s income (as ordinary income) and thus distribute it over the term of the debt security, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The rate at which the market discount accrues, and thus is included in the Fund’s income, will depend upon which of the permitted accrual methods the Fund elects. In the case of higher-risk securities, the amount of market discount may be unclear. See “Higher-Risk Securities.”

Some debt obligations (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Fund may be treated as having “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price), or OID in the case of certain types of debt obligations. The Fund will be required to include the acquisition discount, or OID, in income (as ordinary income) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt security. The Fund may make one or more of the elections applicable to debt obligations having acquisition discount, or OID, which could affect the character and timing of recognition of income.

In addition, payment-in-kind securities will, and commodity-linked notes may, give rise to income that is required to be distributed and is taxable even though the Fund holding the security receives no interest payment in cash on the security during the year.

If the Fund holds the foregoing kinds of securities, it may be required to pay out as an income distribution each year an amount that is greater than the total amount of cash interest the Fund actually received. Such distributions may be made from the cash assets of the Fund or by liquidation of portfolio securities, if necessary (including when it is not advantageous to do so). The Fund may realize gains or losses from such liquidations. In the event the Fund realizes net capital gains from such transactions, its shareholders may receive a larger capital gain distribution than they would in the absence of such transactions.

Higher-Risk Securities. To the extent such investments are permissible for the Fund, the Fund may invest in debt obligations that are in the lowest rating categories or are unrated, including debt obligations of issuers not currently paying interest or who are in default. Investments in debt obligations that are at risk of or in default present special tax issues for the Fund. Tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless securities and how payments received on obligations in default should be allocated between principal and income. In limited circumstances, it may also not be clear whether the Fund should recognize market discount on a debt obligation, and if so, what amount of market

discount the Fund should recognize. These and other related issues will be addressed by the Fund when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its status as a regulated investment company and does not become subject to U.S. federal income or excise tax.

Issuer Deductibility of Interest. A portion of the interest paid or accrued on certain high yield discount obligations owned by the Fund may not be deductible to (and thus, may affect the cash flow of) the issuer. If a portion of the interest paid or accrued on certain high yield discount obligations is not deductible, that portion will be treated as a dividend for purposes of the corporate dividends-received deduction. In such cases, if the issuer of the high yield discount obligations is a domestic corporation, dividend payments by the Fund may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such accrued interest.

Interest paid on debt obligations owned by the Fund, if any, that are considered for U.S. tax purposes to be payable in the equity of the issuer or a related party will not be deductible to the issuer, possibly affecting the cash flow of the issuer.

Tax-Exempt Shareholders. A tax-exempt shareholder could recognize UBTI by virtue of its investment in the Fund if shares in the Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Internal Revenue Code Section 514(b). Furthermore, a tax-exempt shareholder may recognize UBTI if the Fund recognizes “excess inclusion income” derived from direct or indirect investments in residual interests in REMICs or equity interests in TMPs if the amount of such income recognized by the Fund exceeds the Fund’s investment company taxable income (after taking into account deductions for dividends paid by the Fund).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in regulated investment companies that invest directly or indirectly in residual interests in REMICs or equity interests in TMPs. Under legislation enacted in December 2006, a CRT (as defined in section 664 of the Internal Revenue Code) that realizes any UBTI for a taxable year, must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI solely as a result of investing in the Fund that recognizes “excess inclusion income.” Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in the Fund that recognizes “excess inclusion income,” then the regulated investment company will be subject to a tax on that portion of its “excess inclusion income” for the taxable year that is allocable to such shareholders, at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, the Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Fund. The Fund has not yet determined whether such an election will be made. CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Fund.

Passive Foreign Investment Companies. A passive foreign investment company (“PFIC”) is any foreign corporation: (i) 75% or more of the gross income of which for the taxable year is passive income, or (ii) the average percentage of the assets of which (generally by value, but by adjusted tax basis in certain cases) that produce or are held for the production of passive income is at least 50%. Generally, passive income for this purpose means dividends, interest (including income equivalent to interest), royalties, rents, annuities, the excess of gains over losses from certain property transactions and commodities transactions, and foreign currency gains. Passive income for this purpose does not include rents and royalties received by the foreign corporation from active business and certain income received from related persons.

Equity investments by the Fund in certain PFICs could potentially subject the Fund to a U.S. federal income tax or other charge (including interest charges) on the distributions received from the PFIC or on proceeds received from the disposition of shares in the PFIC. This tax cannot be eliminated by making distributions to Fund shareholders. However, the Fund may elect to avoid the imposition of that tax. For example, if the Fund is in a position to and elects to treat a PFIC as a “qualified electing fund” (i.e., make a “QEF election”), the Fund will be required to include its share of the PFIC’s income and net capital gains annually, regardless of whether it receives any distribution from the PFIC. Alternatively, the Fund may make an election to mark the gains (and to a limited extent losses) in its PFIC holdings “to the market” as though it had sold and repurchased its holdings in those PFICs on the last day of the Fund’s taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by the Fund to avoid taxation. Making either of these elections therefore may require the Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Fund’s total return. Dividends paid by PFICs will not be eligible to be treated as “qualified dividend income.”

Because it is not always possible to identify a foreign corporation as a PFIC, the Fund may incur the tax and interest charges described above in some instances.

Foreign Currency Transactions. The Fund’s transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. Any such net gains could require a larger dividend toward the end of the calendar year. Any such net losses will generally reduce and potentially require the recharacterization of prior ordinary income distributions. Such ordinary income treatment may accelerate Fund distributions to shareholders and increase the distributions taxed to shareholders as ordinary income. Any net ordinary losses so created cannot be carried forward by the Fund to offset income or gains earned in subsequent taxable years.

Master Limited Partnerships. To qualify for master limited partner (“MLP”) status, a partnership must generate at least 90% of its income from what the IRS deems “qualifying” sources, which include all manner of activities related to the production, processing or transportation of oil, natural gas and coal. MLPs, as partnerships, pay no corporate tax, and the IRS deems much of the distributions paid out as a return of capital, and taxes on such distributions are deferred until the Fund sells its position therein. As partnerships, MLPs pass through the majority of their income to investors in the form of regular quarterly distributions. You as owner of the Fund are responsible for paying tax on your share of distributions received. In addition, the regular quarterly cash payments MLPs pay out are known as distributions rather than dividends. With respect to each MLP in which the Fund invests, MLP investors, and therefore you as owner of the Fund, may be subject to the state tax of each state in which the MLP has operations or does business. If a MLP is held in a tax-sheltered account, such as an IRA, the portion of the distributions designated as “ordinary income” may be considered unrelated business taxable income (“UBTI”), and subject to tax. However, UBTI is usually a small percentage of total distributions and it will not be taxed as long as the amount of this income and all other sources of UBTI does not exceed \$1,000 in any year.

Foreign Taxation. Income received by the Fund from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax conventions between certain countries and the U.S. may reduce or eliminate such taxes.

The ETFs in which the Fund invests may invest in foreign securities. Dividends and interest received by an ETF's holding of foreign securities may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes. If the ETF in which the Fund invests is taxable as a RIC and meets certain other requirements, which include a requirement that more than 50% of the value of such ETF's total assets at the close of its respective taxable year consists of stocks or securities of foreign corporations, then the ETF should be eligible to file an election with the IRS that may enable its shareholders, including the Fund in effect, to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid the by Fund, subject to certain limitations.

A "qualified fund of funds" is a RIC that has at least 50% of the value of its total interests invested in other RICs at the end of each quarter of the taxable year. If the Fund satisfied this requirement or if it meets certain other requirements, which include a requirement that more than 50% of the value of the Fund's total assets at the close of its taxable year consist of stocks or securities of foreign corporations, then the Fund should be eligible to file an election with the IRS that may enable its shareholders to receive either the benefit of a foreign tax credit, or a tax deduction, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations.

Foreign Shareholders. Capital Gain Dividends are generally not subject to withholding of U.S. federal income tax. Absent a specific statutory exemption, dividends other than Capital Gain Dividends paid by the Fund to a shareholder that is not a "U.S. person" within the meaning of the Internal Revenue Code (such shareholder, a "foreign shareholder") are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

A regulated investment company is not required to withhold any amounts (i) with respect to distributions (other than distributions to a foreign person (a) that does not provide a satisfactory statement that the beneficial owner is not a U.S. person, (b) to the extent that the dividend is attributable to certain interest on an obligation if the foreign person is the issuer or is a 10% shareholder of the issuer, (c) that is within a foreign country that has inadequate information exchange with the United States, or (d) to the extent the dividend is attributable to interest paid by a person that is a related person of the foreign person and the foreign person is a controlled foreign corporation) from U.S.-source interest income of types similar to those not subject to U.S. federal income tax if earned directly by an individual foreign person, to the extent such distributions are properly reported as such by the Fund in a written notice to shareholders ("interest-related dividends"), and (ii) with respect to distributions (other than (a) distributions to an individual foreign person who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (b) distributions subject to special rules regarding the disposition of U.S. real property interests as described below) of net short-term capital gains in excess of net long-term capital losses to the extent such distributions are properly reported by the regulated investment company ("short-term capital gain dividends"). If the Fund invests in an underlying fund that pays such distributions to the Fund, such distributions retain their character as not subject to withholding if properly reported when paid by the Fund to foreign persons.

The Fund is permitted to report such part of its dividends as interest-related or short-term capital gain dividends as are eligible, but is not required to do so. These exemptions from withholding will not be available to foreign shareholders of the Fund that do not currently report their dividends as interest-related or short-term capital gain dividends.

In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports all or a portion of a payment as an interest-related or short-term capital gain dividend to shareholders. Foreign persons should contact their intermediaries regarding the application of these rules to their accounts.

Under U.S. federal tax law, a beneficial holder of shares who is a foreign shareholder generally is not subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of the Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States, (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of “U.S. real property interests” (“USRPIs”) apply to the foreign shareholder’s sale of shares of the Fund or to the Capital Gain Dividend the foreign shareholder received (as described below).

Special rules would apply if the Fund were either a “U.S. real property holding corporation” (“USRPHC”) or would be a USRPHC but for the operation of certain exceptions to the definition thereof. Very generally, a USRPHC is a domestic corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation’s USRPIs, interests in real property located outside the United States, and other assets. USRPIs are generally defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or former USRPHC.

If the Fund were a USRPHC or would be a USRPHC but for the exceptions referred to above, any distributions by the Fund to a foreign shareholder (including, in certain cases, distributions made by the Fund in redemption of its shares) attributable to gains realized by the Fund on the disposition of USRPIs or to distributions received by the Fund from a lower-tier regulated investment company or REIT that the Fund is required to treat as USRPI gain in its hands generally would be subject to U.S. tax withholding. In addition, such distributions could result in the foreign shareholder being required to file a U.S. tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a foreign shareholder, including the rate of such withholding and character of such distributions (*e.g.*, as ordinary income or USRPI gain), would vary depending upon the extent of the foreign shareholder’s current and past ownership of the Fund. On and after January 1, 2012, this “look-through” USRPI treatment for distributions by the Fund, if it were either a USRPHC or would be a USRPHC but for the operation of the exceptions referred to above, to foreign shareholders applies only to those distributions that, in turn, are attributable to distributions received by the Fund from a lower-tier REIT, unless Congress enacts legislation providing otherwise.

In addition, if the Fund were a USRPHC or former USRPHC, it could be required to withhold U.S. tax on the proceeds of a share redemption by a greater-than-5% foreign shareholder, in which case such foreign shareholder generally would also be required to file U.S. tax returns and pay any additional taxes due in connection with the redemption.

Whether or not the Fund is characterized as a USRPHC will depend upon the nature and mix of the Fund’s assets. The Fund does not expect to be a USRPHC. Foreign shareholders should consult their tax advisors concerning the application of these rules to their investment in the Fund.

If a beneficial holder of Fund shares who is a foreign shareholder has a trade or business in the United States, and the dividends are effectively connected with the beneficial holder’s conduct of that trade or business, the dividend will be subject to U.S. federal net income taxation at regular income tax rates.

If a beneficial holder of Fund shares who is a foreign shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by that beneficial holder in the United States.

To qualify for any exemptions from withholding described above or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a foreign shareholder must comply with special certification and filing requirements relating to its non-US status (including, in general, furnishing an IRS Form W-8BEN or substitute form). Foreign shareholders in the Fund should consult their tax advisers in this regard.

A beneficial holder of Fund shares who is a foreign shareholder may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal tax on income referred to above.

Backup Withholding. The Fund generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the Fund with a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify to the Fund that he or she is not subject to such withholding. The backup withholding tax rate is currently 24%.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss with respect to the Fund's shares of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a regulated investment company are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all regulated investment companies. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Shareholder Reporting Obligations With Respect to Foreign Financial Assets. Certain individuals (and, if provided in future guidance, certain domestic entities) must disclose annually their interests in "specified foreign financial assets" on IRS Form 8938, which must be attached to their U.S. federal income tax returns for taxable years beginning after March 18, 2010. The IRS has not yet released a copy of the Form 8938 and has suspended the requirement to attach Form 8938 for any taxable year for which an income tax return is filed before the release of Form 8938. Following Form 8938's release, individuals will be required to attach to their next income tax return required to be filed with the IRS a Form 8938 for each taxable year for which the filing of Form 8938 was suspended. Until the IRS provides more details regarding this reporting requirement, including in Form 8938 itself and related Treasury regulations, it remains unclear under what circumstances, if any, a shareholder's (indirect) interest in the Fund's "specified foreign financial assets," if any, will be required to be reported on this Form 8938.

Other Reporting and Withholding Requirements. Rules enacted in March 2010 require the reporting to the IRS of direct and indirect ownership of foreign financial accounts and foreign entities by U.S. persons. Failure to provide this required information can result in a 30% withholding tax on certain payments ("withholdable payments") made after December 31, 2013. Specifically, withholdable payments subject to this 30% withholding tax include payments of U.S.-source dividends and interest made on or after

January 1, 2014, and payments of gross proceeds from the sale or other disposal of property that can produce U.S.-source dividends or interest made on or after January 1, 2015.

The IRS has issued only very preliminary guidance with respect to these new rules; their scope remains unclear and potentially subject to material change. Very generally, it is possible that distributions made by the Fund after the dates noted above (or such later dates as may be provided in future guidance) to a shareholder, including a distribution in redemption of shares and a distribution of income or gains otherwise exempt from withholding under the rules applicable to non-U.S. shareholders described above (e.g., Capital Gain Dividends, Short-Term Capital Gain Dividends and interest-related dividends, as described above) will be subject to the new 30% withholding requirement. Payments to a foreign shareholder that is a “foreign financial institution” will generally be subject to withholding, unless such shareholder enters into a timely agreement with the IRS. Payments to shareholders that are U.S. persons or foreign individuals will generally not be subject to withholding, so long as such shareholders provide the Fund with such certifications or other documentation, including, to the extent required, with regard to such shareholders’ direct and indirect owners, as the Fund requires to comply with the new rules. Persons investing in the Fund through an intermediary should contact their intermediary regarding the application of the new reporting and withholding regime to their investments in the Fund.

Shareholders are urged to consult a tax advisor regarding this new reporting and withholding regime, in light of their particular circumstances.

Shares Purchased through Tax-Qualified Plans. Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Fund as an investment through such plans, and the precise effect of an investment on their particular tax situation.

FATCA. Payments to a shareholder that is either a foreign financial institution (“FFI”) or a non-financial foreign entity (“NFFE”) within the meaning of the Foreign Account Tax Compliance Act (“FATCA”) may be subject to a generally nonrefundable 30% withholding tax on: (a) income dividends paid by the Fund and (b) certain capital gain distributions and the proceeds arising from the sale of Fund shares paid by the Fund. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it enters into a valid agreement with the IRS to, among other requirements, report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. The Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of the Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Possible Tax Law Changes. At the time that this SAI is being prepared, various administrative and legislative changes to the federal tax laws are under consideration, but it is not possible at this time to determine whether any of these changes will take place or what the changes might entail.

The foregoing is a general and abbreviated summary of the provisions of the Internal Revenue Code and the Treasury regulations in effect as they directly govern the taxation of the Fund and its shareholders. These provisions are subject to change by legislative and administrative action, and any such change may be retroactive. Shareholders are urged to consult their tax advisers regarding specific questions as to U.S. federal income, estate or gift taxes, or foreign, state, local taxes or other taxes.

PRICING AND PURCHASE OF FUND SHARES

General Policy. The Fund adheres to Section 2(a)(41), and Rule 2a-4 thereunder, of the 1940 Act with respect to the valuation of portfolio securities. In general, securities for which market quotations are readily available are valued at current market value, and all other securities are valued at fair value as determined in good faith by the Board. In complying with the 1940 Act, the Trust relies on guidance provided by the SEC and by the SEC staff in various interpretive letters and other guidance.

Equity Securities. Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on NASDAQ), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on valuation date (or at approximately 4:00 p.m. ET if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. If such prices are not available or determined to not represent the fair value of the security as of the Fund's pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Trust's Board of Trustees.

Money Market Securities and other Debt Securities. If available, money market securities and other debt securities are priced based upon valuations provided by recognized independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings and developments relating to specific securities in arriving at valuations. Money market securities and other debt securities with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. If such prices are not available or determined to not represent the fair value of the security as of the Fund's pricing time, the security will be valued at fair value as determined in good faith using methods approved by the Trust's Board of Trustees.

Use of Third-Party Independent Pricing Agents. Pursuant to contracts with the Administrator, market prices for most securities held by the Fund are provided daily by third-party independent pricing agents that are approved by the Board of Trustees of the Trust. The valuations provided by third-party independent pricing agents are reviewed daily by the Administrator.

Purchasing Shares. You may purchase shares of the Fund directly from the Distributor. You may also buy shares through accounts with brokers and other institutions ("authorized institutions") that are authorized to place trades in Fund shares for their customers. If you invest through an authorized institution, you will have to follow its procedures. Your institution may charge a fee for its services, in addition to the fees charged by the Fund. You will also generally have to address your correspondence or questions regarding the Fund to your authorized institution. The offering price per share is equal to the NAV next determined after the Fund or authorized institution receives your purchase order, plus any applicable sales charge.

Your authorized institution is responsible for transmitting all subscription and redemption requests, investment information, documentation and money to the Fund on time. Certain authorized institutions have agreements with the Fund that allow them to enter confirmed purchase or redemption orders on behalf of clients and customers. Under this arrangement, the authorized institution must send your payment to the Fund by the time it prices its shares on the following day. If your authorized institution fails to do so, it may be responsible for any resulting fees or losses.

The Fund reserves the right to reject any purchase order and to suspend the offering of shares. Under certain circumstances the Trust or the Adviser may waive the minimum initial investment for purchases by officers, trustees, and employees of the Trust and its affiliated entities and for certain related advisory accounts and retirement accounts (such as IRAs). The Fund may also change or waive policies concerning minimum investment amounts at any time.

Eligible Benefit Plans. An eligible benefit plan is an arrangement available to the employees of an employer (or two or more affiliated employers) having not less than 10 employees at the plan's inception, or such an employer on behalf of employees of a trust or plan for such employees, their spouses and their children under the age of 21 or a trust or plan for such employees, which provides for purchases through periodic payroll deductions or otherwise. There must be at least 5 initial participants with accounts investing or invested in Fund shares and/or certain other funds.

The initial purchase by the eligible benefit plan and prior purchases by or for the benefit of the initial participants of the plan must aggregate not less than \$2,500 and subsequent purchases must be at least \$50 per account and must aggregate at least \$250. Purchases by the eligible benefit plan must be made pursuant to a single order paid for by a single check or federal funds wire and may not be made more often than monthly. A separate account will be established for each employee, spouse or child for which purchases are made. The requirements for initiating or continuing purchases pursuant to an eligible benefit plan may be modified and the offering to such plans may be terminated at any time without prior notice.

Selling Shares. You may sell your shares by giving instructions to the Transfer Agent online, by mail or by telephone. The Fund will use reasonable procedures to confirm that instructions communicated by telephone are genuine and, if the procedures are followed, will not be liable for any losses due to unauthorized or fraudulent telephone transactions.

The Fund's procedure is to redeem shares at the NAV next determined after the Transfer Agent receives the redemption request in proper order, less any applicable deferred sales charge on purchases held for less than one year and for which no sales charge was paid at the time of purchase. Payment will be made promptly, but no later than the seventh day following the receipt of the redemption request in proper order. The Board may suspend the right of redemption or postpone the date of payment during any period when (a) trading on the New York Stock Exchange is restricted as determined by the SEC or such exchange is closed for other than weekends and holidays, (b) the SEC has by order permitted such suspension, or (c) an emergency, as defined by rules of the SEC, exists during which time the sale of Fund shares or valuation of securities held by the Fund are not reasonably practicable.

Purchases and Sales Through Broker Dealers. The Fund may be purchased through broker dealers and other intermediaries. The Fund may authorize one or more brokers to receive on its behalf purchase and redemption orders. Such brokers will be authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, received the order. Customer orders will be priced at the Fund's NAV next computed after they are received by an authorized broker or the broker's authorized designee.

REDEMPTIONS IN KIND

The Fund does not intend to redeem shares in any form except cash. However, if the redemption amount is over the lesser of \$250,000 or 1% of the Fund's net assets, pursuant to an election under Rule 18f-1 under the 1940 Act by the Trust on behalf of the Fund, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net assets in securities instead of cash. In the event that an in-kind distribution is made, a shareholder may incur additional expenses such as

the payment of brokerage commissions on the sale or other disposition of the securities received from the Fund.

ADDITIONAL SERVICE PROVIDERS

Custodian. Fifth Third Bank, N.A. (the "Custodian"), 38 Fountain Square Plaza, Cincinnati, Ohio 45263, serves as the custodian of the Fund's assets. The Custodian has entered into a foreign sub-custody arrangement with The Bank of New York, as the approved foreign custody manager (the Delegate) to perform certain functions with respect to the custody of the Fund's assets outside of the United States of America. The Delegate shall place and maintain the Fund's assets with an eligible foreign custodian; provided that, the Delegate shall be required to determine that the Fund's assets will be subject to reasonable care based on the standards applicable to custodians in the relevant market.

Administrator, Fund Accountant and Transfer Agent. Pursuant to a Fund Services Agreement, Commonwealth Fund Services, Inc. ("CFS" or the "Administrator") 8730 Stony Point Parkway, Suite 205, Richmond, Virginia 23235 serves as the Fund's administrator, transfer agent and accounting agent.

In its capacity as administrator, CFS supervises all aspects of the operations of the Fund except those performed by the Adviser. CFS will provide certain administrative services and facilities for the Fund, including preparing and maintaining certain books, records, and monitoring compliance with state and federal regulatory requirements. CFS, as administrative agent for the Fund, will provide shareholder, recordkeeping, administrative and blue-sky filing services.

As transfer agent, CFS provides certain shareholder and other services to the Fund, including furnishing account and transaction information and maintaining shareholder account records. CFS will be responsible for processing orders and payments for share purchases. CFS will mail proxy materials (and receive and tabulate proxies), shareholder reports, confirmation forms for purchases and redemptions and prospectuses to shareholders. CFS will disburse income dividends and capital distributions and prepare and file appropriate tax-related information concerning dividends and distributions to shareholders.

CFS also provides accounting services to the Fund. CFS will be responsible for accounting relating to the Fund and its investment transactions; maintaining certain books and records of the Fund; determining daily the NAV per share of the Fund; and preparing security position, transaction and cash position reports. CFS also monitors periodic distributions of gains or losses on portfolio sales and maintains a daily listing of portfolio holdings. CFS is responsible for providing expenses accrued and payment reporting services, tax-related financial information to the Trust, and for monitoring compliance with the regulatory requirements relating to maintaining accounting records.

CFS receives, for administrative services, an asset-based fee based computed daily and paid monthly on the average daily net assets of the Fund, subject to a minimum fee plus out-of-pocket expenses. CFS receives, for transfer agency services, per account fees computed daily and paid monthly, subject to a minimum fee plus out-of-pocket expenses. CFS receives, for fund accounting services, an asset-based fee, computed daily and paid monthly on the average daily net assets of the Fund, subject to a minimum fee plus out-of-pocket expenses.

Independent Registered Public Accounting Firm. The firm of BBD, LLP, located at 1835 Market Street, 3rd Floor, Philadelphia, Pennsylvania 19103, has been selected as independent registered public accounting firm for the Fund for the initial fiscal period ending March 31, 2022. The independent registered public accounting firm performs an annual audit of the Fund's financial statements and provides financial, tax and accounting consulting services as requested.

Legal Counsel. Practus, LLP, 11300 Tomahawk Creek Parkway, Suite 310, Leawood, KS 66211, serves as legal counsel for the Trust and Fund.

Distributor. Foreside Fund Services, LLC ("Foreside" or the "Distributor"), located at Three Canal Plaza, Suite 100, Portland, Maine 04101 serves as the principal underwriter and distributor for the shares of the Fund pursuant to a Distribution Agreement (the "Distribution Agreement"). The continuance of the Distribution Agreement must be specifically approved at least annually (i) by the vote of the Trustees or by a vote of the shareholders of the Fund and (ii) by the vote of a majority of the Trustees who are not "interested persons" of the Trust and have no direct or indirect financial interest in the operations of the Distribution Agreement or any related agreement, cast in person at a meeting called for the purpose of voting on such approval.

Under the Distribution Agreement, the Distributor serves as the Fund's principal underwriter and acts as exclusive agent for the Fund in selling its shares to the public on a "best efforts" basis and then only in respect to orders placed – that is, the Distributor is under no obligations to sell any specific number of shares.

Foreside is registered as a broker-dealer and is a member of the Financial Industry Regulatory Authority. The offering of the Fund's shares is continuous. The Distributor may receive Distribution 12b-1 and Service Fees from the Fund, as described in the applicable prospectus and this SAI. For its underwriting services, the Distributor may receive compensation from the Fund's Rule 12b-1 plans to the extent that such plans generate sufficient fees to compensate for these services; otherwise, the Adviser is responsible for payment of such underwriting services.

SHAREHOLDER SERVICES

As described briefly in the applicable prospectus, the Fund offers the following shareholder services:

Regular Account. The regular account allows for voluntary investments to be made at any time. Available to individuals, custodians, corporations, trusts, estates, corporate retirement plans and others, investors are free to make additions and withdrawals to or from their account as often as they wish. Simply use the account application provided at the Fund's website to open your account.

Telephone Transactions. A shareholder may redeem shares or transfer into another fund by telephone if this service is requested at the time the shareholder completes the initial account application. If it is not elected at that time, it may be elected at a later date by making a request in writing to the Transfer Agent and having the signature on the request guaranteed. The Fund employs reasonable procedures designed to confirm the authenticity of instructions communicated by telephone and, if it does not, it may be liable for any losses due to unauthorized or fraudulent transactions. As a result of this policy, a shareholder authorizing telephone redemption or transfer bears the risk of loss which may result from unauthorized or fraudulent transactions which the Fund believes to be genuine. When requesting a telephone redemption or transfer, the shareholder will be asked to respond to certain questions designed to confirm the shareholder's identity as the shareholder of record. Cooperation with these procedures helps to protect the account and the Fund from unauthorized transactions.

Automatic Investment Plan. Any shareholder may utilize this feature, which provides for automatic monthly investments into your account. Upon your request, the Transfer Agent will withdraw a fixed amount each month from a checking or savings account for investment into the Fund. This does not require a commitment for a fixed period of time. A shareholder may change the monthly investment, skip a month or discontinue the Automatic Investment Plan as desired by notifying the Transfer Agent toll-free at 1-800-628-4077.

Retirement Plans. Fund shares are available for purchase in connection with the following tax-deferred prototype retirement plans:

- *Traditional IRA.* An individual retirement account. Your contribution may or may not be deductible depending on your circumstances. Assets can grow tax-deferred and distributions are taxable as income.
- *Roth IRA.* An IRA with non-deductible contributions, tax-free growth of assets, and tax-free distributions for qualified distributions.
- *Spousal IRA.* An IRA funded by a working spouse in the name of a non-earning spouse.
- *SEP-IRA.* An individual retirement account funded by employer contributions. Your assets grow tax-deferred and distributions are taxable as income.
- *Keogh or Profit Sharing Plans.* These plans allow corporations, partnerships and individuals who are self-employed to make tax-deductible contributions of up to \$35,000 for each person covered by the plans.
- *403(b) Plans.* An arrangement that allows employers of charitable or educational organizations to make voluntary salary reduction contributions to a tax-deferred account.
- *401(k) Plans.* Allows employees of corporations of all sizes to contribute a percentage of their wages on a tax-deferred basis. These accounts need to be established by the trustee of the plan.

For information about eligibility requirements and other matters concerning these plans and to obtain the necessary forms to participate in these plans, please call the Trust toll-free at 1-800-673-0550. Each plan's custodian charges nominal fees in connection with plan establishment and maintenance. These fees are detailed in the plan documents. You may wish to consult with your attorney or other tax adviser for specific advice concerning your tax status and plans.

Exchange Privilege. To the extent that the Adviser manages other funds in the Trust, shareholders may exchange their shares for shares of any other series of the Trust managed by the Adviser, provided the shares of the Fund the shareholder is exchanging into are registered for sale in the shareholder's state of residence. As of the date of this prospectus, the Adviser does not manage any other funds in the Trust. Each account must meet the minimum investment requirements. Also, to make an exchange, an exchange order must comply with the requirements for a redemption or repurchase order and must specify the value or the number of shares to be exchanged. Your exchange will take effect as of the next determination of the Fund's NAV per share (usually at the close of business on the same day). The Trust reserves the right to limit the number of exchanges or to otherwise prohibit or restrict shareholders from making exchanges at any time, without notice, should the Trust determine that it would be in the best interest of its shareholders to do so. For tax purposes, an exchange constitutes the sale of the shares of the fund from which you are exchanging and the purchase of shares of the fund into which you are exchanging. Consequently, the sale may involve either a capital gain or loss to the shareholder for federal income tax purposes. The exchange privilege is available only in states where it is legally permissible to do so.

DISCLOSURE OF PORTFOLIO SECURITY HOLDINGS

This Disclosure of Portfolio Securities Holdings Policy (the "Policy") shall govern the disclosure of the portfolio securities holdings of each series the Trust. The Trust maintains this Policy to ensure that disclosure of information about portfolio securities is in the best interests of the Fund and the Fund's shareholders. The Board reviews these policies and procedures as necessary and compliance will be periodically assessed by the Board in connection with a report from the Trust's Chief Compliance Officer. In addition, the Board has reviewed and approved the provision of portfolio holdings information to entities described below that may be prior to and more frequently than the public disclosure of such information

(i.e., “non-standard disclosure”). The Board has also delegated authority to the officers of the Trust and Adviser to provide such information in certain circumstances (see below).

The Trust is required by the SEC to publicly file its complete portfolio holdings schedule with the SEC on a quarterly basis. This schedule is filed with the Trust’s annual and semi-annual reports on Form N-CSR for the second and fourth fiscal quarters and on Form N-PORT for the first and third fiscal quarters. Certain portfolio information is also included on Form N-PORT that is filed for the second and fourth fiscal quarters. The portfolio holdings information provided in these reports is as of the end of the respective quarter. Form N-CSR must be filed with the SEC no later than ten (10) calendar days after the Trust transmits its annual or semi-annual report to its shareholders. Form N-PORT must be filed with the SEC and must be made publicly available no later than sixty (60) calendar days after the end of the applicable quarter.

Additionally, the Trust’s service providers which have contracted to provide services to the Trust and its funds, including, for example, the custodian, the fund accountants and other service providers assisting with materials utilized in the Board’s 15c processes that require portfolio holdings information in order to perform those services, may receive non-standard disclosure. Non-standard disclosure of portfolio holdings information may also be provided to a third-party when the Trust has a legitimate business purpose for doing so. The Trust has the following ongoing arrangements with certain third parties to provide the Fund’s portfolio holdings information:

1. to the Trust’s auditors within sixty (60) days after the applicable fiscal period or other periods as necessary for use in providing audit opinions and other advice related to financial, regulatory, or tax reporting;
2. to financial printers within sixty (60) days after the applicable fiscal period for the purpose of preparing Trust regulatory filings; and
3. to the Trust’s administrator, custodian, transfer agent and accounting services provider on a daily basis in connection with their providing services to the Fund.

The Trust’s service providers may also disclose non-public portfolio holdings information if such disclosure is required by applicable laws, rules or regulations, or by regulatory authorities. Additionally, the Adviser may establish ongoing arrangements with certain third parties to provide the Fund’s portfolio holdings information that the Adviser determines that the Fund has a legitimate business purpose for doing so and the recipient is subject to a duty of confidentiality. These third parties may include:

1. financial data processing companies that provide automated data scanning and monitoring services for the Fund;
2. research companies that allow the Adviser to perform attribution analysis for the Fund; and
3. the Adviser’s proxy voting agent to assess and vote proxies on behalf of the Fund.

From time to time, employees of the Adviser may express their views orally or in writing on the Fund’s portfolio securities or may state that the Fund has recently purchased or sold, or continues to own, one or more securities. The securities subject to these views and statements may be ones that were purchased or sold since the Fund’s most recent quarter-end and therefore may not be reflected on the list of the Fund’s most recent quarter-end portfolio holdings. These views and statements may be made to various persons, including members of the press, brokers and other financial intermediaries that sell shares of the Fund, shareholders in the Fund, persons considering investing in the Fund or representatives of such shareholders

or potential shareholders, such as fiduciaries of a 401(k) plan or a trust and their advisers, and other entities for which the Adviser may determine. The nature and content of the views and statements provided to each of these persons may differ. From time to time, employees of the Adviser also may provide oral or written information (“portfolio commentary”) about the Fund, including, but not limited to, how the Fund’s investments are divided among various sectors, industries, countries, investment styles and capitalization sizes, and among stocks, bonds, currencies and cash, security types, bond maturities, bond coupons and bond credit quality ratings. This portfolio commentary may also include information on how these various weightings and factors contributed to Fund performance. The Adviser may also provide oral or written information (“statistical information”) about various financial characteristics of the Fund or its underlying portfolio securities including, but not limited to, alpha, beta, R-squared, coefficient of determination, duration, maturity, information ratio, sharpe ratio, earnings growth, payout ratio, price/book value, projected earnings growth, return on equity, standard deviation, tracking error, weighted average quality, market capitalization, percent debt to equity, price to cash flow, dividend yield or growth, default rate, portfolio turnover, and risk and style characteristics. This portfolio commentary and statistical information about the Fund may be based on the Fund’s portfolio as of the most recent quarter-end or the end of some other interim period, such as month-end. The portfolio commentary and statistical information may be provided to various persons, including those described in the preceding paragraph. The nature and content of the information provided to each of these persons may differ.

Additionally, employees of the Adviser may disclose one or more of the portfolio securities of the Fund when purchasing and selling securities through broker-dealers, requesting bids on securities, obtaining price quotations on securities, or in connection with litigation involving the Fund’s portfolio securities. The Adviser does not enter into formal non-disclosure or confidentiality agreements in connection with these situations; however, the Fund would not continue to conduct business with a person who the Adviser believed was misusing the disclosed information.

The Adviser or its affiliates may manage products sponsored by companies other than itself, including investment companies, offshore funds, and separate accounts and affiliates of the Adviser may provide investment related services, including research services, to other companies, including other investment companies, offshore funds, institutional investors and other entities. In each of these instances, the sponsors of these other companies and the affiliates of the Adviser may receive compensation for their services. In many cases, these other products may be managed in a similar fashion to the Fund and thus have similar portfolio holdings, and the other investment related services provided by affiliates of the Adviser may involve disclosure of information that is also utilized by the Adviser in managing the Fund. The sponsors of these other products may disclose the portfolio holdings of their products at different times than the Adviser discloses portfolio holdings for the Fund, and affiliates of the Adviser may provide investment related services to its clients at times that are different than the times disclosed to the Fund.

The Trust and the Adviser currently have no other arrangements for the provision of non-standard disclosure to any party or shareholder. Other than the non-standard disclosure discussed above, if a third-party requests specific, current information regarding the Fund’s portfolio holdings, the Trust will refer the third-party to the latest regulatory filing.

All of the arrangements above are subject to the policies and procedures adopted by the Board to ensure such disclosure is for a legitimate business purpose and is in the best interests of the Trust and its shareholders. The Trust’s CCO is responsible for monitoring the use and disclosure of information relating to Fund portfolio securities. Although no material conflicts of interest are believed to exist that could disadvantage the Fund and its shareholders, various safeguards have been implemented to protect the Fund and its shareholders from conflicts of interest, including: the adoption of Codes of Ethics pursuant to Rule 17j-1 under the 1940 Act designed to prevent fraudulent, deceptive or manipulative acts by officers and employees of the Trust, the Adviser and the Distributor in connection with their personal securities

transactions; the adoption by the Adviser and Distributor of insider trading policies and procedures designed to prevent their employees' misuse of material non-public information; and the adoption by the Trust of a Code of Ethics for Officers that requires the Chief Executive Officer and Chief Financial Officer of the Trust to report to the Board any affiliations or other relationships that could potentially create a conflict of interest with the Fund. There may be instances where the interests of the Trust's shareholders respecting the disclosure of information about portfolio holdings may conflict or appear to conflict with the interests of the Adviser, the Distributor, or an affiliated person of the Trust, the Adviser or the Distributor. In such situations, the conflict must be disclosed to the Board and the Board will attempt to resolve the situation in a manner that it deems in the best interests of the Fund.

Affiliated persons of the Trust who receive non-standard disclosure are subject to restrictions and limitations on the use and handling of such information, including requirements to maintain the confidentiality of such information, pre-clear securities trades and report securities transactions activity, as applicable. Except as provided above, affiliated persons of the Trust and third-party service providers of the Trust receiving such non-standard disclosure will be instructed that such information must be kept confidential and that no trading on such information should be allowed.

Neither the Trust, the Fund, nor the Adviser receives compensation or other consideration in connection with the non-standard disclosure of information about portfolio securities.

PROXY VOTING POLICIES AND PROCEDURES

The Trust is required to disclose information concerning the Fund's proxy voting policies and procedures to shareholders. The Board has delegated to the Adviser the responsibility for decisions regarding proxy voting for securities held by the Fund. The Proxy Voting Policies and Procedures of the Trust are included as Exhibit A. The Adviser will vote such proxies in accordance with its proxy policies and procedures, which have been reviewed by the Board, and which are found in Exhibit B. Any material changes to the proxy policies and procedures will be submitted to the Board for approval. Information regarding how the Fund voted proxies relating to portfolio securities for the most recent 12-month period ending June 30, will be available (1) without charge, upon request by calling toll-free (888) 411-1875; and (2) on the SEC's website at <http://www.sec.gov>.

FINANCIAL STATEMENTS

You can receive free copies of reports, request other information and discuss your questions about the Fund by contacting the Fund directly at:

Philotimo Focused Growth and Income Fund
8730 Stony Point Parkway, Suite 205
Richmond, Virginia 23235
Telephone: 1-800-673-0550
www.theworldfundstrust.com

The Fund's shareholder reports will be filed with the SEC. These reports will be available approximately 60 days after the completion of the relevant period end. Copies of these reports will be mailed to shareholders.

Exhibit A

World Funds Trust

Proxy Voting Policy and Procedures

The World Funds Trust (the “Trust”) is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (“1940 Act”). The Trust offers multiple series (each a “Fund” and, collectively, the “Funds”). Consistent with its fiduciary duties and pursuant to Rule 30b1-4 under the 1940 Act (the “Proxy Rule”), the Board of Trustees of the Trust (the “Board”) has adopted this proxy voting policy on behalf of the Trust (the “Policy”) to reflect its commitment to ensure that proxies are voted in a manner consistent with the best interests of the Funds’ shareholders.

Delegation of Proxy Voting Authority to Fund Adviser

The Board believes that the investment adviser, or the investment sub-adviser as appropriate, of each Fund (each an “Adviser”), as the entity that selects the individual securities that comprise its Fund’s portfolio, is the most knowledgeable and best-suited to make decisions on how to vote proxies of portfolio companies held by that Fund. The Trust shall therefore defer to, and rely on, the Adviser of each Fund to make decisions on how to cast proxy votes on behalf of such Fund.

The Trust hereby designates the Adviser of each Fund as the entity responsible for exercising proxy voting authority with regard to securities held in the Fund’s investment portfolio. Consistent with its duties under this Policy, each Adviser shall monitor and review corporate transactions of corporations in which the Fund has invested, obtain all information sufficient to allow an informed vote on all proxy solicitations, ensure that all proxy votes are cast in a timely fashion, and maintain all records required to be maintained by the Fund under the Proxy Rule and the 1940 Act. Each Adviser shall perform these duties in accordance with the Adviser’s proxy voting policy, a copy of which shall be presented to this Board for its review. Each Adviser shall promptly provide to the Board updates to its proxy voting policy as they are adopted and implemented.

Conflict of Interest Transactions

In some instances, an Adviser may be asked to cast a proxy vote that presents a conflict between the interests of a Fund’s shareholders and those of the Adviser or an affiliated person of the Adviser. In such case, the Adviser is instructed to abstain from making a voting decision and to forward all necessary proxy voting materials to the Trust to enable the Board to make a voting decision. When the Board is required to make a proxy voting decision, only the Trustees without a conflict of interest with regard to the security in question or the matter to be voted upon shall be permitted to participate in the decision of how the Fund’s vote will be cast. In the event that the Board is required to vote a proxy because an Adviser has a conflict of interest with respect to the proxy, the Board will vote such proxy in accordance with the Adviser’s proxy voting policy, to the extent consistent with the shareholders’ best interests, as determined by the Board in its discretion. The Board shall notify the Adviser of its final decision on the matter and the Adviser shall vote in accordance with the Board’s decision.

Availability of Proxy Voting Policy and Records Available to Fund Shareholders

If a Fund has a website, the Fund may post a copy of its Adviser's proxy voting policy and this Policy on such website. A copy of such policies and of each Fund's proxy voting record shall also be made available, without charge, upon request of any shareholder of the Fund, by calling the applicable Fund's toll-free telephone number as printed in the Fund's prospectus. The Trust's administrator shall reply to any Fund shareholder request within three business days of receipt of the request, by first-class mail or other means designed to ensure equally prompt delivery.

Each Adviser shall provide a complete voting record, as required by the Proxy Rule, for each series of the Trust for which it acts as adviser, to the Trust's administrator within 30 days following the end of each 12-month period ending June 30. The Trust's administrator will file a report based on such record on Form N-PX on an annual basis with the U. S. Securities and Exchange Commission no later than August 31st of each year.

Adopted: November 26, 2013

Amended: February 20, 2019

Exhibit B

KANEN WEALTH MANAGEMENT, LLC PROXY VOTING POLICY

PROXY VOTING, TENDER OFFERS, & CLASS ACTIONS

KWM has a fiduciary duty to make investment decisions that are in our clients' best interests. Proxy voting is a part of the process through which we support shareholders' rights and activism regarding company issues related to corporate strategy, board of directors, financial matters, operations, mergers and acquisitions, and transparency practices.

Our proxy voting policies and procedures (hereinafter, "proxy voting policy") as delineated herein are designed to ensure proxies are voted in the best interest of clients. Failing to vote clients' shares (when the responsibility has been delegated to us), without consideration of the effects of the proposal's recommendations, or voting arbitrarily with or against management, may violate our fiduciary duty. By authority delegated pursuant to our advisory agreement with clients, KWM votes proxies on behalf of clients and advisory affiliates. Moreover, we have an obligation to vote proxies in a timely manner.

This is assured in that each account custodian used by KWM, upon client consent, automatically forwards clients' proxy-voting statements to us. The Chief Compliance Officer is responsible for voting client proxies.

Accordingly, we have developed the following guidelines to ensure that clients' interests are given precedence when evaluating proxy proposals:

1. Proxy Voting Guidelines

We generally vote proposals in accordance with these guidelines, but we may deviate from the guidelines if warranted by the specific facts and circumstances of the situation. We apply these principles to our proxy decisions. We believe that a company's corporate strategy, the board of directors, financial issues, operations, mergers and acquisitions, and transparency practices may have a significant effect on the value of company shares, and we consider these matters when voting. The decision of how to vote follows the same criteria we use in managing client accounts, that is, to vote for proposals in such a manner that, based on our analysis, will increase shareholder value.

There may be instances where we must evaluate proxy proposals on a case-by-case basis, and in such instances, the following criteria will guide our decision. On the other hand, in situations where our vote cannot be decided by an application of our guidelines, we will abstain from voting.

Also, proxy proposals not specifically addressed by these guidelines, whether submitted by management or shareholders, will be evaluated on a case-by-case basis, remaining cognizant of our fiduciary duty to make voting decisions that, by maximizing long-term shareholder value, are in our clients' best interest.

In evaluating a particular proxy proposal, KWM takes into consideration, among other items:

- How the proxy proposal will impact clients (i.e., maximizing shareholder value);
- The period of time over which shares of the company are expected to be held in the client's portfolio;
- The size of the position;
- The costs involved in voting the proxy proposal;
- Management's assertions regarding the proxy proposal; and
- Other shareholder groups' assertions regarding the proxy proposal.

Furthermore, in making decisions regarding our votes, we may engage with companies in advance of their annual meeting, and throughout the year. We believe such engagement provides the opportunity to

share our philosophy, our corporate governance values, and, more importantly, affect positive change and offer a more holistic view of governance practices and relevant trends.

We believe that authority and accountability for setting and executing corporate policies, goals, and compensation rests with the board of directors and senior management. In return, we support shareholder rights and activism that allow shareholders to hold directors and management accountable if they fail to act in the best interests of shareholders.

Accordingly, for proxy solicitations that do not align with our investment strategy, our vote will generally align with senior management recommendations. In most cases, we abstain from voting a proxy for a company that is not a part of our investment strategy or for which we do not make recommendation.

2. Research & Resources

In addition to adhering to our proxy voting guidelines, we will utilize one or more of the following research and resources to further evaluate proxy proposals:

- Ongoing research of the company (through business and trade publications)
- Company management recommendations accompanying proxies
- Company conference calls
- Company annual reports
- Analyst reports of the company
- Other documents received that contain recommendations on how to vote the proxy

3. Conflicts of Interest

A conflict of interest occurs whenever our firm has competing interests and/or where there is the potential to place one client's interest ahead of another. KWM may encounter a material conflict in voting client proxies. KWM has a duty to recognize any material conflicts and to resolve such conflicts before voting a proxy. There is a potential material conflict of interest when we vote a proxy solicited by an issuer with whom KWM, our principals, affiliates, shareholders, members, partners, managers, directors, officers, or ~ 34 ~ employees have a material relationship that may affect how we vote on the issuer's proxy KWM is required to identify conflicts of interest and seek to avoid or mitigate such conflicts of interest and fully disclose all material facts concerning any conflict..

Exhibit C
Nominating and Corporate Governance Committee Charter
World Funds Trust

Nominating and Corporate Governance Committee Membership

1. The Nominating and Corporate Governance Committee of World Funds Trust (the “Trust”) shall be composed entirely of Independent Trustees.

Board Nominations and Functions

1. The Committee shall make nominations for Trustee membership on the Board of Trustees, including the Independent Trustees. The Committee shall evaluate candidates’ qualifications for Board membership and their independence from the investment advisers to the Trust’s series portfolios and the Trust’s other principal service providers. Persons selected as Independent Trustees must not be “interested person” as that term is defined in the Investment Company Act of 1940, nor shall Independent Trustee have and affiliations or associations that shall preclude them from voting as an Independent Trustee on matters involving approvals and continuations of Rule 12b-1 Plans, Investment Advisory Agreements and such other standards as the Committee shall deem appropriate. The Committee shall also consider the effect of any relationships beyond those delineated in the 1940 Act that might impair independence, *e.g.*, business, financial or family relationships with managers or service providers. See Appendix A for Procedures with Respect to Nominees to the Board.
2. The Committee shall periodically review Board governance procedures and shall recommend any appropriate changes to the full Board of Trustees.
3. The Committee shall periodically review the composition of the Board of Trustees to determine whether it may be appropriate to add individuals with different backgrounds or skill sets from those already on the Board.
4. The Committee shall periodically review trustee compensation and shall recommend any appropriate changes to the Independent Trustees as a group.

Committee Nominations and Functions

1. The Committee shall make nominations for membership on all committees and shall review committee assignments at least annually.
2. The Committee shall review, as necessary, the responsibilities of any committees of the Board, whether there is a continuing need for each committee, whether there is a need for additional committees of the Board, and whether committees should be combined or reorganized. The Committee shall make recommendations for any such action to the full Board.

Other Powers and Responsibilities

1. The Committee shall have the resources and authority appropriate to discharge its responsibilities, including authority to retain special counsel and other experts or consultants at the expense of the Trust.
2. The Committee shall review this Charter at least annually and recommend any changes to the full Board of Trustees.

Adopted: August 2, 2013

**APPENDIX A TO THE NOMINATING AND CORPORATE GOVERNANCE COMMITTEE
CHARTER**

WORLD FUNDS TRUST

PROCEDURES WITH RESPECT TO NOMINEES TO THE BOARD

- I. *Identification of Candidates.* When a vacancy on the Board of Trustees exists or is anticipated, and such vacancy is to be filled by an Independent Trustee, the Nominating and Corporate Governance Committee shall identify candidates by obtaining referrals from such sources as it may deem appropriate, which may include current Trustees, management of the Trust, counsel and other advisors to the Trustees, and shareholders of the Trust who submit recommendations in accordance with these procedures. In no event shall the Nominating and Corporate Governance Committee consider as a candidate to fill any such vacancy an individual recommended by any investment adviser of any series portfolio of the Trust, unless the Nominating and Corporate Governance Committee has invited management to make such a recommendation.

- II. *Shareholder Candidates.* The Nominating and Corporate Governance Committee shall, when identifying candidates for the position of Independent Trustee, consider any such candidate recommended by a shareholder if such recommendation contains: (i) sufficient background information concerning the candidate, including evidence the candidate is willing to serve as an Independent Trustee if selected for the position; and (ii) is received in a sufficiently timely manner as determined by the Nominating and Corporate Governance Committee in its discretion. Shareholders shall be directed to address any such recommendations in writing to the attention of the Nominating and Corporate Governance Committee, c/o the Secretary of the Trust. The Secretary shall retain copies of any shareholder recommendations which meet the foregoing requirements for a period of not more than 12 months following receipt. The Secretary shall have no obligation to acknowledge receipt of any shareholder recommendations.

- III. *Evaluation of Candidates.* In evaluating a candidate for a position on the Board of Trustees, including any candidate recommended by shareholders of the Trust, the Nominating and Corporate Governance Committee shall consider the following: (i) the candidate's knowledge in matters relating to the mutual fund industry; (ii) any experience possessed by the candidate as a director or senior officer of public companies; (iii) the candidate's educational background; (iv) the candidate's reputation for high ethical standards and professional integrity; (v) any specific financial, technical or other expertise possessed by the candidate, and the extent to which such expertise would complement the Board's existing mix of skills, core competencies and qualifications; (vi) the candidate's perceived ability to contribute to the ongoing functions of the Board, including the candidate's ability and commitment to attend meetings regularly and work collaboratively with other members of the Board; (vii) the candidate's ability to qualify as an Independent Trustee and any other actual or potential conflicts of interest involving the candidate and the Trust; and (viii) such other factors as the Nominating and Corporate Governance Committee determines to be relevant in light of the existing composition of the Board and any anticipated vacancies. Prior to making a final recommendation to the Board, the Nominating and Corporate Governance Committee shall conduct personal interviews with those candidates it concludes are the most qualified candidates.
